Preface .................................................................................................................................................. xxi

## Volume I

### Section 1

**Fundamental Concepts and Theories**

This section serves as a foundation for this exhaustive reference tool by addressing underlying principles and provides in-depth coverage of conceptual architecture frameworks essential to the understanding of Public Health and Welfare. Chapters found within these pages provide an excellent framework in which to position Public Health and Welfare within the field of information science and technology. Insight regarding the critical incorporation of global measures into Public Health and Welfare is addressed, and examinations to specific discussions on methodology. With 13 chapters comprising this foundational section, the reader can learn and chose from a compendium of expert research on the elemental theories underscoring the Public Health and Welfare discipline.

#### Chapter 1

The Fundamentals of Health Literacy ................................................................. 1  
*Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand*

#### Chapter 2

The Information Paradox: Researching Health Service Information Systems Development .......... 22  
*Said Shahtahmasebi, The Good Life Research Centre Trust, New Zealand & University of Kentucky, USA*

#### Chapter 3

Health in MENA: Policies for Inclusive Development .................................................. 38  
*Randa Alami, University of London, UK*

#### Chapter 4

Innovation in the Health System: Evidences from Brazilian Local Production and Innovation Systems .................................................................................................................. 64  
*Marcelo Pessoa de Matos, Federal University of Rio de Janeiro, Brazil*  
*Maria Clara Couto Soares, Federal University of Rio de Janeiro, Brazil*  
*José Eduardo Cassiolato, Federal University of Rio de Janeiro, Brazil*  
*Julia Queiroz, Fundo Brasileiro para a Biodiversidade, Brazil*
Chapter 5
Infectious Diseases and Climate Vulnerability in Morocco: Governance and Adaptation Options ..... 91
  Mohamed Behnassi, Ibn Zohr University of Agadir, Morocco
  Kholoud Kahime, Cadi Ayyad University of Marrakesh, Morocco
  Samia Boussaa, Higher Institute of Nursing Professions and Health Techniques of Marrakesh, Morocco
  Ali Boumezzough, Cadi Ayyad University of Marrakesh, Morocco
  Mohammed Messouli, Cadi Ayyad University of Marrakesh, Morocco

Chapter 6
Nurses, Healthcare, and Environmental Pollution and Solutions: Breaking the Cycle of Harm....... 110
  A. Elaine McKeown, Independent Researcher, USA

Chapter 7
Health Policy Implementation and Its Barriers: The Case Study of US Health System .................. 134
  Augustine Nduka Eneanya, University of Lagos, Nigeria

Chapter 8
Antimicrobial Consumption and Multidrug Resistant Organisms in Intensive Care Units: Lessons from Saudi Arabia.......................................................................................................................... 151
  Fouad Farouk Jabri, Alfaisal University, Saudi Arabia

Chapter 9
Genomics Applications in Public Health.......................................................................................... 183
  E. William Ebomoyi, Chicago State University, USA

Chapter 10
Modeling Energy Portfolio Scoring: A Simulation Framework ....................................................... 203
  Rafael Diaz, Old Dominion University, USA
  Joshua Behr, Old Dominion University, USA
  Rafael Landaeta, Old Dominion University, USA
  Francesco Longo, University of Calabria, Italy
  Letizia Nicoletti, University of Calabria, Italy

Chapter 11
A Framework to Analyze Variation of the Satisfaction of Patients for Outpatient Needs: A Case of West Bengal, India ................................................................................................................... 227
  Arnab Jana, Indian Institute of Technology Bombay, India
  Noboru Harata, The University of Tokyo, Japan

Chapter 12
Promoting Health Literacy in Global Health Care ........................................................................... 242
  Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand
Chapter 13
Accountability and Public Reporting: Publication of Performance to Improve Quality ............................................ 264
Maria Tanzariello, Università Cattolica del Sacro Cuore, Rome, Italy
Sabina Bucci, Università Cattolica del Sacro Cuore, Rome, Italy
Walter Ricciardi, Università Cattolica del Sacro Cuore, Rome, Italy
Antonio Giulio de Belvis, Università Cattolica del Sacro Cuore, Rome, Italy

Section 2
Tools and Technologies

This section presents an extensive coverage of various tools and technologies available in the field of Public Health and Welfare that practitioners and academicians alike can utilize to develop different techniques. These chapters enlighten readers about fundamental research on the many tools facilitating the burgeoning field of Public Health and Welfare. It is through these rigorously researched chapters that the reader is provided with countless examples of the up-and-coming tools and technologies emerging from the field of Public Health and Welfare. With 13 chapters, this section offers a broad treatment of some of the many tools and technologies within the Public Health and Welfare field.

Chapter 14
The Role of Management Accounting Systems in Public Hospitals and the Construction of Budgets: A Literature Review ................................................................. 289
Carla Marina Pereira de Campos, University of Aveiro, Portugal
Lúcia Lima Rodrigues, University of Minho, Portugal
Susana Margarida Faustino Jorge, University of Coimbra, Portugal

Chapter 15
Laboratory Information Management Systems: Role in Veterinary Activities ......................................................... 313
Patrizia Colangeli, Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”, Italy
Fabrizio De Massis, Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”, Italy
Francesca Cito, Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”, Italy
Maria Teresa Mercante, Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”, Italy
Lucilla Ricci, Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”, Italy

Chapter 16
Developing SMS Health Messages for Pregnant Indigenous Australians Using Persuasive Technology ................................................................................................................. 327
Reece George, University of Newcastle, Australia

Chapter 17
Health Information Technology and Quality Management .......................................................................................... 354
T. Ray Ruffin, University of Phoenix, USA & Colorado Technical University, USA & University of Mount Olive, USA & Wake Technical Community College, USA
Chapter 18
Twitter and Its Role in Health Information Dissemination: Analysis of the Micro-Blog Posts of Health-Related Organisations ................................................................. 372
  Dan Dumbrell, The University of Sydney, Australia
  Robert Steele, The University of Sydney, Australia

Chapter 19
Health Information Technology and Change .......................................................... 389
  T. Ray Ruffin, University of Phoenix, USA & Colorado Technical University, USA &
  University of Mount Olive, USA & Wake Technical Community College, USA

Chapter 20
  Maulilio J. Kipanyula, Sokoine University of Agriculture, Tanzania
  Camilius Sanga, Sokoine University of Agriculture, Tanzania
  Anna M. Geoffrey, Sokoine University of Agriculture, Tanzania
  Kadeghe G. Fue, Sokoine University of Agriculture, Tanzania

Chapter 21
Social Media and Alcohol Use: Adverse Impact of Facebook and Twitter on College Students..... 437
  Gulzar H. Shah, Jiann-Ping Hsu College of Public Health, USA
  Moya L. Alfonso, Jiann-Ping Hsu College of Public Health, USA
  Nina Jolani, National Association of County and City Health Officials (NACCHO), USA

Chapter 22
The Philippine Health Care Delivery System and Health Expenditure ........................................... 457
  Abdulkadir İşık, Namık Kemal University, Turkey
  Abdulhamid Mauyag Gunda, Namık Kemal University, Turkey
  Birol Topçu, Namık Kemal University, Turkey

Chapter 23
Socio-Technical Systems on the Move: Some Insights for Policy Activity .......................... 471
  Sylvie Occelli, Istituto di Ricerche Economico Sociali del Piemonte (IRES), Italy

Volume II

Chapter 24
Online Spatial HIV/AIDS Surveillance and Monitoring System for Nigeria ........................ 495
  Peter Adebayo Idowu, Obafemi Awolowo University, Nigeria

Chapter 25
Early Warning System and Adaptation Advice to Reduce Human Health Consequences of Extreme Weather Conditions and Air Pollution ............................ 527
  Dragan Bogdanović, State University of Novi Pazar, Serbia
  Konstansa Lazarević, State University of Novi Pazar, Serbia
Chapter 26
Identification of Associations between Clinical Signs and Hosts to Monitor the Web for Detection of Animal Disease Outbreaks ............................................................... 565

Elena Arsevska, French Agricultural Research and International Cooperation Organization (CIRAD), France
Mathieu Roche, French Agricultural Research and International Cooperation Organization (CIRAD), France
Pascal Hendriks, French Agency for Food, Environmental and Occupational Safety (ANSES), France
David Chavernac, French Agricultural Research and International Cooperation Organization (CIRAD), France
Sylvain Falala, French National Institute for Agricultural Research (INRA), France
Renaud Lancelot, French Agricultural Research and International Cooperation Organization (CIRAD), France
Barbara Dufour, Université Paris Est, France

Section 3
Utilization and Applications

This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective Public Health and Welfare programs and processes. This section includes 12 chapters that review topics from case studies to best practices and ongoing research. Further chapters discuss Public Health and Welfare in a variety of settings. Contributions included in this section provide excellent coverage of today’s IT community and how research into Public Health and Welfare is impacting the social fabric of our present-day global village.

Chapter 27
An Investigation of the Application of New Media and Its Impact on Taiwan Health Communication ................................................................. 588

Rose Hung, Shih Hsin University, Taiwan
Pi-Fang Hsu, Shih Hsin University, Taiwan
Chia-Wen Tsai, Ming Chuan University, Taiwan

Chapter 28
Extending Care Outside of the Hospital Walls: A Case of Value Creation through Synchronous Video Communication for Knowledge Exchange in Community Health Network ........................................ 603

Jiban Khuntia, University of Colorado, USA
Mohan Tanniru, Oakland University, USA
John Zervos, Henry Ford Health System, USA

Chapter 29
The Analysis of Health Care Expenses of Turkey between 1990-2012 .............................................. 621

Hayriye Işik, Namık Kemal University, Turkey
Yaşar Akdağ, Hakkari University, Turkey
Chapter 30
The Greenhouse Gas Emissions of Various Dietary Practices and Intervention Possibilities to Reduce This Impact ........................................................................................................................................... 636
Celia Green, Australian National University, Australia
Andrew Joyce, Swinburne University of Technology, Australia
Jonathan Hallett, Curtin University, Australia
Toni Hannelly, Curtin University, Australia
Gemma Carey, Australian National University, Australia

Chapter 31
An Evaluation of Partnership for Productive Development in Brazil’s Healthcare: Measuring the Knowledge Translation from Implementation to the Impact ........................................................................... 662
Jorge Lima Magalhães, Oswaldo Cruz Foundation (FIOCRUZ), Brazil
Zulmira Hartz, Universidade Nova de Lisboa (UNL), Portugal
Adelaide M. S. Antunes, National Institute for Industrial Property (INPI), Brazil & University of Rio de Janeiro (UFRJ), Brazil

Chapter 32
Successful Integration of Knowledge for Innovation: A Case Study of Opportunities for Product Development Partnerships in Brazil ........................................................................................................................................... 682
J. L. Magalhaes, Ministry of Health, Brazil
R. Cartaxo, Federal University of Rio de Janeiro (UFRJ), Brazil
Adelaide M. S. Antunes, National Institute for Industrial Property (INPI), Brazil & University of Rio de Janeiro (UFRJ), Brazil

Chapter 33
Environmental Cost Studies and Their Application in Environmental Protection Planning for Electricity Production ........................................................................................................................................... 701
Željko Tomšić, University of Zagreb, Croatia

Chapter 34
Doing Together: Co-Designing the Socio-Materiality of Services in Public Sector ........................................................................................................................................... 740
Juha Koivisto, National Institute for Health and Welfare, Finland
Pasi Pohjola, National Institute for Health and Welfare, Finland

Chapter 35
Culture of Learning Cities: Connecting Leisure and Health for Lifelong Learning Communities ........................................................................................................................................... 755
Ebbin Dotson, University of Illinois at Chicago, USA
Dan K. Hibbler, DePaul University, USA
Leodis Scott, Columbia University, USA

Chapter 36
Hunting HIV-Positive Women in Greece as Parasites ........................................................................................................................................... 779
Pitsou Anastasia, The Aristotle University of Thessaloniki, Greece
Chapter 37
Health Impact of Water-Related Diseases in Developing Countries on Account of Climate Change: A Systematic Review – A Study in Regard to South Asian Countries.......................... 789
  Sukanya Das, TERI University, India

Chapter 38
A Study on Adoption of Employee Welfare Schemes in Industrial and Service Organisations: In Contrast with Public and Private Sectors.......................................................... 809
  Chandra Sekhar Patro, GVP College of Engineering (Autonomous), India

Section 4
Organizational and Social Implications
This section includes a wide range of research pertaining to the social and behavioral impact of Public Health and Welfare and contemporary coverage related to the corporate and managerial utilization of information sharing technologies and applications. Chapters in this section critically analyze and discuss trends in Public Health and Welfare. Also investigating a concern within the field of Public Health and Welfare is research which discusses the effect of user behavior. With 11 chapters, the discussions presented in this section offer research into the integration of global Public Health and Welfare as well as implementation of ethical and workflow considerations for all organizations.

Chapter 39
Fostering Global Citizenship in Higher Education: Development of an International Course in Global Health................................................................. 826
  Lee Stoner, Massey University, New Zealand
  Lane Perry, Western Carolina University, USA
  Daniel Wadsworth, Massey University, New Zealand
  Mikell Gleason, University of Georgia, USA
  Michael A. Tarrant, University of Georgia, USA
  Rachel Page, Massey University, New Zealand
  Krystina R. Stoner, University of Georgia, USA

Chapter 40
Community Development and Faith-Based Organizations: Lessons for Global Health .............. 848
  Stephanie Wrightman, Catholic Mission Australia, Australia

Chapter 41
The Role of Average Health Status: Health Inequalities Matrix for Assessing Impacts on Population Health in Health in All Policies................................................................. 884
  Jordan Panayotov, Independent Centre for Analysis and Research of Economies (ICARE), Australia

Chapter 42
Spatial Aspects of Mortality Rates and Neighborhood Environmental Characteristics in Seoul Mega City Region, South Korea................................................................. 900
  Yoohyung Joo, Seoul National University, South Korea
  Hee Yeon Lee, Seoul National University, South Korea
Chapter 43
Stakeholders Engagement and Agenda Setting in a Developing Context: The Case of the Bangladesh Health Policy .......................................................................................................................... 925
Golam Rabbani, Rajshahi University, Bangladesh

Chapter 44
Response to School Violence.......................................................................................................................... 941
Roger Neal McIntyre Jr., Valdosta State University, USA
Lorna L. Alvarez-Rivera, Valdosta State University, USA
T. Chris Owens, Independent Researcher, USA

Chapter 45
The Role of Online Health Education Communities in Wellness and Recovery........................................ 964
Kathleen P. King, University of Central Florida, USA
Julie A. Leos, University of South Florida, USA
Lu Norstrand, University of South Florida, USA

Volume III

Chapter 46
Phenomenology, Epigenome and Epigenetic Influence on the Growth and Development of School-Age Children.................................................................................................................. 999
E. William Ebomoyi, Chicago State University, USA

Chapter 47
Employee Welfare Measures in Public and Private Sectors: A Comparative Analysis .................. 1026
Chandra Sekhar Patro, Gayatri Vidya Parishad College of Engineering (Autonomous), India

Chapter 48
Organizational Leadership and Health Care Reform............................................................................. 1043
T. Ray Ruffin, University of Phoenix, USA & Colorado Technical University, USA & University of Mount Olive, USA & Wake Technical Community College, USA
Joyce Marie Hawkins, Wake Technical Community College, USA
D. Israel Lee, Southern Illinois University, USA & University of Phoenix, USA

Chapter 49
When the System Fails: Challenges of Child Trauma on Adoptive Families’ Social and Emotional System.......................................................................................................................... 1064
Jacqueline Y. Ford, Walden University, USA

Section 5
Critical Issues and Challenges

This section contains 10 chapters, giving a wide variety of perspectives on Public Health and Welfare and its implications. Within the chapters, the reader is presented with an in-depth analysis of the most current and relevant issues within this growing field of study. Crucial questions are addressed and alternatives offered along with theoretical approaches discussed.
Chapter 50
The Crisis of Public Health as a Media Event: Between Media Frames and Public Assessments ............................................................................................................................................................................. 1091
Valentina Marinescu, University of Bucharest, Romania

Chapter 51
Exacerbating Health Risks in India due to Climate Change: Rethinking Approach to Health Service Provision ............................................................................................................................................................................................................. 1102
Joyashree Roy, Jadavpur University, India
Duke Ghosh, Global Change Research, India
Kuheli Mukhopadhyay, Jadavpur University, India & West Bengal State University, India
Anupa Ghosh, The Bhawanipur Education Society College, India

Chapter 52
Climate Change Effects on Human Health with a Particular Focus on Vector-Borne Diseases and Malaria in Africa: A Case Study from Kano State, Nigeria Investigating Perceptions about Links between Malaria Epidemics, Weather Variables, and Climate Change .......................................................................................................................................................................................................................... 1128
Salisu Lawal Halliru, Federal College of Education Kano, Nigeria

Chapter 53
The Idea of Human Rights in Conditions of Hospital Treatment .................................................................................................................................................................................................................. 1147
Bogusław Sygit, University of Łódź, Poland
Damian Waśk, Nicolaus Copernicus University in Torun, Poland

Chapter 54
What Drives the Adoption of Social Media Applications by the Public Sector? Evidence from Local Health Departments ........................................................................................................................................................................................................................................ 1166
Liang Ma, Renmin University of China, China & Nanyang Technological University, Singapore

Chapter 55
Are Climate Change Adaptation Policies a Game Changer? A Case Study of Perspectives from Public Health Officials in Ontario, Canada ........................................................................................................................................................................................................................................ 1186
Chris G. Buse, University of Northern British Columbia, Canada

Chapter 56
A Systems Approach for Sustainably Reducing Childhood Diarrheal Deaths in Developing Countries ........................................................................................................................................................................................................................................ 1208
Monica Gray, The Lincoln University, USA

Chapter 57
A Systematic Approach towards the Typology of Functions of National Health System: Provision of Functional Model of National Health System ........................................................................................................................................................................................................................................ 1228
Mostafa Zamanian, University of Tehran, Iran
Zohreh Karimmian, University of Tehran, Iran
Chapter 58
Rough Fuzzy Set Theory and Neighbourhood Approximation Based Modelling for Spatial Epidemiology

Balakrushna Tripathy, VIT University, India
Sharmila Banu K., VIT University, India

Chapter 59
Toward an Informed-Patient Approach to E-Health Services

Keren Mazuz, Hadassah Academic College, Israel
Seema Biswas, Medical School for International Health, Israel
Rui Amaral Mendes, Case Western Reserve University, USA

Section 6
Emerging Trends

This section highlights research potential within the field of Public Health and Welfare while exploring uncharted areas of study for the advancement of the discipline. Introducing this section are chapters that set the stage for future research directions and topical suggestions for continued debate, centering on the new venues and forums for discussion. A pair of chapters on space-time makes up the middle of the section of the final 12 chapters, and the book concludes with a look ahead into the future of the Public Health and Welfare field. In all, this text will serve as a vital resource to practitioners and academics interested in the best practices and applications of the burgeoning field of Public Health and Welfare.

Chapter 60
Health Policy Implementation: Moving Beyond Its Barriers in United States

Khadijeh Rouzbehani, University of Tehran, Iran

Chapter 61
Public Hospitals in China: The Next Priority for Meaningful Health Care Reform

Donghai Wei, Guangzhou Medical University, China
Louis Rubino, California State University, Northridge, USA

Chapter 62
A Follow up to Semi-Automatic Systems for Exchanging Health Information: Looking for a New Information System at Fixed E-Healthcare Points for Citizens in Greece

Dimitrios Emmanouil, University of Athens, Greece
Antonia Mourtzikou, University of Athens, Greece

Chapter 63
The Future of Antibiotics and Meat

Talia Raphaely, Curtin University, Australia
Dora Marinova, Curtin University, Australia
Mira Marinova, Notre Dame University, Australia
Chapter 64
Towards European Modern Societies with Health Systems That Are Able to Add More Years to Life, But Also to Add More Life to Years .............................................................. 1358
  Androutsou Lorena, University of Thessaly, Greece
  Androutsou Foulvia, University of Crete, Greece

Chapter 65
Improving the Effects of Global Health Initiatives through FOMENT: An Enhancement to the Diffusion Process .............................................................. 1379
  Muhiuddin Haider, University of Maryland, USA
  Theofani Makrinos, Independent Public Health Consultant, USA
  Madhurima Sarkar, Nationwide Children’s Hospital, USA

Chapter 66
The States as Generators of Incremental Change in American Health Care Policy: 1935 to 1965 .............................................................. 1398
  Robert A. Peters, Western Michigan University, USA
  Minerva Cruz, Western Michigan University, USA

Chapter 67
Change through Experience: How Experiential Play and Emotional Engagement Drive Health Game Success .............................................................. 1421
  Georges Elias Khalil, University at Buffalo, The State University of New York, USA & The University of Texas, M. D. Anderson Cancer Center, USA

Chapter 68
Emerging Role of Technology in Health Education for Youth .............................................................. 1447
  Amir Manzoor, Bahria University, Pakistan

Chapter 69
Clinical Communication in the Aspect of Development of New Technologies and E-Health in the Doctor-Patient Relationship .............................................................. 1465
  Aleksandra Rosiek-Kryszewska, Nicolaus Copernicus University in Toruń, Poland
  Łukasz Lekowski, Nicolaus Copernicus University in Toruń, Poland
  Anna Rosiek, Nicolaus Copernicus University in Toruń, Poland
  Krzysztof Lekowski, Nicolaus Copernicus University in Toruń, Poland & Military Clinical Hospital No. 10, Poland
  Aleksander Goch, Nicolaus Copernicus University in Toruń, Poland & Military Clinical Hospital No. 10, Poland

Chapter 70
Advanced Intervention Strategies for Suicide in Patients with Chronic Mental Illness .............................................................. 1498
  Shaillesh Jha, IHBAS, India
  Amit Khanna, IHBAS, India
  Prerna Khanna, Pushpanjali Crosslay Hospital, India
Chapter 71
The Future of Healthcare: Political Participation of Nursing and Public Health Students........... 1519

Christine Vandenhouten, University of Wisconsin-Green Bay, USA
Susan Gallagher-Lepak, University of Wisconsin-Green Bay, USA
Derryl E. Block, Northern Illinois University, USA
Sylvia May Kubsch, University of Wisconsin-Green Bay, USA
Jan Strom, Northern Illinois University, USA
Crystal Michelle L. Malakar, Bellin Health System, USA
