Foreword ................................................................................................................................. xiv

Preface .................................................................................................................................. xvi

Acknowledgment .................................................................................................................. xx

Section 1
Patterns of User Experience for Collaboration

Chapter 1
A Technology for Pattern-Based Process Design and its Application to Collaboration Engineering..... 1

Gwen L. Kolfschoten, Delft University of Technology, The Netherlands
Robert O. Briggs, University of Nebraska at Omaha, USA
Gert-Jan de Vreede, University of Nebraska at Omaha, USA; Delft University of Technology,
The Netherlands

Chapter 2
Pattern-Based Tool Design for Shared Knowledge Construction.................................................. 19

Stephan Lukosch, Delft University of Technology, The Netherlands

Chapter 3
Creative Waves: Exploring Emerging Online Cultures, Social Networking and Creative
Collaboration through e-Learning to Offer Visual Campaigns for Local Kenyan Health Needs........ 39

Andy Polaine, The University of New South Wales, Australia
Rick Bennett, The University of New South Wales, Australia

Chapter 4
Enhancing University Students’ Interaction and Learning through Formative
Peer-Assessment Online .............................................................................................................. 52

Monica Liljeström, Umeå University, Sweden

Chapter 5
Preparing the Next Generation of Innovators through Collaboration........................................ 67

Marjorie Darrah, West Virginia University, USA
Angela Dowling, Suncrest Middle School, USA
Chapter 6
Social Networking Sites (SNS) and the ‘Narcissistic Turn’: The Politics of Self-Exposure ............... 82
Yasmin Ibrahim, University of Brighton, UK

Section 2
Interactive Tools for Collaboration

Chapter 7
Wikis for Collaboration & Knowledge Management: Current Practices & Future Directions .......... 97
Clif Kussmaul, Muhlenberg College, USA; Elegance Technologies, Inc., USA

Chapter 8
Maximizing Collaboration Using Topic Maps-Based Ontology ....................................................... 116
Myongho Yi, Texas Woman’s University, USA

Chapter 9
Collaborative Retrieval Systems: Reusable Information Quests ....................................................... 126
Ying Sun, SUNY at Buffalo, USA

Chapter 10
Automatically Evaluating the Quality of Contents Created in Collaborative Knowledge Building ......................................................... 137
Kwong Bor Ng, Queens College, CUNY, USA

Section 3
The Design of Information Spaces for Next-Generation Collaboration

Chapter 11
Speak First, Then What? ....................................................................................................................... 149
Jay Heuer, SarJay GmbH, USA

Chapter 12
Collaboration in Open Source Domains: A Perspective on Usability .............................................. 167
Görkem Çetin, Gebze Institute of Technology, Turkey
Mehmet Gokturk, Gebze Institute of Technology, Turkey

Chapter 13
Lights, Camera, Action! Via Teacher Librarian Video Conferencing .............................................. 179
Lesley Farmer, California State University, USA
Chapter 14
Collaboration in Risk Markets................................................................. 189
Scott Rummler, laserthread.com

Section 4
Selected Readings

Chapter 15
Collaborative Design: An SSM-Enabled Organizational Learning Approach......................... 202
Anita Mirijamdotter, Växjö University, Sweden
Mary M. Somerville, University of Colorado, Denver, USA

Chapter 16
How do Collaborative Technologies Affect Innovation in SMEs?........................................ 222
Angel Luis Meroño-Cerdán, Universidad de Murcia, Spain
Pedro Soto-Acosta, Universidad de Murcia, Spain
Carolina López-Nicolás, Universidad de Murcia, Spain

Chapter 17
Enabling On-Line Deliberation and Collective Decision-Making through Large-Scale
Argumentation: A New Approach to the Design of an Internet-Based Mass Collaboration
Platform................................................................................................................ 236
Luca Iandoli, University of Naples Federico II, Italy
Mark Klein, Massachusetts Institute of Technology, USA
Giuseppe Zollo, University of Naples Federico II, Italy

Chapter 18
Gender and Diversity in Collaborative Virtual Teams......................................................... 260
Anna Michailidou, University of Macedonia, Greece
Anastasios Economides, University of Macedonia, Greece

Compilation of References ............................................................................ 278
