Table of Contents

Preface .................................................................................................................................................. xvi

Chapter 1  
Acoustic Method for the Suppression of Acoustic and Aerodynamically Induced Vibration on  
Structures .............................................................................................................................................. 1  
   Harijono Djojodihardjo, Independent Researcher, Indonesia

Chapter 2  
Agent Based Modelling of Smart Structures: The Challenges of a New Research Domain .......... 38  
   Andreea Ion, University Politehnica of Bucharest, Romania  
   Monica Patrascu, University Politehnica of Bucharest, Romania

Chapter 3  
Definition of Static Nonlinear Procedure and Flexibility-Based Model with Application on 2D  
Model for an Existing Structure and Comparing Results with Time History Analysis............... 61  
   Mourad Belgasmia, University of Setif, Algeria

Chapter 4  
Experiments on a Ring Tension Setup and FE Analysis to Evaluate Transverse Mechanical  
Properties of Tubular Components ................................................................................................. 91  
   M.K. Samal, Bhabha Atomic Research Centre, India  
   K.S. Balakrishnan, Bhabha Atomic Research Centre, India

Chapter 5  
Dynamic Analysis of Offshore Wind Turbine Structures ................................................................. 116  
   Arundhuti Banerjee, Indian Institute of Technology (IIT), India  
   Tanusree Chakraborty, Indian Institute of Technology (IIT), India  
   Vasant Matsagar, Indian Institute of Technology (IIT), India  
   Tushar Kanti Datta, Indian Institute of Technology (IIT), India.
Chapter 6
Seismic Reliability Analysis in the Framework of Metamodelling Based Monte Carlo Simulation

Shyamal Ghosh, Indian Institute of Engineering Science and Technology (IIEST), Shibpur, India
Soham Mitra, Indian Institute of Engineering Science and Technology (IIEST), Shibpur, India
Swarup Ghosh, Indian Institute of Engineering Science and Technology (IIEST), Shibpur, India
Subrata Chakraborty, Indian Institute of Engineering Science and Technology (IIEST), Shibpur, India

Chapter 7
Finite Element Analysis of Pipe Bends under External Loads

Sumesh S., National Institute of Technology, Tiruchirappalli, India
A. R. Veerappan, National Institute of Technology, Tiruchirappalli, India
S. Shanmugam, National Institute of Technology, Tiruchirappalli, India

Chapter 8
Fuzzy Structural Analysis Using Surrogate Models

A. S. Balu, National Institute of Technology, Karnataka, India
B. N. Rao, Indian Institute of Technology Madras, India

Chapter 9
FE Analysis and Experimental Investigation of Cracked and Un-Cracked Thin-Walled Tubular Components to Evaluate Mechanical and Fracture Properties

M.K. Samal, Bhabha Atomic Research Centre, India

Chapter 10
MARS and Neural Network Models for Shear Strength Prediction of Squat Reinforced Concrete Walls: Shear Strength of Squat Reinforced Concrete Walls

Anthony T.C. Goh, Nanyang Technological University, Singapore
Wengang Zhang, Chongqing University, China

Chapter 11
Nonlinear System Identification of Smart Buildings

Soroush Mohammadzadeh, University of Oklahoma, USA
Yeesock Kim, Worcester Polytechnic Institute (WPI), USA

Chapter 12
Polynomial Correlated Function Expansion

Souvik Chakraborty, Indian Institute of Technology Roorkee, India
Rajib Chowdhury, Indian Institute of Technology Roorkee, India
Chapter 13
Prevention of Corrosion in Austenitic Stainless Steel through a Predictive Numerical Model
Simulating Grain Boundary Chromium Depletion ................................................................. 374
  M.K. Samal, Bhabha Atomic Research Centre, India

Chapter 14
Risk Analysis of Structural Engineering Systems Using Bayesian Inference ....................... 390
  Sharvil Alex Faroz, Indian Institute of Technology Bombay, India
  Nikil Narayan Pujari, Indian Institute of Technology Bombay, India
  Rohit Rastogi, Bhabha Atomic Research Centre, India
  Siddhartha Ghosh, Indian Institute of Technology Bombay, India

Chapter 15
Simulating Post-Earthquake Fire Loading in Conventional RC Structures ............................ 425
  Behrouz Behnam, Amirkabir University of Technology (Tehran Polytechnic), Iran

Chapter 16
Structural Integrity Assessment and Control of Ageing Onshore and Offshore Structures ........ 445
  R.M. Chandima Ratnayake, University of Stavanger, Norway
  S.M. Samindi Samarakoon, University of Stavanger, Norway

Compilation of References ..................................................................................................... 477

About the Contributors .......................................................................................................... 516

Index ......................................................................................................................................... 522
