Adaptable and Adaptive Hypermedia Systems

Table of Contents

Foreword .................................................................................................................................................. vi
   Peter Brusilovsky, University of Pittsburgh, USA

Preface .................................................................................................................................................. viii
   Sherry Y. Chen, Brunel University, UK
   George D. Magoulas, Birkbeck College, University of London, UK

SECTION 1: REQUIREMENTS ANALYSIS

Chapter 1. Designing to Change Users' Information Seeking Behaviour: A Case Study .................................................................................................................. 1
   Hanna Stelmaszewska, Middlesex University, UK
   Ann Blandford, University College London, UK
   George Buchanan, University of Waikato, New Zealand

Chapter 2. Site Structure and User Navigation: Models, Measures, and Methods ... 19
   Eelco Herder, University of Twente, The Netherlands
   Betsy van Dijk, University of Twente, The Netherlands

SECTION 2: ARCHITECTURAL ASPECTS

Chapter 3. Adaptation Engineering in Adaptive Concept-Based Systems .................. 36
   Geert-Jan Houben, Eindhoven University of Technology, The Netherlands
   Lora Aroyo, Eindhoven University of Technology, The Netherlands
   Paul De Bra, Eindhoven University of Technology, The Netherlands
   Darina Dicheva, Winston-Salem State University, USA

Chapter 4. The Extended Abstract Categorization Map (E-ACM) .......................... 59
   Carlos Miguel Tobar, Pontifical Catholic University of Campinas, Brazil
   Ivan Luiz Marques Ricarte, State University of Campinas, Brazil
Chapter 5. A Generic Adaptation Framework for Web-Based Hypermedia Systems ................................................................. 80
Alexandros Paramythis, Institute of Computer Science, Foundation for Research and Technology, Hellas, Greece
Constantine Stephanidis, Institute of Computer Science, Foundation for Research and Technology, Hellas, Greece & University of Crete, Greece

SECTION 3: MODELLING TECHNIQUES

Chapter 6. Learning Adaptive Behaviour ................................................................. 104
Martin E. Müller, University of Augsburg, Germany

Chapter 7. A Survey of Web-Usage Mining: Techniques for Building Web-Based Adaptive Hypermedia Systems ............................................................. 125
Martha Koutri, University of Patras, Greece
Nikolaos Avouris, University of Patras, Greece
Sophia Daskalaki, University of Patras, Greece

Chapter 8. Information Imperfection as an Inherent Characteristic of Adaptive Hypermedia: Imprecise Models of Users and Interactions .............................................. 150
Miguel-Ángel Sicilia, University of Alcalá, Spain
Elena García Barriocanal, University of Alcalá, Spain

Chapter 9. Work Weighting Based on User’s Browsing History .............................. 169
Yutaka Matsuo, National Institute of Advanced Industrial Science & Technology, Japan

SECTION 4: APPLICATIONS DEVELOPMENT

Chapter 10. Adaptive Virtual Reality Museums on the Web .................................... 190
George Lepouras, University of Peloponnese, Greece
Costas Vassilakis, University of Peloponnese, Greece

Chapter 11. SCARCE: An Adaptive Hypermedia Environment Based on Virtual Documents and Semantic Web ................................................................. 206
Serge Garlatti, Technopôle de Brest Iroise, France
Sébastien Iksal, Laboratoire d’Informatique de l’Université du Maine, France
Philippe Tanguy, Technopôle de Brest Iroise, France

Chapter 12. User Modelling and Personalisation of Knowledge Management Systems .............................................................................................................. 225
Liana Razmerita, INRIA (The National Institute for Research in Computer Science and Control), France
