Acknowledgment

We would like to thank Cindy Selfe for initially encouraging us to explore this topic back in 2004. Since that time, we have been lucky enough to examine the complex issues revolving around digital ethos and online credibility with talented scholars from all over the world, and we hope to continue doing so in the future.

We would also like to thank all of the authors and reviewers for their contributions to this project. Many people gave generously of their time and prioritized their commitment to this book, despite having many other commitments to juggle as well.

Finally, we would also like to thank our families for their patience and support as we worked on this book.
