Acknowledgment

The editor would like to acknowledge the help of all involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed.

Most of the authors of cases included in this book also served as referees for articles written by other authors. Thanks go to all those who provided constructive and comprehensive reviews: Steffen Mencke, Fiona McNeill, Patrick Maue, Peter Denno, Michael Gruninger, Jerome Euzenat, Mathias Uslar, Daniel Sonntag, Janina Fengel, Heiko Stoermer, Serge Boucher and Bo Hu.

Special thanks also go to the publishing team at IGI Global. In particular to Tyler Heath, who continuously prodded via e-mail for keeping the project on schedule and to Nicole Gerhart and Megan Childs for their support in the production of the manuscript.

Special thanks go to Dr. Peter Hart and Professor Dave Robertson who read the final draft of the manuscript and provided helpful suggestions for enhancing its content. Dr. Hart and Professor Robertson also kindly agreed to write insightful forewords for the book.

In closing, I wish to thank all of the authors for their insights and excellent contributions to this book.

Finally, I want to thank my beloved wife, Steph Esther, for her eternal love and wholehearted support throughout this project.
