# E-Learning and Virtual Science Centers

## Table of Contents

**Foreword** .................................................................................................................................................. vii  
*Bill Peters, The Calgary Science Centre, Canada*

**Preface** .................................................................................................................................................... x  
*Leo Tan Wee Hin, Nanyang Technological University, Singapore*  
*R. Subramaniam, Nanyang Technological University, Singapore*

## Section I: Theoretical Issues

**Chapter I. Establishing Identification in Virtual Science Museums: Creating Connections and Community** ....................................................................................................................... 1  
*Billie J. Jones, Shippensburg University, USA*

**Chapter II. Free-Choice Learning Research and the Virtual Science Center: Establishing a Research Agenda** ......................................................................................................................... 28  
*Kathryn Haley Goldman, Institute for Learning Innovation, USA*  
*Lynn D. Dierking, Institute for Learning Innovation, USA*

**Chapter III. Contextualized Virtual Science Centers** ........................................................................... 51  
*Andreas Zimmermann, Fraunhofer-Institute for Applied Information Technology, Germany*  
*Andreas Lorenz, Fraunhofer-Institute for Applied Information Technology, Germany*  
*Marcus Specht, Fraunhofer-Institute for Applied Information Technology, Germany*
Chapter IV. Starting With What We Know: A CILS Framework for Moving from Physical to Virtual Science Learning Environments ......................................................... 68
Bronwyn Bevan, Exploratorium, USA

Chapter V. Weaving Science Webs: E-Learning and Virtual Science Centers .... 93
Susan Hazan, Israel Museum, Jerusalem

Chapter VI. Resource-Based Learning and Informal Learning Environments:
Prospects and Challenges ......................................................................................... 110
Janette R. Hill, University of Georgia, USA
Michael J. Hannafin, University of Georgia, USA
Denise P. Domizi, University of Georgia, USA

Section II: Design Considerations

Chapter VII. Interactivity Techniques: Practical Suggestions for Interactive
Science Web Sites .................................................................................................... 127
Michael Douma, Institute for Dynamic Educational Advancement, USA
Horace Dediu, Handheld Media, USA

Chapter VIII. From the Physical to the Virtual: Bringing Free-Choice
Science Education Online ......................................................................................... 163
Steven Allison-Bunnell, Educational Web Adventures, LLP, USA
David T. Schaller, Educational Web Adventures, LLP, USA

Chapter IX. Storytelling-Based Edutainment Applications .................................. 190
Anja Hoffmann, ZGDV e.V. - Computer Graphics Center, Darmstadt, Germany
Stefan Göbel, ZGDV e.V. - Computer Graphics Center, Darmstadt, Germany
Oliver Schneider, ZGDV e.V. - Computer Graphics Center, Darmstadt, Germany
Ido Iurgel, ZGDV e.V. - Computer Graphics Center, Darmstadt, Germany

Chapter X. Revolutionizing Information Architectures within
Learning-Focused Web Sites ..................................................................................... 215
Ramesh Srinivasan, Harvard University, USA

Chapter XI. From Information Dissemination to Information Gathering:
Using Virtual Exhibits and Content Databases in E-Learning Centers .............. 228
Joan C. Nordbotten, University of Bergen, Norway

Chapter XII. Challenges in Virtual Environment Design: An Architectural
Approach to Virtual Spaces .................................................................................... 251
Renata Piazzalunga, Information Technology Research Institute, Brazil
Saulo Faria Almeida Barretto, Information Technology Research Institute,
Brazil
Chapter XIII. Personalization Issues for Science Museum Web Sites and E-learning

Silvia Filippini-Fantoni, The University of Paris I Sorbonne, France
Jonathan P. Bowen, London South Bank University, UK
Teresa Numerico, London South Bank University, UK

Chapter XIV. E-Learning and Virtual Science Centers: Designing Technology Supported Curriculum

John Falco, Schenectady City School District, USA
Patricia Barbanell, Schenectady City School District, USA
Dianna Newman, State University of New York, USA
Suzanne Dewald, Schenectady City School District, USA

Section III: Case Studies

Chapter XV. A Virtual Museum Where Students Can Learn

Nicoletta Di Blas, Politecnico di Milano, Italy
Paolo Paolini, Politecnico di Milano, Italy
Caterina Poggi, Politecnico di Milano, Italy

Chapter XVI. Open Learning Environments: Combining Web-Based Virtual and Hands-On Science Centre Learning

Hannu Salmi, Heureka, The Finnish Science Centre, Finland and University of Dalarna, Sweden

Chapter XVII. Use of Log Analysis and Text Mining for Simple Knowledge Extraction: Case Study of a Science Center on the Web

Leo Tan Wee Hin, Nanyang Technological University, Singapore
R. Subramaniam, Nanyang Technological University, Singapore
Daniel Tan Teck Meng, Singapore Science Centre, Singapore

Chapter XVIII. The Development of Science Museum Web Sites: Case Studies

Jonathan P. Bowen, London South Bank University, UK
Jim Angus, National Institutes of Health, USA
Jim Bennett, University of Oxford, UK
Ann Borda, The Science Museum, UK
Andrew Hodges, University of Oxford, UK
Silvia Filippini-Fantoni, The University of Paris I Sorbonne, France
Alpay Beler, The Science Museum, UK

Chapter XIX. The Educational Approach of Virtual Science Centers: Two Web Cast Studies (The Exploratorium and La Cité des Sciences et de l’Industrie)

Roxane Bernier, Université de Montréal, Canada
Chapter XX. Real Science: Making Connections to Research and Scientific Data ................................................................. 423
Jim Spadaccini, Ideum, USA

About the Authors ............................................................................................................. 442

Index .................................................................................................................................. 453
