Table of Contents

Foreword ........................................................................................................................................xvi

Preface ........................................................................................................................................xviii

Acknowledgment ......................................................................................................................xxi

Chapter 1
Mobile Health Care: A Technology View ................................................................. 1
  Veda Prakash Mangu, Graphene Semiconductors Ltd., India

Chapter 2
Cloud Based Wireless Infrastructure for Health Monitoring .............................. 19
  Ajay Chaudhary, Indian Institute of Technology Roorkee, India
  Sateesh Kumar Peddoju, Indian Institute of Technology Roorkee, India
  Suresh Kumar Peddoju, Kakatiya Institute of Technology and Science, India

Chapter 3
Cloud Based Secure Data Sharing Algorithm for Health Care ....................... 47
  Saravana Kumar N., VIT University, India
  Rajya Lakshmi Gubburi Venkataramana, Northwestern Polytechnic University, USA
  Balamurugan B., VIT University, India

Chapter 4
An Adaptive Cloud Proto Type Model for Health Care System: An Adaptive Cloud Proto Type Model for Health Care System Using Software Defined Network (SDN) ................................................................. 66
  Drashti Dave, Central University of Rajasthan, India
  Nagaraju Aitha, Central University of Rajasthan, India
Chapter 5
Big Data Analytics for Childhood Pneumonia Monitoring ........................................ 77
Suresh Kumar Peddoju, Kakatiya Institute of Technology and Science, India
Kavitha K., Indian Institute of Technology, India
Sharma S. C., Indian Institute of Technology, India

Chapter 6
Diabetes Patients Monitoring by Cloud Computing .................................................. 99
Sepideh Poorejbari, Pervasive and Cloud Computing Laboratory, Iran
Hamed Vahdat-Nejad, University of Birjand, Iran
Wathiq Mansoor, University in Dubai, UAE

Chapter 7
IBM’s Watson Analytics for Health Care: A Miracle Made True ......................... 117
Mayank Aggarwal, GKV, India
Mani Madhukar, IBM, India

Chapter 8
Data Protection and Security Issues in Social Media ............................................. 135
Chintan M. Bhatt, Charotar University of Science and Technology, India

Chapter 9
Trust, Privacy, Issues in Cloud-Based Healthcare Services ............................... 163
Shweta Kaushik, JIIT Noida, India
Charu Gandhi, JIIT Noida, India

Chapter 10
A Methodological Evaluation of Crypto-Watermarking System for Medical Images .................................................................................................................. 189
Anna Babu, M. G. University, India
Sonal Ayyappan, SCMS School of Engineering and Technology, India

Chapter 11
Personalized Neuro-Fuzzy Expert System for Determination of Nutrient Requirements ............................................................................................................ 218
Priti Srinivas Sajja, Sardar Patel University, India
Jeegar Ashokkumar Trivedi, Sardar Patel University, India
