Table of Contents

Foreword .............................................................................................................................................. xi
Preface .................................................................................................................................................. xii
Acknowledgment .............................................................................................................................. xxii

Section I
Education and Research

Chapter I
Introduction to Data Mining Techniques via Multiple Criteria Optimization
Approaches and Applications ............................................................................................................... 1
  Yong Shi, University of the Chinese Academy of Sciences, China
  and University of Nebraska at Omaha, USA
  Yi Peng, University of Nebraska at Omaha, USA
  Gang Kou, University of Nebraska at Omaha, USA
  Zhengxin Chen, University of Nebraska at Omaha, USA

Chapter II
Making Decisions with Data: Using Computational Intelligence Within a Business Environment
......................................................................................................................................................... 26
  Kevin Swingler, University of Stirling, Scotland
  David Cairns, University of Stirling, Scotland

Chapter III
Data Mining Association Rules for Making Knowledgeable Decisions .............................................. 43
  A. V. Senthil Kumar, CMS College of Science and Commerce, India
  R. S. D. Wahidabanu, Govt. College of Engineering, India
Section II
Tools, Techniques, Methods

Chapter IV
Image Mining: Detecting Deforestation Patterns Through Satellites .................................................. 55
Marcelino Pereira dos Santos Silva, Rio Grande do Norte State University, Brazil
Gilberto Câmara, National Institute for Space Research, Brazil
Maria Isabel Sobral Escada, National Institute for Space Research, Brazil

Chapter V
Machine Learning and Web Mining: Methods and Applications in Societal Benefit Areas .............. 76
Georgios Lappas, Technological Educational Institution of Western Macedonia, Kastoria Campus, Greece

Chapter VI
The Importance of Data Within Contemporary CRM ................................................................. 96
Diana Luck, London Metropolitan University, UK

Chapter VII
Mining Allocating Patterns in Investment Portfolios ................................................................. 110
Yanbo J. Wang, University of Liverpool, UK
Xinwei Zheng, University of Durham, UK
Frans Coenen, University of Liverpool, UK

Chapter VIII
Application of Data Mining Algorithms for Measuring Performance Impact of Social Development Activities ................................................................. 136
Hakikur Rahman, Sustainable Development Networking Foundation (SDNF), Bangladesh

Section III
Applications of Data Mining

Chapter IX
Prospects and Scopes of Data Mining Applications in Society Development Activities .............. 162
Hakikur Rahman, Sustainable Development Networking Foundation, Bangladesh

Chapter X
Business Data Warehouse: The Case of Wal-Mart ................................................................. 189
Indranil Bose, The University of Hong Kong, Hong Kong
Lam Albert Kar Chun, The University of Hong Kong, Hong Kong
Leung Vivien Wai Yue, The University of Hong Kong, Hong Kong
Li Hoi Wan Ines, The University of Hong Kong, Hong Kong
Wong Oi Ling Helen, The University of Hong Kong, Hong Kong
