Preface .................................................................................................................................................xvi

Acknowledgment .................................................................................................................................. xxiii

Section I
Overview

The specific section is providing an overview of the terms, methodologies, architectural issues and technological perspectives of digital rights management in e-commerce systems.

Chapter I
Intellectual Property Rights .............................................................................................................1

Alfredo M. Ronchi, Politecnico di Milano, Italy

Chapter II
Digital Rights Management: A New Trend or a Necessity ...........................................................32

Ioannis Kostopoulos, University of Patras, Greece
Penny Markelou, University of Patras, Greece
Ioannis Panaretou, University of Patras, Greece
Athanasiou Tsakalidis, University of Patras, Greece

Section II
Protecting Digital Rights in E-Commerce Systems

In this section, an in-depth analysis of technological means for copyright protection of multimedia files is presented. Specifically, the most advanced watermarking algorithms and applications for multimedia are analyzed and evaluated.

Chapter III
Image Watermarking .......................................................................................................................56

Nikos Tsirakis, University of Patras, Greece
Chapter IV
Watermarking Techniques for DRM Applications ................................................................. 71
Alessandro Piva, University of Florence, Italy
Roberto Caldelli, University of Florence, Italy
Alessia De Rosa, University of Florence, Italy
Mauro Barni, Università di Siena, Italy
Vito Cappellini, University of Florence, Italy

Chapter V
Watermarking and Authentication in JPEG2000 ............................................................... 101
V.E. Fotopoulos, Hellenic Open University, Greece
I.D. Kostopoulos, University of Patras, Greece

Chapter VI
Securing and Protecting the Copyright of Digital Video Through Watermarking
Technologies ......................................................................................................................... 127
Evanthia Tsilichristou, University of Patras, Greece
Spiridon Likothanasis, University of Patras, Greece

Section III
Distributing, Managing, and Transacting Digital Rights in E-Commerce Systems

This section deals with the issues of distribution, management, and exploitation of copyrighted material and its digital rights through e-commerce systems. The issues are very important as they set the landscape and its restrictions regarding the transaction of digital rights via networks, Web services, and the Internet.

Chapter VII
Digital Rights Management of Images and Videos Using Robust Replica Detection
Techniques ............................................................................................................................. 159
Nikos Nikolaidis, Aristotle University of Thessaloniki, Greece
Ioannis Pitas, Aristotle University of Thessaloniki, Greece

Chapter VIII
Digital Fingerprinting Based Multimedia Content Distribution ......................................... 177
Shiguo Lian, France Telecom R&D, Beijing, China

Chapter IX
A Digital Rights Management System for Educational Content Distribution .................... 196
Tom S. Chan, Southern New Hampshire University, USA
Shahriar Movafaghi, Southern New Hampshire University, USA
J. Stephanie Collins, Southern New Hampshire University, USA
Chapter X
Digital Rights Management and E-Commerce Transactions: Online Rights Clearance ................214
  Dimitrios P. Meidanis, SilkTech S.A., Greece
  Spiros N. Nikolopoulos, SilkTech S.A., Greece
  Emmanouil G. Karatzas, SilkTech S.A., Greece
  Athanasia V. Kazantzi, SilkTech S.A., Greece

Section IV
Strategies and Case Studies

This section is presenting strategies and case studies of the use of digital rights management in organizations and sectors like cultural heritage.

Chapter XI
Digital Rights Management in Organisations: A Critical Consideration with a Socio-Technical Approach.................................................................244
  Dimitra Pappa, National Centre for Scientific Research “Demokritos”, Greece
  Lefteris G. Gortzis, Telemedicine Unit Department of Medical Physics, University of Patras, Greece

Chapter XII
An Advanced Watermarking Application for the Copyright Protection and Management of Digital Images of Cultural Heritage Case Study: “Ulysses” ...............................................................263
  Georgios Stilios, TEI of Ionian Islands, Greece
  Dimitrios K. Tsolis, University of Patras, Greece

Chapter XIII
Digital Rights Management in the Cultural Heritage Arena: A Truth or a Myth..................280
  Andrea de Polo, Alinari 24 ORE SpA, Italy

Section V
Legislative Issues

The legal issues are being analyzed, aiming at pointing out the most crucial legislative parameters that affect digital rights management and the distribution of copyrighted material online through e-commerce systems.

Chapter XIV
Digital Rights Management: A European Law Perspective.................................................294
  Christos Golfinopoulos, Attorney at Law, Golfinopoulos Law Office, Patra, Greece
