Table of Contents

Foreword ........................................................................................................................................... xxiii

Preface ................................................................................................................................................ xxv

Acknowledgment ............................................................................................................................ xxxii

Section 1
Framing Knowledge for Teaching Mathematics with Technology in the Digital Age

Chapter 1
Technological Pedagogical Content Knowledge: Preparation and Support of Mathematics Teachers ........................................................................................................................................ 1

Rachel A. Harrington, Western Oregon University, USA
Shannon O. Driskell, University of Dayton, USA
Christopher J. Johnston, American Institutes for Research, USA
Christine A. Browning, Western Michigan University, USA
Margaret L. Niess, Oregon State University, USA

Chapter 2
Design and Implementation Principles for Dynamic Interactive Mathematics Technologies .......... 23

Thomas P. Dick, Oregon State University, USA
Gail F. Burrill, Michigan State University, USA

Chapter 3
Transforming Mathematics Teaching through Games and Inquiry .................................................. 52

Karin Wiburg, New Mexico State University, USA
Barbara Chamberlin, New Mexico State University, USA
Karen Trujillo, New Mexico State University, USA
Julia Lynn Parra, New Mexico State University, USA
Theodore Stanford, New Mexico State University, USA
Chapter 4
Technology-Mediated Mathematics Teacher Development: Research on Digital Pedagogies of Practice.................................................................................................................................................. 78
  Patricio Herbst, University of Michigan, USA
  Daniel Chazan, University of Maryland, USA
  Vu Minh Chieu, University of Michigan, USA
  Amanda Milewski, University of Michigan, USA
  Karl W. Kosko, Kent State University, USA
  Wendy Rose Aaron, Oregon State University, USA

Chapter 5
Mathematics Education Technology Professional Development: Changes over Several Decades..... 107
  Shannon O. Driskell, University of Dayton, USA
  Sarah B. Bush, Bellarmine University, USA
  Robert N. Ronau, University of Cincinnati, USA
  Margaret L. Niess, Oregon State University, USA
  Christopher R. Rakes, University of Maryland – Baltimore County, USA
  David K. Pugalee, University of North Carolina – Charlotte, USA

Chapter 6
Distance Technologies and the Teaching and Learning of Mathematics in the Era of MOOC........ 137
  Veronica Hoyos, National Pedagogical University, Mexico

Section 2
  Developing and Assessing Preservice Teacher Knowledge for Teaching Mathematics with Technologies in the Digital Age

Chapter 7
Documenting a Developing Vision of Teaching Mathematics with Technology ......................... 166
  Dana C. Cox, Miami University, USA
  Suzanne R. Harper, Miami University, USA

Chapter 8
Transforming Mathematics Teacher Knowledge in the Digital Age through Iterative Design of Course-Based Projects .................................................................................................................. 190
  Jennifer M. Suh, George Mason University, USA
  Debra R. Sprague, George Mason University, USA
  Courtney K. Baker, George Mason University, USA

Chapter 9
Transforming Preservice Mathematics Teacher Knowledge for and with the Enacted Curriculum: The Case of Digital Instructional Materials................................................................. 215
  Alden J. Edson, Michigan State University, USA
  Amanda Thomas, University of Nebraska – Lincoln, USA
Chapter 10
Transforming Lesson Design through Animation: Preservice Mathematics Teachers’ Plan-Imations.................................................................241
  Julie M. Amador, University of Idaho, USA
  Darrell Earnest, University of Massachusetts – Amherst, USA

Chapter 11
Prospective Teachers’ Incorporation of Technology in Mathematics Lesson Plans................................. 272
  Karen Hollebrands, North Carolina State University, USA
  Allison W. McCulloch, North Carolina State University, USA
  Hollylynne S. Lee, North Carolina State University, USA

Chapter 12
Formative Assessment and Preservice Elementary Teachers’ Mathematical Justification: Using Digital Tools for Convincing and Assessing................................. 293
  Alden J. Edson, Michigan State University, USA
  Diane R. Rogers, Kalamazoo Regional Educational Service Agency, USA
  Christine A. Browning, Western Michigan University, USA

Chapter 13
Learning Mathematics and Technology through Inquiry, Cooperation, and Communication: A Learning Trajectory for Future Mathematics Teachers............................................. 324
  Alfinio Flores, University of Delaware, USA
  Jungeun Park, University of Delaware, USA
  Stephen A. Bernhardt, University of Delaware, USA

Chapter 14
Mathematics Teacher Educators’ TPACK and MKT Knowledge Domains: Designing Online Discussion Blogs..................................................................................... 353
  Anne Marie S. Marshall, Berry College, USA
  Kadian M. Callahan, Kennesaw State University, USA

Section 3
Transforming and Assessing Inservice Teacher Knowledge for Teaching Mathematics with Technologies in the Digital Age

Chapter 15
The Influence of Professional Development on Primary Teachers’ TPACK and Use of Formative Assessment..................................................................................... 382
  Drew Polly, The University of North Carolina – Charlotte, USA
  Christie Martin, University of South Carolina – Columbia, USA
  Chuang Wang, The University of North Carolina – Charlotte, USA
  Richard G. Lambert, The University of North Carolina – Charlotte, USA
  David K. Pugalee, The University of North Carolina – Charlotte, USA
  Catharina W. Middleton, East Carolina University, USA
Chapter 16
Designing Elementary Mathematics Games using Effective Mathematics Teaching Practices .......... 406
Beth Bos, Texas State University, USA
Theressa Engel, Lamar Elementary, USA

Chapter 17
Developing Teachers’ TPACK for Mathematics through Professional Development: The Case of InterMath ................................................................. 433
Chandra Hawley Orrill, University of Massachusetts – Dartmouth, USA
Drew Polly, University of North Carolina – Charlotte, USA

Chapter 18
Mathematics Teachers’ Knowledge-of-Practice with Technologies in an Online Masters’ Program: Scoop Action Research Experiences and Reflections ................................................................. 463
Margaret L. Niess, Oregon State University, USA
Henry Gillow-Wiles, Oregon State University, USA

Chapter 19
An Algebra Teacher’s Instructional Decision-Making Process with GeoGebra: Thinking with a TPACK Mindset ................................................................. 493
Jacob Felger, Mississinewa Community Schools, USA
Kathryn G. Shafer, Ball State University, USA

Chapter 20
Dynamic Approach to Teaching Geometry: A Study of Teachers’ TPACK Development ............... 519
Ewelina Suchacka McBroom, Southeast Missouri State University, USA
Zhonghong Jiang, Texas State University, USA
M. Alejandra Sorto, Texas State University, USA
Alexander White, Texas State University, USA
Edwin Dickey, University of South Carolina, USA

Chapter 21
Preparing Teachers to Implement Technology: The CCMS Experience .................................. 551
Stephen J. Pape, Johns Hopkins University, USA
Sharilyn K. Owens, Forsyth Technical Community College, USA
Douglas T. Owens, The Ohio State University, USA
Karen E. Irving, The Ohio State University, USA
Chapter 22
A Reconstructed Conception of Learner Engagement in Technology Rich Online Learning Environments .......................................................................................................................... 577
  Henry Gillow-Wiles, Oregon State University, USA
  Margaret L. Niess, Oregon State University, USA

Compilation of References ................................................................................................................. 608

About the Contributors .......................................................................................................................... 665
