Acknowledgment

The authors are grateful to a number of parties for their support and encouragement during the drafting of this book. Numerous students and fellow researchers at University of Western Sydney, University of Technology, Sydney, as well as at Rensselaer Polytechnic Institute need special mention in this work. Furthermore, members of various discussion forums including those at the Australian Computer Society, Computer Society of India and Mobile Internet Research and Applications Group (MIRAG) have regularly provided comments and feedback, and have enabled the survey on collaboration across the globe. Our thanks to all these wonderful people. As always, we are grateful to our families for enabling us to write this book and we remain grateful to them for their encouragements and support:
