Table of Contents

Foreword .......................................................................................................................... xvi

Preface........................................................................................................................... xviii

Chapter 1
A Survey on Strategies, Trends, Economics, and Prospects of Cloud-Based Gaming
  Sharon Moses J., VIT University, India
  Dhinesh Babu L. D., VIT University, India
  Nirmala M., VIT University, India
  M. Rajasekhara Babu, VIT University, India
  P. Venkata Krishna, Sri Padmavathi Mahila Visvavidyalayam, India

Chapter 2
Efficient Development and Execution of Adaptable Online Games on Clouds
  Dominik Meiländer, University of Muenster, Germany
  Sergei Gorlatch, University of Muenster, Germany

Chapter 3
Emerging Technologies and Applications for Cloud-Based Gaming: Review
on Cloud Gaming Architectures ................................................................. 67
  Deverajan Ganesh Gopal, VIT University, India
  Sekaran Kaushik, VIT University, India

Chapter 4
Cloud Gaming: Design Architecture and Challenges ............................................. 88
  Prajit Kumar Datta, VIT University, India
  Utkarsh Srivastava, VIT University, India
Chapter 5
EAC-MPCG: Efficient Access Control for Multi-Player Cloud Games .......... 106
  Sudha Senthilkumar, VIT University, India
  V. Madhu Viswanatham, VIT University, India

Chapter 6
Issues in On-Demand Cloud-Based Gaming Storage: Quality of Service and
Quality of Experience .............................................................. 115
  Ebin Deni Raj, VIT University, India
  L. D. Dhinesh Babu, VIT University, India

Chapter 7
Cloud-Based Gaming Services ................................................... 139
  Shivangshu Nag, VIT University, India
  Vipul Kumar Srivastava, VIT University, India
  Ragam Sai Krishna, VIT University, India

Chapter 8
Mixed Augmented Reality Systems for Real World Integration............... 159
  Raajan N. R., SASTRA University, India
  Nandhini Kesavan, SASTRA University, India

Chapter 9
Gesture Recognition: An Interactive Tool in Multimedia ...................... 191
  Nandhini Kesavan, SASTRA University, India
  Raajan N. R., SASTRA University, India

Chapter 10
Necessity of Key Aggregation Cryptosystem for Data Sharing in Cloud
Computing............................................................................... 210
  R. Deepthi Crestose Rebekah, Ravindra college of Engineering for
  Women, India
  Dhanaraj Cheelu, Ravindra college of Engineering for Women, India
  M. Rajasekhara Babu, VIT University, India
