Table of Contents

Preface........................................................................................................................................... xv

Chapter 1
FPGA-Based Re-Configurable Architecture for Window-Based Image Processing ................................................................. 1
Kamarujjaman Sk, Government College of Engineering and Ceramic Technology, India
Manali Mukherjee, Government College of Engineering and Ceramic Technology, India
Mausumi Maitra, Government College of Engineering and Ceramic Technology, India

Chapter 2
Mobile Platform Challenges in Interactive Computer Vision.........................47
Miguel Bordallo López, University of Oulu, Finland

Chapter 3
Fish Tracking with Computer Vision Techniques: An Application to Vertical Slot Fishways ................................................................. 74
Alvaro Rodriguez, University of Umeå, Sweden
Angel Jose Rico-Diaz, University of A Coruña, Spain
Juan R. Rabuñal, University of A Coruña, Spain
Marcos Gestal, University of A Coruña, Spain

Chapter 4
Computer Vision Based Classification on Commercial Videos ......................... 105
B. Rebecca Jeya Vadhanam, SRM University, India
Mohan S., Al Yamamah University, Saudi Arabia
V. Sugumaran, VIT University Chennai, India
Vani V., Al Yamamah University, Saudi Arabia
V. V. Ramalingam, SRM University, India
Chapter 5
Creating Sound Glyph Database for Video Subtitling .................................................. 137
Chitralekha Ganapati Bhat, TCS Innovation Labs, India
Sunil Kumar Kopparapu, TCS Innovation Labs, India

Chapter 6
Parallel Computing in Face Image Retrieval: Practical Approach to the Real-World Image Search .............................................................................................................. 156
Eugene Borovikov, National Library of Medicine, USA
Szilárd Vajda, National Library of Medicine, USA
Girish Lingappa, National Library of Medicine, USA
Michael C Bonifant, National Library of Medicine, USA

Chapter 7
Fish Monitoring, Sizing, and Detection Using Stereovision, Laser Technology, and Computer Vision ................................................................. 191
Angel Jose Rico-Diaz, University of A Coruña, Spain
Alvaro Rodriguez, University of Umeå, Sweden
Jeronimo Puertas, University of A Coruña, Spain
Maria Bermudez, University of A Coruña, Spain

Chapter 8
Controlling Prosthetic Limb Movements Using EEG Signals .................................. 212
V. V. Ramalingam, SRM University, India
Mohan S., Al Yamamah University, Saudi Arabia
V. Sugumaran, VIT University, India
Vani V., Al Yamamah University, Saudi Arabia
B. Rebecca Jeya Vadhanam, SRM University, India

Chapter 9
A Technical Assessment on License Plate Detection System .................................... 236
Jeena Rita K. S., SCMS School of Engineering and Technology, India
Bini Omman, SCMS School of Engineering and Technology, India

Compilation of References .......................................................................................... 261

About the Contributors ............................................................................................... 286

Index ............................................................................................................................. 291
