Table of Contents

Preface ................................................................................................................................................ xvi

Section 1
Introduction

Chapter 1
Digital Retail and How Customer-Centric Technology is Reshaping the Industry: IT-Enabled
Digital Disruption ................................................................................................................................ 1
Pablo Pena Franco, Syracuse University, USA

Chapter 2
Digitalization of Death Certification Model: Transformation Issues and Implementation
Concerns ......................................................................................................................................................... 22
Dalibor Stanimirovic, University of Ljubljana, Slovenia

Chapter 3
E-Government adoption in Nigeria and the Journey So Far: The End of Corruption? .................. 44
Sola Oni, Pan Atlantic University, Nigeria

Chapter 4
Freight Transport and Logistics Evaluation Using Entropy Technique Integrated to TOPSIS
Algorithm ..................................................................................................................................................... 63
Mohammad Anwar Rahman, Central Connecticut State University, USA
Vivian A. Pereda, Central Connecticut State University, USA

Chapter 5
A Multifactorial Analysis of the Acceptance of Recommender System for Saudi Universities the
Literature Revisited .................................................................................................................................... 90
Hadeel Alharbi, University of New England, Australia
Kamaljeet Sandhu, University of New England, Australia
Chapter 6
A Proposed Framework Factors of the Acceptance of Recommender Systems in E Learning for
Saudi Universities .................................................................................................................. 106
  Hadeel Alharbi, University of New England, Australia
  Kamaljeet Sandhu, University of New England, Australia

Chapter 7
Outsourcing to Cloud-based Computing Services in Higher Education in Saudi Arabia .......... 124
  Athary Alwasel, King Saud University, Saudi Arabia
  Ben Clegg, Aston University, UK
  Andreas Schroeder, Aston University, UK

Section 2
User Centered Design

Chapter 8
Design Solutions Guided by User Behavior: A Practical Inquiry Approach........................................ 138
  Mariam Ahmed Elhussein, University of Dammam, Saudi Arabia

Chapter 9
Mitigating Ethno-Cultural Differences: Ethical Guidelines for ICT Development in an Indigenous Community ........................................................................................................... 162
  Hasnain Falak, Institute of Social Informatics and Technological Innovations (ISITI), Malaysia
  Tariq Zaman, University Malaysia Sarawak, Malaysia

Chapter 10
User Interface Design in Isolation from Underlying Code and Environment................................. 175
  Izzat Alsmadi, University of Texas A&M, USA

Chapter 11
Web Caching System: Improving the Performance of Web-based Information Retrieval System...... 184
  Sathiyamoorthi V., Sona College of Technology, India

Chapter 12
User Performance Testing Indicator: User Performance Indicator Tool (UPIT)................................. 205
  Bernadette Imuetinyan Iyawe, University of Benin, Nigeria

Chapter 13
Development of Ambient Assisted Living Products and Services: The Role of International Classification of Functioning, Disability, and Health .............................................................................. 230
  Ana Isabel Martins, University of Aveiro, Portugal
  Alexandra Queirós, University of Aveiro, Portugal
  Nelson Pacheco Rocha, University of Aveiro, Portugal
Chapter 14
Modelling Cyber-Crime Protection Behaviour among Computer Users in the Context of Bangladesh

Imran Mahmud, University Sains Malaysia, Malaysia & Daffodil International University, Bangladesh
T. Ramayah, University Sains Malaysia, Malaysia & International Business School, Universiti Teknologi Malaysia
Md. Mahedi Hasan Nayeem, Daffodil International University, Bangladesh
S. M. Muzahidul Islam, Daffodil International University, Bangladesh
Pei Leng Gan, University Sains Malaysia, Malaysia

Section 3
Usability Engineering

Chapter 15
The State of Art in Website Usability Evaluation Methods

Renuka Nagpal, Amity University - Uttar Pradesh, India
Deepit Mehrotra, Amity University - Uttar Pradesh, India
Pradeep Kumar Bhatta, Guru Jambeshwar University of Science and Technology, India

Chapter 16
Usability Evaluation of E-Government Websites in Saudi Arabia by Cognitive Walkthrough

Hina Gull, University of Dammam, Saudi Arabia
Sardar Zafar Iqbal, University of Dammam, Saudi Arabia

Chapter 17
A Mobile System for Managing Personal Finances Synchronously: A Mobile System

Jabulani Sifiso Dlamini, Tshwane University of Technology, South Africa
Paul Okuthe Kogeda, Tshwane University of Technology, South Africa

Chapter 18
Towards Visually Impaired Autonomy in Smart Cities: The Electronic Long Cane Project

Alejandro Rafael Garcia Ramirez, Universidade do Vale de Itajaí, Brazil
Israel Gonzalez-Carrasco, Universidad Carlos III de Madrid, Spain
Gustavo Henrique Jasper, Universidade do Vale de Itajaí, Brazil
Amarilys Lima Lopez, Universidade do Vale de Itajaí, Brazil
Renato Fonseca Livramento da Silva, Universidade Federal da Paraíba, Brazil
Angel Garcia Crespo, Universidad Carlos III de Madrid, Spain
