# Table of Contents

Preface .................................................................................................................................................. xv

Introduction ........................................................................................................................................ xvii

Chapter 1
Introduction of Environmental Materials.............................................................................................. 1
   *Takaomi Kobayashi, Nagaoka University of Technology, Japan*

Chapter 2
Natural Material Source of Bagasse Cellulose and Their Application to Hydrogel Films................. 19
   *Karla L. Tovar Carrillo, Universidad Autónoma de Cd. Juárez, Mexico*
   *Takaomi Kobayashi, Nagaoka University of Technology, Japan*

Chapter 3
Development and Modification of Natural Rubber for Advanced Application ................................. 44
   *Kanoktip Boonkerd, Chulalongkorn University, Thailand*

Chapter 4
Natural Rubber and Rubber Blend Nanocomposites: Reinforcement of Natural Rubber with
Polymer-Encapsulated Inorganic Nanohybrid Particles ...................................................................... 77
   *Anyaporn Boonmahitthisud, Chulalongkorn University, Thailand*

Chapter 5
Poly (Lactic Acid) Generated for Advanced Materials ...................................................................... 106
   *Pranut Potiyaraj, Chulalongkorn University, Thailand*

Chapter 6
Inorganic-Organic Composite Materials from Liquid Natural Rubber and Epoxidised Natural
Rubber Derivatives: Prospects and Applications .............................................................................. 128
   *Wan Ahmad Kamil Mahmood, Universiti Sains Malaysia, Malaysia*
   *Mohammad Hossein Azarian, Universiti Sains Malaysia, Malaysia*
Chapter 7
Clay Minerals Converted to Porous Materials and Their Application: Challenge and Perspective ... 141
Pham Thanh Huyen, Hanoi University of Science and Technology, Vietnam

Chapter 8
Geopolymer Sourced with Fly Ash and Industrial Aluminum Waste for Sustainable Materials ...... 165
Sajitra Onutai, Nagaoka University of Technology, Japan
Sirithan Jiemsiriler, Chulalongkorn University, Thailand
Takaomi Kobayashi, Nagaoka University of Technology, Japan

Chapter 9
Sustainable Cooling Research Using Activated Carbon Adsorbents and Their Environmental Impact ................................................................................................................... 186
Ahmed M. Elsayed, University of Bath, UK & Alexandria University, Egypt
Hassan J. Dakkama, University of Birmingham, UK & Middle Technical University, Iraq
Saad Mahmoud, University of Birmingham, UK
Raya Al-Dadah, University of Birmingham, UK
Waseem Kaialy, University of Wolverhampton, UK

Chapter 10
Analysis of Lipids Produced by Microalgae Isolated from the Area around Okinawa, Japan........ 222
Shinya Ikematsu, National Institute of Technology – Okinawa, Japan
Ipputa Tada, National Institute of Technology – Okinawa, Japan
Yasuma Nagasaki, National Institute of Technology – Okinawa, Japan

Chapter 11
Study on the Use of Biomass Polymer Sheets in Water/Alcohol Pervaporation as a Sustainable Source of Alcohol Energy................................................................................................................... 234
Truong Thi Cam Trang, Vietnam National University, Vietnam

Chapter 12
Bacterial Cellulose: Biosyntheses, Modifications, and Applications ........................................ 255
Siriporn Taokaew, Nagaoka University of Technology, Japan
Muenduen Phisalaphong, Chulalongkorn University, Thailand
Bi-min Zhang Newby, The University of Akron, USA

Chapter 13
Metal Ion Separation with Functional Adsorbents and Phytoremediation Used as Sustainable Technologies ................................................................................................................ 284
Minoru Satoh, National Institute of Technology, Ibaraki College, Japan

Chapter 14
Eco-Friendly On-Site Water Analyses for Ultra-Trace Harmful Ions........................................... 313
Yukiko Takahashi, Nagaoka University of Technology, Japan
Chapter 15
Ionic Liquids and Poly (Ionic Liquid)s Used as Green Solvent and Ultrasound Responded Materials

Kai Li, Nagaoka University of Technology, Japan
Takaomi Kobayashi, Nagaoka University of Technology, Japan
