# Table of Contents

Foreword by Noel Blackburn ................................................................. xvii
Foreword by Stephen R. Cox ............................................................... xix
Preface ............................................................................................. xxii
Acknowledgment ............................................................................. xxix

## Section 1
High Impact Higher Education Pedagogical Frameworks and Practices

Chapter 1
Improving Minority Student Persistence: An Institutional Factors Approach...... 1
   Yvonne R. Hilton, Lincoln University, USA
   Monica Gray, Lincoln University, USA

Chapter 2
Minority Recruitment and Retention Among Gifted Students ...................... 26
   Chandra A. Stallworth, Independent Researcher, USA
   Ken D. Thomas, Auburn University, USA

Chapter 3
Engineering Study Abroad: High Impact Strategy for Increasing Access....... 42
   Monica Gray, Lincoln University, USA
   Connie Lundy, Lincoln University, USA
Section 2
Micro-Community or Target Approaches to Diversifying Engineering

Chapter 4
Empowering Women in STEM: Embedding STEM in K-12 Education ........... 61
  Gretchen Dietz, University of Mount Union, USA
  Julie Hessendence, University of Mount Union, USA
  Terry Long, University of Mount Union, USA
  Helen E. Muga, University of Mount Union, USA

Chapter 5
Developing a Learning Community of Engineers Through an Honors First-Year Seminar................................................................. 88
  Melissa L. Johnson, University of Florida, USA
  Kristy Spear, University of Florida, USA

Chapter 6
Engineering Teams: Supporting Diversity in Engineering Education........... 106
  Jennifer Loy, Griffith University, Australia
  Simon Howell, Griffith University, Australia
  Rae Cooper, Griffith University, Australia

Chapter 7
Addressing Cultural and Gender Project Bias: Engaged Learning for Diverse Student Cohorts............................................................ 130
  Jennifer Loy, Griffith University, Australia
  Rae Cooper, Griffith University, Australia

Section 3
Critiques and Administrative Suggestions to Restructure Engineering Education

Chapter 8
Revisioning the Engineering Profession: How to Make It Happen! .......... 156
  Judith Gill, University of South Australia, Australia
  Mary Ayre, University of South Australia, Australia
  Julie Mills, University of South Australia, Australia
Chapter 9
A Globally Focused, Experiential Educational System for STEM Fields: Measures for Intentionally Promoting Diversity .......................................................... 176
Aaron Sakulich, Worcester Polytechnic Institute, USA
Amy Peterson, Worcester Polytechnic Institute, USA

Chapter 10
Diversifying Engineering Education: A Transdisciplinary Approach From RWTH Aachen University .......................................................... 201
Linda Steuer, RWTH Aachen University, Germany
Anna Bouffier, RWTH Aachen University, Germany
Sonja Gaedicke, RWTH Aachen University, Germany
Carmen Leicht-Scholten, RWTH Aachen University, Germany

Chapter 11
Engineering Pathways in a U.S. Public Institution of Higher Education: A Strategy for Fostering Student Diversity ........................................ 236
Fabiola Ehlers-Zavala, Colorado State University, USA
Anthony Maciejewski, Colorado State University, USA

Chapter 12
Getting Off the Engineering Enrollment Rollercoaster: Interaction Between Academia and Upstream Petroleum Industry .......................... 260
Tatyana Plaksina, University of Calgary, Canada

Compilation of References ................................................................. 287

About the Contributors ................................................................. 314

Index ............................................................................................. 323
