Table of Contents

Foreword .............................................................................................................................................. xv

Preface ................................................................................................................................................ xvii

Section 1
Mobile and Wearable Technology Introduction

Chapter 1
Purpose, Scope, and Technical Considerations of Wearable Technologies................................. 1
   Mehtab Mehdi, Northern Border University, Saudi Arabia
   Abdulrahman Alharby, Northern Border University, Saudi Arabia

Chapter 2
Education Technology Disposable Information.................................................................................. 20
   Rosa Iaquinta, High Secondary School, Italy
   Tiziana Iaquinta, University of Catanzaro Magna Graecia, Italy

Chapter 3
Wearable Technology Spending: A Strategic Approach to Decision-Making................................. 37
   Jason Ribeiro, University of Calgary, Canada

Chapter 4
Health and Fitness Wearables .......................................................................................................... 58
   Mike S. Butler, Emporia State University, USA
   Paul E. Luebbers, Emporia State University, USA

Section 2
Mobile and Wearable Technology Device Extensions

Chapter 5
Digital Badges: Tracking Knowledge Acquisition within an Innovation Framework ..................... 80
   Talitha Hudgins, Utah Valley University, USA
   Janet Holland, Emporia State University, USA
Chapter 6
Wearable Cameras ................................................................................................................................95
Alessio Drivet, University of Turin, Italy

Chapter 7
Wearable Technologies in Academic Information Search ....................................................................... 122
Robert Gibson, Emporia State University, USA

Chapter 8
Design and Development of Educational Multimedia: The Software Development Process for Mobile Learning ........................................................................................................................................... 147
Ibrahim Arpaci, Gaziosmanpasa University, Turkey

Section 3
Mobile and Wearable Technology Applications

Chapter 9
Wearables and People with Disabilities: Socio-Cultural and Vocational Implications .......................... 167
Damara Goff Paris, Emporia State University, USA
Katrina R. Miller, Emporia State University, USA

Chapter 10
Mobile Technologies for Student Centered Learning in a Distance Higher Education Program ....... 184
Lisbeth Amhag, Malmo University, Sweden

Chapter 11
Google AdSense as a Mobile Technology in Education ......................................................................... 200
Azizul Hassan, Cardiff Metropolitan University, UK
Donatella S. Privitera, University of Catania, Italy

Chapter 12
The ScavengAR Hunt: An Augmented Reality Teacher Training Case Study Using Mobile Devices ............................................................................................................................................... 224
Daniel Watanabe, Olympic College, USA

Section 4
Mobile and Wearable Technology in Applied Sciences

Chapter 13
Trends in Wearable Technologies for Earth Science .............................................................................. 248
Thomas A. Woolman, On Target Technologies, USA
Chapter 14
Developing an Elementary Engineering Education Program through Problem-Based Wearable Technologies Activities ................................................................................................................................. 269
Bradley S. Barker, University of Nebraska-Lincoln, USA
Gwen Nugent, University of Nebraska-Lincoln, USA
Neal Grandgenett, University of Nebraska at Omaha, USA
Jennifer Keshwani, University of Nebraska-Lincoln, USA
Carl Nelson, University of Nebraska-Lincoln, USA
Ben Leduc-Mills, SparkFun Electronics, Inc., USA

Chapter 15
Smart Device Clickers: Learning Basic Sciences and Biotechnology .................................................. 295
Érika Bertozzi de Aquino Mattos, Universidade Federal Fluminense, Brazil
Isabelle Mazza Guimarães, Universidade Federal Fluminense, Brazil
Alexander Gonçalves da Silva, Universidade Federal do Rio de Janeiro, Brazil
Claudia Marcia Borges Barreto, Universidade Federal Fluminense, Brazil
Gerlinde Agate Platais Brasil Teixeira, Universidade Federal Fluminense, Brazil

Compilation of References .................................................................................................................. 321

About the Contributors ........................................................................................................................ 356
