Acknowledgments

The Encyclopedia of Digital Government is a result of a close collaboration of the publisher, editors, authors, and reviewers. It goes without saying that we are grateful to all the people who have been involved in making this publication a success.

This impressive group of academics and experts has contributed directly to the improvement of the quality of individual papers and consequently also to the overall quality of the encyclopedia. We want to thank them all for their cooperation and support.

In a publication project like this the publisher deserves a special mention. We want to thank the publishing team at Idea Group Inc., whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. It has always been a pleasure to work with Senior Technology Editor Dr. Mehdi Khosrow-Pour as well as with Managing Director Jan Travers and Associate Marketing Manager Dorsey Howard. During the last two years we have worked closely with three amazing women, Sara Reed, Renée Davies and Michelle Potter, whose professional help made this publication possible. Such great support from the IGI editorial team makes them no less than a group of co-editors of the encyclopedia. Without them, this publication would not have been possible.

Finally, we want to thank our host institutions, the University of Tampere (Ari-Veikko Anttiroiko) and The Police College of Finland (Matti Mälkiä), for their direct and indirect support to the project. Special thanks go to Research Director Antti Kasvio and Ms. Hanna Liikala of the Information Society Institute affiliated to the University of Tampere for setting up the Web site for the encyclopedia.
