The editors would like to acknowledge the help of all the people involved in this project and, more specifically, the authors and reviewers who took part in the review process. Without their support, this book would not have become a reality.

First, the editors would like to thank each one of the authors for their contributions. Our sincere gratitude goes to the chapters’ authors who contributed their time and expertise to this book.

Second, the editors wish to acknowledge the valuable contributions of the reviewers regarding the improvement of quality, coherence, and content presentation of chapters. Some of the authors also served as reviewers; we highly appreciate their double task.

Thirdly, we appreciate the kind help and professional guidance of Janine Haughton, of IGI Global publishers in Hershey, PA. We deeply appreciate this chance to further research in both Computer Assisted Language Learning (CALL) and Second Language Vocabulary Acquisition (SLVA) to contribute to improving foreign and second language education, especially by means of Flipped or inverted instructional methods and media.
