Emerging Technologies of Augmented Reality: Interfaces and Design

Table of Contents

Preface........................................................................................................................................vi

Section I: Introduction to Technologies that Support Augmented Reality

Chapter I
Vision Based 3D Tracking and Pose Estimation for Mixed Reality ......................... 1
Pascal Fua, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
Vincent Lepetit, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland

Chapter II
Developing AR Systems in the Presence of Spatial Uncertainty............................... 23
Cindy M. Robertson, Georgia Institute of Technology, TSRB, USA
Enylton Machado Coelho, Georgia Institute of Technology, TSRB, USA
Blair MacIntyre, Georgia Institute of Technology, TSRB, USA
Simon Julier, Naval Research Laboratory, USA

Chapter III
An Introduction to Head Mounted Displays for Augmented Reality ..................... 43
Kiyoshi Kiyokawa, Osaka University, Japan

Chapter IV
Projector-Based Augmentation...................................................................................... 64
Oliver Bimber, Bauhaus University, Germany
Chapter V
Mobile Phone Based Augmented Reality.......................................................... 90
Anders Henrysson, Norrköping Visualisation and Interaction Studio, Sweden
Mark Ollila, Norrköping Visualisation and Interaction Studio, Sweden
Mark Billinghurst, Human Interface Technology Laboratory New Zealand

Chapter VI
Representing and Processing Screen Space in Augmented Reality.................. 110
Blaine Bell, Columbia University, USA
Steven Feiner; Columbia University, USA

Section II: Augmented Reality Development Environments

Chapter VII
Abstraction and Implementation Strategies for Augmented Reality
Authoring.................................................................................................................. 138
Florian Ledermann, Vienna University of Technology, Austria
István Barakonyi, Graz University of Technology, Austria
Dieter Schmalstieg, Vienna University of Technology, Austria

Chapter VIII
Supporting Early Design Activities for AR Experiences................................. 160
Maribeth Gandy, Georgia Institute of Technology, USA
Blair MacIntyre, Georgia Institute of Technology, USA
Steven Dow, Georgia Institute of Technology, USA
Jay David Bolter, Georgia Institute of Technology, USA

Chapter IX
Real-Time 3D Design and Modelling of Outdoor Structures Using Mobile
Augmented Reality Systems.................................................................................. 181
Wayne Piekarski, University of South Australia, Australia

Chapter X
The Evolution of a Framework for Mixed Reality Experiences....................... 198
Charles E. Hughes, University of Central Florida, USA
Christopher B. Stapleton, Simiosys LLC, USA
Matthew R. O’Connor, University of Central Florida, USA

Section III: Interface Design and Evaluation of Augmented Reality Applications

Chapter XI
Lessons Learned in Designing Ubiquitous Augmented Reality User Interfaces ................................................................................................................. 218
Christian Sándor, Technische Universität München, Germany
Gudrun Klinker, Technische Universität München, Germany
Chapter XII
Human Communication in Collaborative Augmented Reality Systems .......... 236
Kiyoshi Kiyokawa, Osaka University, Japan

Chapter XIII
Interaction Design for Tangible Augmented Reality Applications .......... 261
Gun A. Lee, Electronics and Telecommunications Research Institute, Korea
Gerard J. Kim, Korea University, Korea
Mark Billinghurst, Human Interface Technology Laboratory, New Zealand

Section IV: Case Studies of Augmented Reality Applications

Chapter XIV
Industrial Augmented Reality Applications ............................................. 283
Holger Regenbrecht, University of Otago, New Zealand

Chapter XV
Creating Augmented Virtual Environments ............................................. 305
Ulrich Neumann, University of Southern California, USA
Suya You, University of Southern California, USA

Chapter XVI
Making Memories of a Lifetime ............................................................. 329
Christopher B. Stapleton, Simiosys LLC, USA
Charles E. Hughes, University of Central Florida, USA

Chapter XVII
Social and Physical Interactive Paradigms for Mixed Reality Entertainment ... 352
Adrian David Cheok, National University of Singapore, Singapore

Chapter XVIII
The Future of Augmented Reality Gaming .............................................. 367
Bruce H. Thomas, Wearable Computer Laboratory, University of South Australia, Australia

About the Authors ....................................................................................... 384

Index .......................................................................................................... 391
