Table of Contents

Foreword .................................................................................................................................................... xiii

Preface ........................................................................................................................................................ xv

Acknowledgment ...................................................................................................................................... xxiii

Section I
Complex-Valued Neural Network Models and Their Analysis

Chapter I
Complex-Valued Boltzmann Manifold ........................................................................................................ 1
Masaki Kobayashi, University of Yamanashi, Japan

Chapter II
Complex-Valued Neural Network and Inverse Problems ........................................................................ 27
Takehiko Ogawa, Takushoku University, Japan

Chapter III
Kolmogorov’s Spline Complex Network and Adaptive Dynamic Modeling of Data ......................... 56
Boris Igelnik, BMI Research, Inc., USA

Chapter IV
A Complex-Valued Hopfield Neural Network: Dynamics and Applications ......................................... 79
V. Srinivasa Chakravarthy, Indian Institute of Technology, Madras, India

Chapter V
Global Stability Analysis for Complex-Valued Recurrent Neural Networks and Its Application to Convex Optimization Problem ........................................................................................................ 104
Mitsuo Yoshida, Kyoto Institute of Technology, Japan
Takehiro Mori, Kyoto Institute of Technology, Japan

Chapter VI
Models of Complex-Valued Hopfield-Type Neural Networks and Their Dynamics .............................. 123
Yasuaki Kuroe, Kyoto Institute of Technology, Japan
Section II
Applications of Complex-Valued Neural Networks

Chapter VII
Complex-Valued Symmetric Radial Basis Function Network for Beamforming
Sheng Chen, University of Southampton, UK

Chapter VIII
Complex–Valued Neural Networks for Equalization of Communication Channels
Rajoo Pandey, National Institute of Technology, Kurukshetra, India

Chapter IX
Learning Algorithms for Complex-Valued Neural Networks in Communication Signal Processing and Adaptive Equalization as its Application
Cheolwoo You, Myongji University, South Korea
Daesik Hong, Yonsei University, South Korea

Chapter X
Image Reconstruction by the Complex-Valued Neural Networks: Design by Using Generalized Projection Rule
Donq-Liang Lee, Ming-Chuan University, Taiwan

Chapter XI
A Method of Estimation for Magnetic Resonance Spectroscopy Using Complex-Valued Neural Networks
Naoyuki Morita, Kochi Gakuen College, Japan

Chapter XII
Flexible Blind Signal Separation in the Complex Domain
Michele Scarpiniti, University of Rome “La Sapienza”, Italy
Daniele Vigliano, University of Rome “La Sapienza”, Italy
Raffaele Parisi, University of Rome “La Sapienza”, Italy
Aurelio Uncini, University of Rome “La Sapienza”, Italy

Section III
Models with High-Dimensional Parameters

Chapter XIII
Qubit Neural Network: Its Performance and Applications
Nobuyuki Matsui, University of Hyogo, Japan
Haruhiko Nishimura, University of Hyogo, Japan
Teijiro Isokawa, University of Hyogo, Japan
Chapter XIV
Neuromorphic Adiabatic Quantum Computation .............................................................................................................. 352
   Shigeo Sato, Tohoku University, Japan
   Mitsunaga Kinjo, University of the Ryukyus, Japan

Chapter XV
Attractors and Energy Spectrum of Neural Structures Based on the Model of the Quantum Harmonic Oscillator ............................................................................................................................................. 376
   G. G. Rigatos, Industrial Systems Institute, Greece
   S. G. Tzafestas, National Technical University of Athens, Greece

Chapter XVI
Quaternionic Neural Networks: Fundamental Properties and Applications ................................................................. 411
   Teijiro Isokawa, University of Hyogo, Japan
   Nobuyuki Matsui, University of Hyogo, Japan
   Haruhiko Nishimura, University of Hyogo, Japan

Compilation of References .................................................................................................................................................. 440

About the Contributors ........................................................................................................................................................... 470
