Contemporary Issues in End User Computing

Table of Contents

Preface .............................................................................................................................................vii

Section I: Web-Based End User Computing Tools and Technologies

Chapter I
Assessing Web-Enabled Interactivity: An Audit Tool .............................................. 1
Barbara Marcolin, University of Calgary, Canada
Nicole Coviello, University of Auckland, New Zealand
Roger Milley, Shell Canada Limited, Canada

Chapter II
The Impact of Personal Innovativeness on the Use of the Internet Among Employees at Work ................................................................. 29
Tor J. Larsen, Norwegian School of Management, Norway
Øystein Sørebø, Buskerud University College, Norway

Chapter III
The Role of Internet Self-Efficacy in the Acceptance of Web-Based Electronic Medical Records ................................................................. 54
Qingxiong Ma, Central Missouri State University, USA
Liping Liu, University of Akron, USA
Chapter IV
The Effectiveness of Online Task Support vs. Instructor-Led Training

Ji-Ye Mao, City University of Hong Kong, Hong Kong
Bradley R. Brown, University of Waterloo, Canada

Section II: End User Computing Software Issues and Trends

Chapter V
A Comparison of Audio-Conferencing and Computer Conferencing in a Dispersed Negotiation Setting: Efficiency Matters!

Abbas Foroughi, University of Southern Indiana, USA
William C. Perkins, Indiana University, USA
Leonard M. Jessup, Washington State University, USA

Chapter VI
Software Use Through Monadic and Dyadic Procedure: User-Friendly or Not-So-Friendly?

Gregory E. Truman, Babson College, USA

Chapter VII
Business Software Specifications for Consumers: Toward a Standard Format

Shouhong Wang, University of Massachusetts Dartmouth, USA

Chapter VIII
Perceptions of End Users on the Requirements in Personal Firewall Software: An Exploratory Study

Sunil Hazari, University of West Georgia, USA

Section III: End Users Characteristics and Learning

Chapter IX
The Changing Demographics: The Diminishing Role of Age and Gender in Computer Usage

Michael B. Knight, Appalachian State University, USA
J. Michael Pearson, Southern Illinois University at Carbondale, USA
Chapter X
Users Behaving Badly: Phenomena and Paradoxes from an Investigation into Information Systems Misfit ........................................216
Panagiotis Kanellis, Athens University of Economics and Business, Greece
Ray J. Paul, Brunel University, UK

Chapter XI
Quality of Use of a Complex Technology: A Learning-Based Model..........................................................................................248
Marie-Claude Boudreau, the University of Georgia, USA
Larry Seligman, The University of Georgia, USA

Chapter XII
Learning from Patterns During Information Technology Configuration ................................................................................................273
Keith S. Horton, Napier University, UK
Rick G. Dewar, Heriot-Watt University, UK

Chapter XIII
Learning to Use IT in the Workplaces: Mechanisms and Masters .....................................................................................................292
Valerie K. Spitler, USA

About the Editor ..........................................................................................324
About the Authors .....................................................................................326
