Table of Contents

Preface .................................................................................................................................................. xix

Volume I

Section 1
Fundamental Concepts and Theories

This section serves as a foundation for this exhaustive reference tool by addressing underlying principles essential to the understanding of Medical Education and Ethics. Chapters found within these pages provide an excellent framework in which to position Medical Education and Ethics within the field of information science and technology. Insight regarding the critical incorporation of global measures into Medical Education and Ethics is addressed, while crucial stumbling blocks of this field are explored. With 14 chapters comprising this foundational section, the reader can learn and chose from a compendium of expert research on the elemental theories underscoring the Medical Education and Ethics discipline.

Chapter 1
The Fundamentals of Health Literacy ........................................................................................................ 1
Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

Chapter 2
Health Literacy: An Essential Ingredient for Better Health Outcomes – Overview of Health
Literacy Theoretical Concepts .................................................................................................................. 22
Glenda Denson Knight, Cutting Edge Health Options, USA

Chapter 3
Gamification and Health Literacy............................................................................................................ 51
Badia Faddoul, The Johns Hopkins Hospital, USA

Chapter 4
Transformative Learning in Osteopathic Medical Education .................................................................. 63
Patricia S. Sexton, A.T. Still University, USA
Neal R. Chamberlain, A.T. Still University, USA
Chapter 5
Effective School Leadership for Māori Achievement: Building Capacity through Indigenous, National, and International Cross-Cultural Collaboration .......................................................... 78
   Andrés P. Santamaria, Auckland University of Technology, New Zealand
   Melinda Webber, The University of Auckland, New Zealand
   Lorri J. Santamaria, The University of Auckland, New Zealand

Chapter 6
Medication Errors: The Role of Societal Attributes ................................................................. 100
   Titilola T. Obilade, Virginia Polytechnic Institute and State University, USA

Chapter 7
What 21st Century Students Want: Factors that Influence Student Selection of Educational Leadership Graduate Programs .................................................................................. 110
   Lesley F. Leach, Tarleton State University, USA
   Pam Winn, Tarleton State University, USA
   Susan Erwin, Tarleton State University, USA
   Liza P. Benedict, Tarleton State University, USA

Chapter 8
Medical Knowledge, North-South Cooperation, and Mobility of Medical Doctors ................ 125
   Ahmed Driouchi, Al Akhawayn University, Morocco

Chapter 9
Knowledge Management of Medical Information Resources and Tools .................................. 145
   Misa Mi, Oakland University William Beaumont School of Medicine, USA
   Jill E. Stefaniak, Old Dominion University, USA

Chapter 10
   Byron Havard, University of West Florida, USA
   Marlene L. East, University of West Florida, USA
   Lakshmi Prayaga, University of West Florida, USA
   Alex Whiteside, University of West Florida, USA

Chapter 11
Identity, Commitment, and Change Agency: Bedrock for Bridging Theory and Practice in Doctoral Education ........................................................................................................... 189
   Carol A. Kochhar-Bryant, The George Washington University, USA
Chapter 12
Interdisciplinary Education for Research and Everyday Clinical Practice: Lessons Learned from InteRDoCTor Project

Tomasz Komendziński, Nicolaus Copernicus University in Toruń, Poland
Joanna Dreszer-Drogorób, Nicolaus Copernicus University in Toruń, Poland
Emilia Mikołajewska, Nicolaus Copernicus University in Toruń, Poland & Military Clinical Hospital No. 10 and Polyclinic, Poland
Dariusz Mikołajewski, Kazimierz Wielki Universit, Poland & Nicolaus Copernicus University in Toruń, Poland
Bibianna Bałaj, Nicolaus Copernicus University in Toruń, Poland

Chapter 13
Learning to Teach Online: Negotiating Issues of Platform, Pedagogy, and Professional Development

Christina M. Tschida, East Carolina University, USA
Elizabeth M. Hodge, East Carolina University, USA
Steven W. Schmidt, East Carolina University, USA

Chapter 14
Introducing Educational Technology into the Higher Education Environment: A Professional Development Framework

Linda Van Ryneveld, University of Pretoria, South Africa

Section 2
Development and Design Methodologies

This section includes 15 contributions providing an in-depth coverage of conceptual architecture frameworks to provide the reader with a comprehensive understanding of the emerging developments within the field of Medical Education and Ethics. Research fundamentals imperative to the understanding of developmental processes within Medical Education and Ethics are offered. From broad examinations to specific discussions on methodology, the research found within this section spans the discipline while offering detailed, specific discussions. This section also touches some coverage of various tools and technologies available in the field of Medical Education and Ethics that practitioners and academicians alike can utilize to develop different techniques.

Chapter 15
Introducing iPads into Primary Mathematics Classrooms: Teachers’ Experiences and Pedagogies

Catherine Attard, University of Western Sydney, Australia

Chapter 16
Integrating Technology in Nurse Education: Tools for Professional Development, Teaching, and Clinical Experiences

Vivian H. Wright, University of Alabama, USA
Anjanetta Davis, University of South Alabama, USA
# Chapter 17
A Professional Development Framework for the Flipped Classroom Model: Design and Implementation of a Literacy and Math Integrated Professional Development Initiative  
*Anne Katz, Armstrong State University, USA*
*Tricia Muldoon Brown, Armstrong State University, USA*
*Jackie Kim, Armstrong State University, USA*

# Chapter 18
Data-Driven and Practice-Based Evidence: Design and Development of Efficient and Effective Clinical Decision Support System  
*Hamzah Osop, Queensland University of Technology, Australia*
*Tony Sahama, Queensland University of Technology, Australia*

# Chapter 19
A Model for Meaningful E-Learning at Canadian Universities  
*Lorraine Carter, McMaster University, Canada*
*Vince Salyers, Mount Royal University, Canada*

# Chapter 20
A Framework for Supporting In-Service Teachers to Use Domain-Specific Technologies for Instruction  
*Louise Yarnall, SRI International, USA*
*Judith Fusco, SRI International, USA*

# Chapter 21
Transformative Curriculum Design  
*Colleen M. Halupa, A.T. Still University, USA & LeTourneau University, USA*

# Chapter 22
Designing a cMOOC for Lecturer Professional Development in the 21st Century  
*Thomas Cochrane, Auckland University of Technology, New Zealand*
*Vickel Narayan, Auckland University of Technology, New Zealand*
*Victorio Burcio-Martín, Auckland University of Technology, New Zealand*

# Volume II

# Chapter 23
Redesigning the Organizational Structure to Reach Efficiency: The Case of Ministry of Health and Medical Education of Iran  
*Mohammad Arabi, University of Allameh, Iran*

# Chapter 24
Dissertation Redesign for Scholarly Practitioners in Educational Leadership: Increasing Impact through Dissemination-Ready Sections  
*Cynthia J. MacGregor, Missouri State University, USA*
*Jennifer Fellabaum, University of Missouri, USA*
Chapter 25
HCI and E-Learning: Developing a Framework for Evaluating E-Learning ........................................558
    Titilola T. Obilade, Virginia Polytechnic Institute and State University, USA

Chapter 26
Creating an EdD Structure, Program, and Process Fulfilling the Needs of Doctoral Candidates and the Communities They Will Serve: Applying Lessons Learned from the Redesign of a Principal Preparation Program ............................................................. 581
    Marla Susman Israel, Loyola University, USA
    Susan Sostak, Loyola University, USA
    Felicia P. Stewart, Loyola University, USA
    Ahlam Bazzi-Moughania, Loyola University, USA

Chapter 27
Re-Framing the Formation of Rural Educational Leaders........................................................................600
    R. John Halsey, Flinders University, Australia

Chapter 28
Teacher Effect Model for Impacting Student Achievement .......................................................................620
    Tina Heafner, University of North Carolina at Charlotte, USA

Chapter 29
Systematic Support for STEM Pre-Service Teachers: An Authentic and Sustainable Four-Pillar Professional Development Model ................................................................. 637
    Reenay R.H. Rogers, University of West Alabama, USA
    Jodie Winship, University of West Alabama, USA
    Yan Sun, University of West Alabama, USA

Section 3
Utilization and Applications

This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective Medical Education and Ethics programs and processes. This section includes 12 chapters that review topics from case studies to best practices and ongoing research. Further chapters discuss Medical Education and Ethics in a variety of settings. Contributions included in this section provide excellent coverage of today’s IT community and how research into Medical Education and Ethics is impacting the social fabric of our present-day global village.

Chapter 30
Teachers’ Use of Social Networking Sites for Continuing Professional Development ......................... 656
    Daniel Xerri, University of Malta, Malta
Chapter 31
Supporting the Enactment of Standards-Based Mathematics Pedagogies: The Cases of the
CoDE-I and APLUS Projects
Drew Polly, University of North Carolina at Charlotte, USA
Christie S. Martin, University of South Carolina at Columbia, USA
Chuang Wang, University of North Carolina at Charlotte, USA
Richard G. Lambert, University of North Carolina at Charlotte, USA
David Pugalee, University of North Carolina at Charlotte, USA

Chapter 32
Analyzing the Role of Health Information Technology in Global Health Care
Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

Chapter 33
Cross-Border Collaborative Learning in the Professional Development of Teachers: Case Study –
Online Course for the Professional Development of Teachers in a Digital Age
Rafi Davidson, Kaye Academic College of Education, Israel
Amnon Glassner, Kaye Academic College of Education, Israel

Chapter 34
Teacher Insight on RTI Implementation at the Middle and High School Levels: A Comparative
Case Study
Pam Epler, Grand Canyon University, USA

Chapter 35
Assessing the Performance of a Cohort-Based Model Using Domestic and International
Practices
Lou L. Sabina, Oklahoma State University, USA
Katherine A. Curry, Oklahoma State University, USA
Edward L. Harris, Oklahoma State University, USA
Bernita L. Krumm, Oklahoma State University, USA
Vallory Vencill, Oklahoma State University, USA

Chapter 36
Using a Literacy-Based Classroom Partnership to Prepare Teacher Candidates for the edTPA
Jana Lynn Hunzicker, Bradley University, USA
Cecile M. Arquette, Bradley University, USA
Peter Olson, California State Polytechnic University – Pomona, USA
Douglas Atkins, Whittier Primary School, USA

Chapter 37
A Comparative Evaluation of E-Learning Adoption in Private and Public Higher Education
Institutions: A Tanzania Survey
Mpe Paulo Mwamahusi, Tanzania Institute of Technology, Tanzania
Titus Tossy, Mzumbe University, Tanzania
Chapter 38
User Design: A Case Study in Developing Workplace Curricula .................................................. 829
  Robert Anthony Jordan, Independent Researcher, USA
  Alison Carr-Chellman, Penn State University, USA

Chapter 39
High School Turnaround: A Case Study .............................................................................. 847
  Rebecca Stobaugh, Western Kentucky University, USA
  Wanda G. Chandler, Western Kentucky University, USA
  Crystal White, Kentucky Department of Education, USA

Chapter 40
Self-Assessment of Principals Based on Leadership in Complexity ........................................... 873
  Leyla Yılmaz Findik, Hacettepe University, Turkey

Chapter 41
Implementation of Scholarship of Teaching and Learning through an On-Line Masters Program.... 888
  Klara Bolander Laksov, Karolinska Institutet, Sweden
  Charlotte Silén, Karolinska Institutet, Sweden
  Lena Engqvist Boman, Karolinska Institutet, Sweden

Section 4
Organizational and Social Implications

This section includes a wide range of research pertaining to the social and behavioral impact of Medical Education and Ethics around the world. Chapters introducing this section critically analyze and discuss trends in Medical Education and Ethics. Also investigating a concern within the field of Medical Education and Ethics is research which discusses the effect of user behavior on Medical Education and Ethics. With 11 chapters, the discussions presented in this section offer research into the integration of global Medical Education and Ethics as well as implementation of ethical and workflow considerations for all organizations.

Chapter 42
Engaging Patients and Lowering Costs: Technology to the Rescue ........................................... 920
  Tony Zordich, Business BenchmaRx, USA
  Julia Menichetti, Catholic University of the Sacred Heart, Italy

Chapter 43
Primary Grades Teachers’ Fidelity of Teaching Practices during Mathematics Professional Development ................................................................................................................. 938
  Christie S. Martin, University of South Carolina at Columbia, USA
  Drew Polly, University of North Carolina at Charlotte, USA
  Chuang Wang, University of North Carolina at Charlotte, USA
  Richard G. Lambert, University of North Carolina at Charlotte, USA
  David Pugalee, University of North Carolina at Charlotte, USA
Chapter 44
The Role of Teacher Leadership for Promoting Professional Development Practices

Patricia Dickenson, National University, USA
Judith L. Montgomery, University of California Santa Cruz, USA

Chapter 45
Self-Directed Learning and Adult Education: Overcoming the Medical Fog

Valerie Bryan, Florida Atlantic University, USA
Kristin Brittain, Florida Atlantic University, USA
Elizabeth Swann, Florida Atlantic University, USA

Chapter 46
Joint Professional Development of Teacher Candidates and Mentoring Teachers in Using Project-Based Learning for 21st Century Learning Outcomes

Neal Shambaugh, West Virginia University, USA

Chapter 47
A Paradigm Shift for Teachers’ Professional Development Structure in Turkey: Moving from Instruction to Learning

Murat Günel, TED University, Turkey
Melike Özer-Keskin, Gazi University, Turkey
Nilay Keskin-Samancı, Gazi University, Turkey

Volume III

Chapter 48
Educational Management Leadership: High School Principal’s Management Style and Parental Involvement in School Management in Israel

Maciej Brzozowski, Poznan University of Economics and Business, Poland
Ilan Ferster, Ort Kramim High School, Israel

Chapter 49
Educational Leadership for Enhancing Quality in Teacher Education

Neeta Baporikar, HP-GSB, Namibia & University of Pune, India

Chapter 50
Culturally Responsive Educational Leadership in Cross-Cultural International Contexts

Lorri J. Santamaria, The University of Auckland, New Zealand

Chapter 51
Race and Gender Inequalities in Medicine and Biomedical Research

Djana Harp, Morehouse School of Medicine, USA
Ruth S. Shim, Lenox Hill Hospital, USA
Japera Johnson, Morehouse School of Medicine, USA
Jamal A. Harp, Morehouse School of Medicine, USA
William Clyde Wilcox, Georgetown University, USA
Judith K. Wilcox, Boston University School of Medicine, USA
Chapter 52
Diversity in Undergraduate Medical Education: An Examination of Organizational Culture and Climate in Medical Schools
Laura Castillo-Page, Association of American Medical College, USA
Jennifer Eliason, Association of American Medical College, USA
Sarah S. Conrad, Association of American Medical Colleges, USA
Marc A. Nivet, Association of American Medical College, USA

Section 5
Critical Issues and Challenges

This section contains 8 chapters, giving a wide variety of perspectives on Medical Education and Ethics and its implications. Within the chapters, the reader is presented with an in-depth analysis of the most current and relevant issues within this growing field of study. Crucial questions are addressed and alternatives offered along with theoretical approaches discussed.

Chapter 53
Understanding of Leadership in Distance Education Management
Gülay Ekren, Sinop University, Turkey
Serçin Karataş, Gazi University, Turkey
Üğur Demiray, Anadolu University, Turkey

Chapter 54
Potential Skilled Labor Migration, Internationalization of Education with Focus on Medical Education: The Case of Arab Countries
Amale Achehboune, Al Akhawayn University, Morocco
Ahmed Driouchi, Al Akhawayn University, Morocco

Chapter 55
Are Adult Women or Men Who Use the Internet as a Health Information Resource More Health Literate?
Filiz Yıldırım, Ankara University, Turkey
Metin Çakır, Bursa Public Health Administration, Turkey

Chapter 56
Critical Thinking, Instruction, and Professional Development for Schools in the Digital Age
Howard V. Coleman, Coastal Carolina University, USA
Jeremy Dickerson, Coastal Carolina University, USA
Dennis Dotterer, South Carolina Department of Education, USA

Chapter 57
Taking Making into the Schools: An Immersive Professional Development Approach
Susan E. Crichton, University of British Columbia – Okanagan, Canada
Deb Carter, University of British Columbia – Okanagan, Canada
Chapter 58
The Rural Learning Challenge: Meeting the Health Needs of Rural Residents through ICTs........ 1284
   Al Lauzon, University of Guelph, Canada

Chapter 59
Data-Driven Approaches for Developing Clinical Practice Guidelines................................. 1307
   Yiye Zhang, Weill Cornell Medicine of Cornell University, USA
   Rema Padman, Carnegie Mellon University, USA

Chapter 60
Emotional Intelligence and Political Skill Really Matter in Educational Leadership .................. 1324
   Nikoletta Taliadorou, Open University of Cyprus, Cyprus
   Petros Pashiardis, Open University of Cyprus, Cyprus

Section 6
Emerging Trends

This section highlights research potential within the field of Medical Education and Ethics while exploring uncharted areas of study for the advancement of the discipline. Introducing this section are chapters that set the stage for future research directions and topical suggestions for continued debate, centering on the new venues and forums for discussion. A pair of chapters on space-time makes up the middle of the section of the final 10 chapters, and the book concludes with a look ahead into the future of the Medical Education and Ethics field. In all, this text will serve as a vital resource to practitioners and academics interested in the best practices and applications of the burgeoning field of Medical Education and Ethics.

Chapter 61
Evolving Pedagogy and Practice: The 1:1 Mathematics Classroom through a TPACK Lens......... 1355
   Susan Hennessey, University of Vermont, USA
   Mark W. Olofson, University of Vermont, USA
   Meredith J. C. Swallow, University of Vermont, USA
   John M. Downes, University of Vermont, USA

Chapter 62
Teachers’ Professional Development in the Digitized World: A Sample Blended Learning Environment for Educational Technology Training......................................................... 1384
   Emsal Ates Ozdemir, Istanbul Sehir University, Turkey
   Kenan Dikilitaş, Hasan Kalyoncu University, Turkey

Chapter 63
Adult Education: The Intersection of Health and the Ageing Society.................................... 1395
   Linda Ellington, Palm Beach Atlantic University, USA

Chapter 64
Online Well-Being Focused Curriculums: A New Approach to Teaching and Learning for K-20 Health Education.............................................................................................................. 1415
   Michelle Lee D’Abundo, Seton Hall University, USA
   Stephen L. Firsing III, Coastal Carolina University, USA
   Cara Lynn Sidman, University of North Carolina – Wilmington, USA
Chapter 65
An Investigation of a Computer Training Company’s Migration to a New Distance Learning Platform and the Implementation of an Online Professional Development Program......................... 1430
Denis Rudd, New Horizons Computer Learning Centers, USA
Carianne Bernadowski, Robert Morris University, USA

Chapter 66
Health Information Technology and Change ................................................................. 1447
T. Ray Ruffin, University of Phoenix, School of Advanced Studies (SAS), USA & Colorado Technical University, USA & University of Mount Olive, USA & Wake Technical Community College, USA

Chapter 67
Integrating Technological Innovations to Enhance the Teaching-Learning Process .................. 1476
Judi Simmons Estes, Park University, USA
Amber Dailey-Hebert, Park University, USA
Dong Hwa Choi, Park University, USA

Chapter 68
Adapting and Advocating for an Online EdD Program in Changing Times and “Sacred” Cultures .................................................................................................................. 1505
Elan Nicole Paulson, Western University, USA

Chapter 69
Preparing Teachers in the Age of Equity and Inclusion .................................................. 1532
Kelly M. Anderson, University of North Carolina at Charlotte, USA

Chapter 70
Preparing Future Physicians to Adapt to the Changing Health Care System: Promoting Humanism through Curricular Design .............................................................................. 1555
Joanna Lauren Drowos, Florida Atlantic University, USA
Sarah K Wood, Florida Atlantic University, USA

Index ........................................................................................................................................ xxii
