The editors acknowledge the support and efforts of a number of colleagues. First and foremost, we would like to thank the contributors to this book, the authors and co-authors from academia as well as industry from around the world who collectively developed and submitted chapters. Without their efforts in developing quality chapters conforming to the required guidelines, and meeting often the strict deadlines, this text would not have been possible.

Secondly, our grateful thanks are to the members of the editorial board and reviewers of this book who willingly volunteered their time in reviewing the book chapters and providing further advisory and editorial support.

Finally, we would like to thank our HoD(s)-Computer Engineering Department and colleagues of Indian Institute of Technology, Roorkee and Charotar University of Science And Technology. We would like to thank Jan and IGI Global Team for their continuous support in this project.

Thank you all, most heartily.

Chintan M. Bhatt  
Charotar University of Science & Technology, India
