Acknowledgment

To all those who have never stopped giving hope.

For all wonderful sources of inspiration.

For battles and sacrifices made in the name of love and peace.

For support, courage and unacknowledged sources of contribution and efforts.

For all noble causes whose selfless contributions continue to, and will continue to make enduring impact.

To all those dear and wonderful fountains of knowledge, past and present alma maters.

To the most memorable almas of “Queens” and Aberystwyth – my wonderful colleagues at Cwrt Mawr Hall, Pam Williams and Professor Holland, Kate Whittingham, Margaret, Cynthia, Mo, Sonia Mahoney, Maha Al Sayed, to name a few – and of course, one of the best friends ever – Maria Combarros Iglesias.

For all those whose memories continue to make positive impacts – and particularly those never knowing or having ever known just how powerful such impacts are.

To all the committed and dedicated editorial team members of IGI whose efforts have contributed towards generating high quality outputs.

To all staff at the American Accounting Association who have helped to solicit contributors for the volume.

Finally to all wonderful colleagues at various academic institutions of employment, past and present, who have supported and still continue to support over the years. And to the wonderful city of Frankfurt for providing the opportunity to work in, and experience such an amazing period in such an amazing city. Vielen Dank!
Brexit and the US Presidential elections have surely constituted the focal points of information uncertainty in 2016 - as well as their impacts on the global financial markets - particularly stock exchanges in London and New York.
