Table of Contents

Foreword ..............................................................................................................xvi

Preface ...............................................................................................................xvii

Acknowledgment ...............................................................................................xxi

Section 1
Techniques of Remote Sensing and GIS for Environmental Applications

Chapter 1
Identification of Geospatial Objects Using Spectral Pattern ........................... 1

Subhabrata Barman, Haldia Institute of Technology, India

Chapter 2
Land Surface Temperature Estimation and Urban Heat Island Detection: A
Remote Sensing Perspective .............................................................................. 16

Abhisek Santra, Haldia Institute of Technology, India

Chapter 3
A Review of Outline on Spectroscopic vis-a-vis Geochemical Study of Earth
Analogues for Mars ......................................................................................... 46

Shovan L. Chattoraj, Indian Institute of Remote Sensing, India

Chapter 4
Improving the Efficiency of Image Interpretation Using Ground Truth
Terrestrial Photographs ..................................................................................... 53

Gennady Gienko, University of Alaska Anchorage, USA
Michael Govorov, Vancouver Island University, Canada
Chapter 5
Development of Web GIS Based Framework for Public Health Management System Using ERDAS Apollo 2010.................................................................................................. 93
Shipra Verma, Motilal Nehru National Institute of Technology, India

Section 2
Applications of Remote Sensing and GIS for Environmental Monitoring

Chapter 6
Debris Flow Modelling and Risk Assessment of Selected Landslides from Uttarakhand- Case Studies using Earth Observation Data ................................. 111
Shovan L. Chattoraj, Indian Institute of Remote Sensing, India

Chapter 7
Space-Time Integrated Landslide Hazard Zonation near Tehri Dam in Uttarakhand, India: Integrated Landslide Hazard Zonation ........................................... 122
Pooja Rana, Sphere India, India
Jeganathan Chockalingam, Birla Institute of Technology, India
Arvind Chandra Pandey, Central University of Jharkhand, India

Chapter 8
Land Use - Terrain Correlations in the Piedmont Tract of Eastern India: A Case Study of the Dulung River Basin ................................................................. 147
Ashis Sarkar, Chandernagore Government College, India
Priyank Pravin Patel, Presidency University, India

Chapter 9
Remote Sensing Techniques and Its Application in Arid Zones of India........ 193
Lokesh Kumar Jain, College of Agriculture, India

Chapter 10
Applications of Active Remote Sensing Technologies for Natural Disaster Damage Assessments .................................................................................................. 212
Muhammad Tauhidur Rahman, King Fahd University of Petroleum and Minerals, Saudi Arabia

Chapter 11
Site-Suitability Analysis for the Identification of Potential Sites to Construct Rain Water Harvesting Systems ................................................................. 228
Shreyashi Santra Mitra, Haldia Institute of Technology, India
