Acknowledgment

This book is work on intuitionistic fuzzy matrices and intervalvalued intuitionistic fuzzy matrices. It would not be completed without the support of many people. I owe much to them and would like to take the opportunity to thank them for their encouragement and support.

At first we would like to record my gratitude to Prof. Madhumangal Pal, Department of Applied Mathematics with Oceanology and Computer Programming, Vidyasagar University, India for his supervision, advice and guidance from the very early stage of this work as well as giving us extraordinary experiences throughout the work.

Collective and individual acknowledgements with sincere appreciation are also owed to all our colleagues of Jafuly Deshpran High School (H.S.), Damda Jr. High School, V.T.T. College whose present somehow perpetually refreshed, continuous inspiration and co-operation helped me to complete the work.

We extend sincere appreciation and thanks to all the authors for having shared their knowledge and bright ideas with the academic and engineering community.

The book editors are very grateful to the editorial team and entire staff of IGI Global, for their confidence, interest, continuous guidance and support at all levels of preparation of this book.

We would like to thank everybody who was important to the successful realization of the book, as well as expressing our apology that we could not mention personally one by one.

Amal Kumar Adak
Jafuly Deshpran High School, India

Debashree Manna
Damda Jr. High School, India

Monoranjan Bhowmik
