Acknowledgment

The book came into light due to the direct and indirect involvement of many researchers, academicians, advanced-level students, technology developers, and industry practitioners. Therefore, we acknowledge and thank the contributing authors, research institutions, and companies whose papers and study materials have been referred to in this book.

The success of this book would not have been possible without the cooperation of the three committees: the editorial board, the editorial assistant from IGI Global, and the contributing authors. Thus, we are very grateful for their support. In addition, we also thank those authors whose contributions could not be selected for the final book.

We are very thankful to the team of IGI Global for accepting our book proposal and giving us the opportunity to work on this book project. Particularly, we are thankful to Erin Wesser (Assistant Managing Editor, Acquisitions), Kayla Wolfe (Managing Editor, Acquisitions), Jan Travers (Director of Intellectual Property and Contracts), and Courtney Tychinski (Development Editor - Books).
