Contents by Volume

VOLUME I

Academic Workload in Online Courses / Geoffrey N. Dick, University of New South Wales, Australia ...........................................1

Academic, Economic, and Technological Trends Affecting Distance Education / Nathan K. Lindsay, University of Michigan, USA; Peter B. Williams, Brigham Young University, USA; Scott L. Howell, Brigham Young University, USA ...........................................................................................................7

Accessibility of Technology in Higher Education / Deborah W. Proctor, Minnesota State Colleges and Universities, USA ..........................................................................................................................16

Achievement in Online vs. Traditional Classes / E. Lea Witta, University of Central Florida, USA .................................................29

Addressing the E-Learning Contradiction / Colla J. MacDonald, University of Ottawa, Canada; Emma J. Stodel, Learning 4 Excellence, Canada; Terrie Lynn Thompson, University of Alberta, Canada; Bill Muirhead, University of Ontario Institute of Technology, Canada; Chris Hinton, University of Ontario Institute of Technology, Canada; Brad Carson, University of Ontario Institute of Technology, Canada; Erin Banit, University of Ontario Institute of Technology, Canada ..........................................................................................................................................................33

Administration of Online and Distance Education, The / Gary E. Miller, The Pennsylvania State University, USA .........................................................40

Administrative Concerns for Distance Learning / Henryk Marcinkiewicz, Pennsylvania College of Technology, USA; Jennifer McLean, Pennsylvania College of Technology, USA ..................................................................................................................................................................................45

Administrative Strategies for Designing and Supporting Large-Scale Digital Lecture Recording Environments / Lisa A. Stephens, The University at Buffalo, USA ...........................................................................................................................................................................48

Adult Illiteracy / Ann-Marie Trammell, University of Phoenix Online, USA .................................................................................................54

Advancing the Effective Use of Technology in Higher Education / Sally M. Johnstone, Western Cooperative for Educational Telecommunications, USA .........................................................................................................................62

Aging and Online Learning / Patricia M. Boechler, University of Alberta, Canada .......................................................................................66

Anonymity-Featured Group Support Systems and Creativity / Esther E. Klein, Hofstra University, USA .......................................................................................74

Applying Change Creation to Improve Online Learning / Dale W. Lick, Florida State University, USA; Roger Kaufman, Florida State University, USA & Sonora Institute of Technology, Mexico .........................................................................................................................81

Assessing Collaborative Learning / Rita-Marie Conrad, Florida State University, USA .........................................................................................89

Assessment of Complex Learning Outcomes in Online Learning Environments / Mahnaz Moallem, University of North Carolina, Wilmington, USA; National Science Foundation, USA ...........................................................................................................94
Challenges for E-Learning and Adult Students in Higher Education / Ana Maria R. Correia, Inst. Sup. Estatística e Gestão da Informação (ISEGI), Portugal & Inst. Nacional de Eng., Tec. e Inovação (INETI), Portugal; Anabela Sarmento, Instituto Politécnico do Porto, Portugal .................................................................253

Challenges of Change Management in E-Learning / Parviz Partow-Navid, California State University, Los Angeles, USA; Ludwig Slusky, California State University, Los Angeles, USA .........................................................................................................................260

Changing Role of Faculty, The / Graham Shaw, Barry University, USA .................................................................................................................266

Checklist for a New Millennium School Science Department, A / Ed Hessler, Minnesota Environmental Foundation, Inc., USA ...........................................................................................................273

Classroom Critical Incidents / John M. Carroll, The Pennsylvania State University, USA; Dennis C. Neale, Virginia Tech, USA; Philip L. Isenhour, Virginia Tech, USA ...........................................................................275

Cognitive Apprenticeship and Writing in Distance and Online Learning / Vanessa P. Dennen, Florida State University, USA; Kerry J. Burner, Florida State University, USA ........................................................................................................282

Cognitive Approaches to Understanding the Challenge of Learning by Means of Computers and Personal Digital Assistants (PDAs) / Jocelyn M. Wishart, University of Bristol, UK .................................................................................289

Cognitive Profiling in Life-Long Learning / Taiyu Lin, Massey University, New Zealand; Kinshuk, Massey University, New Zealand ..................................................................................................................295

Collaboration Among Multicultural Virtual Teams / Kursat Cagiltay, Middle East Technical University, Turkey; Barbara A. Bichelmeyer; Indiana University, USA; Michael A. Evans, Indiana University, USA; Trena M. Paulus, University of Tennessee, USA; Jae Soon An, Samsung Advanced Institute of Technology, South Korea .................................................................306

Collaboration in Online Communications / Albert L. Ingram, Kent State University, USA; Lesley G. Hathorn, Kent State University, USA ........................................................................................................314

Collaborative and Cooperative Learning / Joanne M. McInnerney, Central Queensland University, Australia; Tim S. Roberts, Central Queensland University, Australia .............................................................................319

Collaborative Learning in a Contribution-Oriented Pedagogy / Betty Collis, University of Twente, The Netherlands; Jef Moonen, University of Twente, The Netherlands .................................................................................327

Collaborative Learning Technologies / Maryam Alavi, Emory University, USA; Donna Dufner, University of Nebraska, Omaha, USA; Caroline Howard, Touro University International, USA ........................................................................................................334

Communicating Across Boundaries / Dennis Harper, Generation YES, USA ........................................................................................................340

Communication and Media Theory / Gary A. Berg, California State University Channel Islands, USA ........................................................................342

Communities in Technology-Enhanced Environments for Learning / Johanna Pöysä, University of Jyväskylä, Finland; Joost Lowyck, University of Leuven, Belgium ...........................................................................345

Communities of Inquiry in Online Learning / D. R. Garrison, University of Calgary, Canada ..................................................................................352

Community in the Online Environment / Janet Lear, University of Nebraska at Kearney, USA .................................................................................356

Completion Rates and Distance Learners / Nathan K. Lindsay, University of Michigan, USA; Scott L. Howell, Brigham Young University, USA; R. Dwight Laws, Brigham Young University, USA .................................................................................361

Computer Assisted/Aided Language Learning / Andrew Laghos, City University, UK; Panayiotis Zaphiris, City University, UK ......................................................................................................................368
Computer-Aided Language Learning / Andrew Laghos, City University, UK; Panayiotis Zaphiris, City University, UK ..........................................................374

Computer-Assisted Language Learning in East Asia / Hsien-Chin Liou, National Tsing Hua University, Taiwan, R.O.C. ..........................................................377

Computer’s Teacher Power, A / Donald N. Bigelow, Washington, D.C., USA ..........................................................389

Conceiving a Learning Organization Model in Online Education / Kam Hou Vat, University of Macau, Macau........................................................................391

Connecting K-12 Schools in Higher Education / Laura A. B. Dell, Public Library of Cincinnati & Hamilton County, USA ..........................................................398

Constructing Knowledge through Online Bulletin Board Discussions / Adams Bodomo, University of Hong Kong, Hong Kong ..........................................................403

Constructing Technology Integrated Activities that Engage Elementary Students in Learning / Diane L. Judd, Valdosta State University, USA ..........................................................411

Constructivist Teaching and Learning in a Web-Based Environment / Valerie N. Morpiew, Fairmont State University, USA ..........................................................418

Contextual Design of Online Learning Technologies / Mark Notess, Indiana University, USA ..........................................................424

Continuing Science Education of the Global Public / Leo Tan Wee Hin, Nanyang Technological University, Singapore; R. Subramaniam, Nanyang Technological University, Singapore ..........................................................432

Contribution-Oriented Pedagogy / Betty Collis, University of Twente, The Netherlands; Jef Moonen, University of Twente, The Netherlands ..........................................................439

Cooperation Solution for Universities, The / Michaela Knust, Georg-August-University Goettingen, Germany; Svenja Hagenhoff, Georg-August-University Goettingen, Germany ..........................................................447

Cooperative Agents in Web-Based Distance Learning / Leonard Barolli, Fukuoka Institute of Technology (FIT), Japan; Akio Koyama, Yamagata University, Japan ..........................................................454

Copyright with an International Perspective for Academics / Stephen Marshall, Victoria University of Wellington, New Zealand ..........................................................464

Core Competencies for Facilitating Asynchronous Discussions / Alice Bedard-Voorhees, Colorado Mountain College, USA ..........................................................480

Corporate - Higher Education Alliance / François Guillotte, Technomedia Training Inc., Canada; Jacques Gaumond, University of Montreal, Canada ..........................................................487

Cost-Effectiveness / Saul Fisher, The Andrew W. Mellon Foundation, USA ..........................................................498

Course Management Meets Social Networking in Moodle / Matt Crosslin, University of Texas at Arlington’s Center for Distance Education, USA ..........................................................505

Creating an Electronic Student Teaching Portfolio / Patricia A. Shaw, University of Wisconsin-Stevens Point, USA; Susan Slick, University of Wisconsin-Stevens Point, USA ..........................................................510

Creating Positive E-Learning Experiences for Online Students / Ryan Watkins, The George Washington University, USA ..........................................................517

Critical Elements in Effective Teaching in the New Millennium / Gretchen Irvine, Augsburg College, USA ..........................................................525

</table>
Evaluating Quality in the Online Classroom / Lesley Blicker, Minnesota State Colleges and Universities and Metropolitan State University, USA ..........................................................965

Evolution of K-12 Online Learning Policy from a Void to a Patchwork, The / David B. Glick, David B. Glick & Associates LLC, USA ..........................................................974

Evolution of Online Composition Pedagogy, The / Eileen I. Oliver, University of Florida, USA ..................981

Evolving Technologies Supporting of Collaborative Learning / Donna Dufner, University of Nebraska, Omaha, USA; Maryam Alavi, Emory University, USA; Caroline Howard, HC Consulting, USA ..........................................................987

Expanding Desktop Libraries / Edward D. Garten, Northcentral University, USA; Donna K. Meyer, Northcentral University, USA ..................995

Facilitating Connected Knowing Through Virtual Learning Communities / Holly McCracken, The University of Illinois at Springfield, USA ..........................................................1003

Facilitation of Web-Based Courses Designed for Adult Learners / Bonnie McCall Ordonez, Waynesburg College, USA ..........................................................1012

Faculty Participation in Distance Education Programs / Catherine C. Schifter, Temple University, USA ..................1016

Faculty Support Systems / Jason D. Baker, Regent University, USA; Robert J. Schihl, Regent University, USA ..........1022

From R&D Project to Virtual Universities / Harald Haugen, Stord/Haugesund University College, Norway; Bodil Ask, Agder University College, Norway & United Nation University, Japan ..........................................................1032

Future of Teaching and Learning Technologies, The / Howard Strauss, Princeton University, USA ..................1040

Global Initiative in Forensic Education, A / Donna Wielbo, University of Florida, USA; Ian Tebbett, University of Florida, USA ..................1046

Group Leadership in Online Collaborative Learning / Agnes Kukulska-Hulme, The Open University, UK ..................1052

Growth of Online Schooling in Canada / M. Haughey, University of Alberta, Edmonton, Canada ..................1060

Heuristically Evaluating Web-Based ODL / Athanasis Karoulis, Aristotle University of Thessaloniki, Greece; Andreas Pombortsis, Aristotle University of Thessaloniki, Greece ..........................................................1066

High School Online Learning / Renee Jesness, Online Learning Coordinator, Minneapolis Public Schools, USA ......1072

History of Distance Learning Professional Associations / Irene Chen, University of Houston Downtown, USA ..........1079

Holistic Model of Thinking Skills in the Digital Era, A / Yoram Eshet-Alkalai, The Open University of Israel, Israel ..........................................................1088

How Blended Teacher Education Courses Impact Learning in K-12 Settings / Clark J. Hickman, University of Missouri-St. Louis, USA; Cheryl L. Bielema, University of Missouri-St. Louis, USA; Stephen G. Viola, University of Missouri-St. Louis, USA ............1094

Hybrid and Traditional Course Formats / Dan Baugher, Pace University, USA; Andrew Varanelli, Pace University, USA; Ellen Weisbord, Pace University, USA .......1101

Hypermedia Modules for Distance Education and Beyond / Nicoletta Sala, Università della Svizzera Italiana, Switzerland ..........................................................................................1107
Implementing a Laptop Program within a College of Pharmacy / Evan T. Robinson, Western New England College School of Pharmacy, USA

Implementing a Statewide Electronic Portfolio Infrastructure / Paul Wasko, Minnesota State Colleges and Universities, USA

Implementing Learning Support Systems / J. Bernardes, University of Wolverhampton, UK; J. O’Donoghue, University of Wolverhampton, UK

Implementing Successful Online Learning Communities / Diane E. Beck, University of Florida, USA; Sven A. Normann, University of Florida, USA

Improving Evaluations in Computer-Supported Learning Projects / John B. Nash, Stanford University, USA; Christoph Richter, University of Hannover, Germany; Heidrun Allert, University of Hannover, Germany

Improving Learning and Reducing Costs for Online Learning / Carol A. Twigg, National Center for Academic Transformation, USA

Inadequate Infrastructure and the Infusion of Technology into K-12 Education / Gregg Asher, St. Cloud State University, USA

Increasing Web Accessibility and Usability in Higher Education / Barbara A. Frey, University of Pittsburgh, USA; Ashli Molinero, University of Pittsburgh, USA; Ellen Cohn, University of Pittsburgh, USA

Informal Communication in Virtual Learning Environments / Werner Beuschel, University of Applied Sciences, Brandenburg, Germany; Birgit Gaiser, Knowledge Media Research Center, Tuebingen, Germany; Susanne Draheim, University of Applied Sciences, Brandenburg, Germany

Informal Learning Projects and World Wide Voluntary Co-Mentoring / Nicholas Bowskill, University of Sheffield, UK

Information Literacy / Elaine Fabbro, Athabasca University Library, Canada

Information-Rich Learning Concepts / Alan Pritchard, University of Warwick, UK

Innovation and Technology for 21st Century Education / Murray Turoff, New Jersey Institute of Technology, USA; Caroline Howard, Touro University International, USA; Richard Discenza, University of Colorado USA

Innovation in Web-Enhanced Learning / Jane E. Klobas, University of Western Australia, Australia & Bocconi University, Italy; Stefano Renzi, Bocconi University, Italy

VOLUME III

Instructional Immediacy Online / Sherri Melrose, Athabasca University, Canada

Instructor Presence in Online Distance Classes / Janet Lear, University of Nebraska at Kearney, USA

Intangibles, The / Robert Downs, Technology Integration Specialist, USA
Integrating Library Services into the Web-Based Learning Curriculum / Mahesh S. Raisinghani, Texas Woman’s University, USA; Cherie Hohertz, University of Dallas, USA .......................................................... 1222

Integrating New Technologies to Promote Distance Learning / Zippy Erlich, The Open University of Israel, Israel ............................................................................................................... 1228

Interaction in Distance Learning / Mary Bold, Bold Productions, USA .............................................................................. 1244

Interaction in Web-Based Learning / Adams Bodomo, University of Hong Kong, Hong Kong ................................................. 1250

Interactions Online / Susan Wegmann, University of Central Florida, USA .......................................................... 1259

Internet Access and Software Alternatives for Students on the Wrong Side of the Digital Divide / Brian F. Fox, Santa Fe College, USA .............................................................................................................. 1268

Internet Marketing Techniques for Online Programs / Cynthia Gallatin, Quinnipiac University, USA ...................... 1274

Introduction to Learning Management Systems / Diane D. Chapman, North Carolina State University, USA ............. 1280

Issues in Implementing Online Education in a Developing Country / Tim Bristol, Crown College, USA ................ 1287

IT to Facilitate Distance Education / M. Gordon Hunter, The University of Lethbridge, Canada; Peter Carr, Athabasca University, Canada ................................................................. 1291

Just-in-Time Training (JITT) and its Implications for Teaching and Learning / Barbara Iannarelli, Niagara University, USA .......................................................................................................................... 1297

K-12 Schools and Online Learning / Anita Dorniden, Holdingford High School, USA .......................................................... 1306

Laptops and Teacher Transformation / Andrew Kitchenham, University of Northern British Columbia, Canada ...... 1313

Large-Scale Model for Working with Subject Matter Experts, A / Judith A. Russo-Converso, CSC, USA; Ronald D. Offutt, Northrup-Grumman Information Technology, USA ........................................... 1319

Leadership Competency in Virtual Teams / Deborah Petska, Northrop Grumman Information Technology, USA; Zane Berge, University of Maryland, Baltimore County, USA .......................................................... 1330

Leadership in Technology Integration / Sue Burke, Bloomington Public Schools, USA ........................................... 1338

Learner Perceptions of Online Courses / Marc R. Robinson, Next Generation Learning, USA ...................................... 1340

Learner-Centered Perspective on E-Learning, A / Hyo-Jeong So, Nanyang Technological University, Singapore; Curtis J. Bonk, Indiana University, USA; Robert A. Wisher, Department of Defense, USA .................................................. 1346

Learning Management Systems / Diane D. Chapman, North Carolina State University, USA ................................ 1355

Learning Outcomes across Instructional Delivery Modes / Bosede Aworuwa, Texas A&M University-Texarkana, USA; Robert Owen, Texas A&M University-Texarkana, USA ...................................................... 1363

Learning Styles and Multiple Intelligences / Teresa Chambel, University of Lisbon, Portugal; Nuno Guimarães, University of Lisbon, Portugal .................................................. 1369

Library Services for Distance Education Students in Higher Education / Elizabeth Buchanan, University of Wisconsin – Milwaukee, USA ........................................................................................................ 1380

Life Cycle Challenges of Online Learning Support Systems / Debra A. Beazley, Rocky Mountain University of Health Professions, USA; Riad Aisami, Troy University, USA; Elise L. Addison, Troy University, USA ...................................................... 1384
Marketing Library Services to Distance Learners / Allyson Washburn, Brigham Young University, USA; Terri Pedersen Summey, Emporia State University, USA ................................................................. 1391

Measuring Effectiveness in Online Instruction / Louis B. Swartz, Robert Morris University, USA; Michele T. Cole, Robert Morris University, USA; Daniel J. Shelley, Robert Morris University, USA ................................................................. 1399

Meeting the Academic and Practical Needs of a Criminal Justice DL Program / Michael Herbert, Bemidji State University, USA ................................................................. 1404

Methods and Tools for Online Objective Testing / Gennaro Costagliola, Università degli Studi di Salerno, Italy; Filomena Ferrucci, Università degli Studi di Salerno, Italy; Vittorio Fuccella, Università degli Studi di Salerno, Italy ................................................................. 1409

Millennium Teachers in a Global Context / Craig Kissock, University of Minnesota, Morris, USA ......................................................... 1418

Minorities and the Online University / Kathy Enger, North Dakota State University, USA ................................................................. 1419

Mobile Educational Technology / Chris Houser, Kinjo Gakuin University, Japan; Patricia Thornton, Kinjo Gakuin University, Japan ................................................................. 1424

Mobile Learning Implementation and Issues / Boris Vilic, Rider University, USA ................................................................. 1432

Model for Evaluating Online Programs, A / Amy J. Nelson, Minnesota State College—Southeast Technical, USA ................................................................. 1438

Model for Global Distance Education Projects, A / Cindy Beacham, West Virginia University, USA ................................................................. 1449

Motivating the Adult Learner Online / Audrey J. Styer, Morton College, USA ................................................................. 1456

Multimedia as a Cross-Channel for Cultures and Languages / Ramesh C. Sharma, Indira Gandhi National Open University, India; Sanjaya Mishra, Indira Gandhi National Open University, India ................................................................. 1461

Necessities for Effective Asynchronous Learning / James E. Novitzki, Johns Hopkins University, USA ................................................................. 1468

Need for a Well-Managed Technology Infrastructure, The / Thomas Lapping, JDL Technologies, USA ................................................................. 1475

New “Space” of the University in the Digital Age, The / Carl A. Raschke, University of Denver, USA ................................................................. 1477

Normalizing an Off-Campus Course with Video-Conferencing / Timothy Ward Pelton, University of Victoria, Canada ................................................................. 1482

Online Collaborative Learning and Leadership Development / Tony W. Day, University of Phoenix, USA ................................................................. 1488

Online Education, Standardization, and Roles / Roy Rada, University of Maryland, Baltimore County (UMBC), USA; Heather Holden, University of Maryland, Baltimore County (UMBC), USA ................................................................. 1493

Online Instruction as a Caring Endeavor / Jeanine E. Gangeness, Bemidji State University, USA ................................................................. 1497

Online Learner Expectations / Gary W. Hawkins, Spring Arbor University, USA; Jason D. Baker, Regent University, USA ................................................................. 1501

Online Learning Community / Michelle M. Kazmer, Florida State University, USA ................................................................. 1506

Online Learning Experiences of University Students / Johanna Lammintakanen, University of Kuopio, Finland; Sari Rissanen, University of Kuopio, Finland ................................................................. 1512

Online Learning Teams / Carla J. Thompson, University of West Florida, USA ................................................................. 1519
Online Mentoring / Elizabeth Buchanan, University of Wisconsin – Milwaukee, USA .................................................. 1525

Online Support for Collaborative Authentic Activities / Sue Bennett, University of Wollongong, Australia ......... 1529

Open Learning Initiative, Scientifically Designed and Feedback Driven eLearning, The / Joel M. Smith, Carnegie Mellon University, USA ........................................................................................................ 1534

Open Student Models / Eshaa M. Alkhalifa, University of Bahrain, Bahrain ............................................................... 1541

Open University of Israel, The / Zippy Erlich, The Open University of Israel, Israel; Judith Gal-Ezer, The Open University of Israel, Israel .................................................................................................................. 1546

Open University, United Kingdom, The / Gary A. Berg, California State University Channel Islands, USA ........ 1554

Openness Dimension of Distance Teaching Universities / Sarah Guri-Rosenblit, The Open University of Israel, Israel ........................................................................................................................................ 1557

Operational Performance Guidelines for Online Instructors / Lawrence C. Ragan, The Pennsylvania State University, USA ........................................................................................................................................... 1564

Opportunities and Opportunity Cost in Preparing Millennium Teachers / Michael Hartoonian, University of Minnesota – Twin Cities Campus, USA; Vivian Johnson, Hamline University, USA ........................................................................................................ 1571

Organizing Faculty for Distance Learning / Henryk Marcinkiewicz, Pennsylvania College of Technology, USA; Jennifer McLean, Pennsylvania College of Technology, USA ........................................................................................................................................... 1573

Overcoming the Digital Divide / Al P. Mizell, Nova Southeastern University, USA; Cecil Sugarman, Nova Southeastern University, USA ........................................................................................................ 1578

Participation of Distance Learning Students in Experiments / Eduardo Costa, Utah State University, USA; Jamil S. Barbar, Universidade Federal de Uberlândia (UFU), Brazil; Reny Cury, Utah State University, USA; Junia M. Rocha, Utah State University, USA ........................................................................................................................................... 1585

Participatory Learning Approach / Michael Bieber, New Jersey Institute of Technology, USA; Jia Shen, New Jersey Institute of Technology, USA; Dezhi Wu, New Jersey Institute of Technology, USA; Starr Roxanne Hiltz, New Jersey Institute of Technology, USA ........................................................................................................................................... 1591

Partnerships / Linda L. Baer, Minnesota State Colleges and State Universities, USA; Ann Hill Duin, University of Minnesota, USA ........................................................................................................ 1597

Part-Time Faculty Affiliation with the Virtual University / Leone E. Snyder, Capella University, USA; Leonard L. Snyder, Capella University, USA ........................................................................................................ 1605

Pedagogy and Learning in the Virtual World of Second Life® / Leslie Jarmon, University of Texas, USA ............ 1610

Pedagogy of Social Development in Online Learning, The / Robert H. Woods, Spring Arbor University, USA; Jason D. Baker, Regent University, USA ........................................................................................................ 1620

Planning and Teaching Online Courses / Riad S. Aisami, Troy University, USA .................................................. 1628

Planning for the Present and Future of Videoconferencing / F. Meena Lakhavani, Carnegie Mellon University, USA; Brian S. R. Bennett, Carnegie Mellon University, USA ........................................................................................................................................... 1639

Podcasting as Mobile Learning / Kathleen P. King, Fordham University, USA .................................................. 1644

Postgraduate Degree by Distance Learning / Tiong Kung-Ming, University Malaysia Sabah, Malaysia ............... 1651
Preparing Faculty for Distance Learning Teaching / Mohamed Ally, Athabasca University, Canada ............................1660
Preparing Teachers to Teach Online / Gregory C. Sales, Seward Incorporated, USA..........................1665
Problems and Possibilities of Virtual Schools, The / Glenn Russell, Monash University, Australia...............1673
Process and Product Oriented Online Collaborative Learning Tasks / Xin Chun Wang, California State University, Fresno, USA .............................................................1680
Professional Learning Model (PLM™), The / David E. Leasure, Colorado Technical University, USA; Amy Peterson, Career Education Corporation, USA; Richard Kettner-Polley, Colorado Technical University, USA; Scott Van Tonningen, Colorado Technical University, USA ..................................................1686
Programmed Instruction Resources / Belinda Davis Lazarus, University of Michigan-Dearborn, USA ..........1693
Quality Assurance and Online Higher Education / Edward D. Garten, University of Dayton, USA; Tedi Thompson, American Public University System, USA .........................................................1700
Quality Distance Learning Programs and Processes / William H. Riffee, University of Florida, USA; Christopher Sessums, University of Florida, USA .........................................................1709
Quality Function Deployment in Training Design / Arthur B. Jeffery, University of South Alabama, USA; Mary F. Bratton-Jeffery, RDIS, LLC, USA ..................................................................................................1714
Quality Matters Program, The / Ronald Legon, University of Baltimore, USA ...........................................1723
Quality Processes in Distance Education / Alistair Inglis, Victoria University, Australia .............................1728
Questions for the Student Evaluation of Distance Courses / Martha Henckell, Southeast Missouri State University, USA; Michelle Kilburn, Southeast Missouri State University, USA; David Starrett, Southeast Missouri State University, USA ...............................................................1734
Re-Enacted Affiliative Meanings and “Branding” in Open and Distance Education / Gary Mcl. Boyd, Concordia University, Canada; Dai Zhang, Concordia University, Canada ................................................1739
Religion and Online Learning / P. Clint Rogers, University of Joensuu, Finland; Scott L. Howell, Brigham Young University, USA .................................................................1744
Remote Teaching Laboratories in Science and Engineering / Dietmar Kennepohl, Athabasca University, Canada ..........................................................................................................................1749
Repurposing Educational Content into an International Market / Evan T. Robinson, Western New England College School of Pharmacy, USA ..........................................................................................1754
Research on Cultural Factors in Global E-Learning / Donald Stepich, Boise State University, USA; Seung Youn (Yonnie) Chyung, Boise State University, USA; Allison Smith-Hobbs, Boise State University, USA ..................1758
Research on the Effects of Media and Pedagogy in Distance Education / Yiping Lou, Louisiana State University, USA .........................................................................................................................1766
Research on the E-Teacher in the K-12 Distance Education Classroom / Elizabeth Murphy, Memorial University of Newfoundland and Labrador, Canada; Maria A. Rodriguez-Manzanares, Memorial University of Newfoundland and Labrador, Canada ..........................................................1774
Research-Based Distance Learning Services in the Northern Pacific / Steve Baxendale, World Health Organization ......................................................................................................................1779
Researching Distance Education / Som Naidu, The University of Melbourne in Victoria, Australia................................. 1786

Return on Investment in Training / Tad Waddington, Accenture, USA.................................................................................. 1794

VOLUME IV

Reusable Learning-Object Approach to Designing Online Courses, A / Seung Youn (Yonnie) Chyung, Boise State University, USA; Joann Swanson, Boise State University, USA.................................................................................. 1800

Riding the School Bus Called Technology / Augusta Droste, Virtual Online Training & Teaching (VOLTT), USA; Bruce Droste, Virtual Online Training & Teaching (VOLTT), USA .................................................................................. 1806

Role of Learning Objects in Distance Learning, The / Robin H. Kay, University of Ontario Institute of Technology, Canada.................................................................................................................. 1808

Rubrics as an Assessment Tool in Distance Education / Bonnie L. MacGregor, Bryant & Stratton College, USA ................................................................................................................................. 1814

Scenario-Based Instructional Design Model, A / Neal Shambaugh, West Virginia University, USA ................................................................................................................................. 1820

School Reform and the Maturing of Online Learning / David B. Glick, David B. Glick & Associates LLC, USA ................................................................................................................................. 1828

School-Wide Factors Facilitating Technology Integration and Implementation / Ronald E. Anderson, University of Minnesota, USA; Sara Dexter, University of Minnesota, USA .................................................................................................................................................................................. 1836

Security and Privacy in Distance Education / George Yee, National Research Council Canada, Canada........................................ 1839

Self-Directed Learning with Web-Based Resources / Wan Ng, La Trobe University, Australia; Howard Nicholas, La Trobe University, Australia ................................................................................................. 1847

Self-Normalizing Distance Learning Tools / Eduardo Costa, Utah State University, USA; Reny Cury, UFU/CNPq, Brazil; Junia Magellan, Utah State University, USA ................................................................................................................................. 1853

Sharable Learning Objects / Tina Stavredes, Capella University, USA .................................................................................. 1858

Shifting Perceptions within Online Problem-Based Learning / Roisin Donnelly, Dublin Institute of Technology, Ireland; Timo Portimojärvi, University of Tampere, Finland ................................................................................................................................. 1865

Significance and Uniqueness of Personalized E-Coaching / Ni Chang, Indiana University South Bend, USA ........................................ 1876

Social Connection Theory for Online Problem-Solving Groups / Deana L. Molinari, Idaho State University, USA ................................................................................................................................. 1894

Social Presence / Patrick R. Lowenthal, Regis University, USA ................................................................................................. 1900

Social Presence in Distance Learning / Brian Newberry, California State University, San Bernardino, USA ................................................................................................................................. 1907

Soft Technology Skills and the Teacher of the 21st Century / David Paulson, School Safety Research Institute, USA ......................... 1914
Strengthening the Internal Quality Assurance Mechanisms in Open and Distance Learning Systems / Felix Kayode Olakulehin, National Open University of Nigeria Victoria Island, Nigeria ................................................................. 1916

Stress of Nursing Students Studying Online / Deana L. Molinari, Idaho State University, USA; Alice E. Dupler, Washington State University Intercollegiate College of Nursing, USA; Naomi Lungstrom, Washington State University Intercollegiate College of Nursing, USA ............................................................... 1923

Stress of Online Learning, The / Deana L. Molinari, Washington State University Intercollegiate College of Nursing, USA; Alice E. Dupler, Washington State University Intercollegiate College of Nursing, USA; Naomi Lungstrom, Washington State University Intercollegiate College of Nursing, USA ......................................................... 1931

Strong Networks Grow Distance Learning / Pankaj Shah, OARnet, USA; Kate M. Carey, Ohio Learning Network, USA ............................................................... 1937

Student Retention in Online Education / Mac Adkins, Troy State University Montgomery, USA; Wanda B. Nitsch, University of St. Augustine for Health Services, USA ......................................................................................................................... 1944

Student Support Services / Scott L. Howell, Brigham Young University, USA; Wendi Wilcken, Brigham Young University, USA ............................................................ 1951

Success Predictors in Graduate Online Learning / Doris Gomez, Regent University, USA; Mihai C. Bocarnea, Regent University, USA ........................................................................... 1957

Successful Self-Funding E-Learning Programs / Yair Levy, Nova Southeastern University, USA; Michelle M. Ramim, Nova Southeastern University, USA ........................................................................... 1966

Successful Strategies in Online Courses / Linda W. Cooper, Macon State College, USA ................................................................. 1973

Support of Online Learning through Intelligent Programs / Mohamed Salah Hamdi, UAE University, UAE ........................................ 1978

Supporting Online Collaborative Learning in Mathematics / Rod Nason, Queensland University of Technology, Australia; Earl Woodruff, OISE-University of Toronto, Canada ......................................................... 1987

Supporting the Implementation of Online Learning / Daniel W. Surry, University of South Alabama, USA; David C. Ensminger, Loyola University Chicago, USA ................................................................................................. 1994

Surpassing Online Learning Obstacles / Dilermando Piva Jr., Faculty of Technology of Indaiatuba, Brazil; Ricardo Luis de Freitas, Catholic University of Campinas, Brazil; Gilberto S. Nakamiti, Catholic University of Campinas, Brazil ................................................................................................................................. 2000

Systems Model of Educational Processes / Charles E. Beck, University of Colorado at Colorado Springs, USA; Gary R. Schornack, University of Colorado at Denver, USA ......................................................................................... 2008

Tablet PCs as Online Learning Tools / Malu Roldan, San Jose State University, USA ................................................................................................. 2017

Task-Oriented Information Organization and Retrieval in Online Learning / Kyung-Sun Kim, University of Wisconsin-Madison, USA; Joi L. Moore, University of Missouri-Columbia, USA .................................................................................................. 2023

Teacher Electronic Portfolios / Susan Slick, University of Wisconsin – Stevens Point, USA; Patricia A. Shaw, University of Wisconsin – Stevens Point, USA ........................................................................... 2032

Teachers for the New Millennium / James Lerman, Columbia University, USA ................................................................................................. 2040

Teaching and Learning Image Courses with Visual Forms / Y. J. Zhang, Tsinghua University, Beijing, China ........................................ 2044

Teaching Culture and Communication with Online Media / Kirk St.Amant, Texas Tech University, USA ................................................................. 2050
Teaching Medical Statistics over the Internet / Rachael Knight, Royal Women's Hospital, Australia; Kate Whittington, University of Bristol, UK; W. Chris L. Ford, University of Bristol, UK; Julian M. Jenkins, University of Bristol, UK ................................................................. 2059

Teaching Style in the Online Classroom / Debra Campbell, SBI Technologies, USA; Zane Berge, University of Maryland, Baltimore County, USA ................................................................. 2067

Technology and Disabilities in the Century Ahead / Ray Kurzweil, Kurzweil Technologies, Inc., USA ..................................................... 2077

Technology Barriers and Opportunities / John C. Wilkinson, JDL Technologies, USA ............................................................................. 2082

Technology Diffusion / Pete Nelson, Portanza, USA ................................................................................................................................. 2086

Technology Enriched Active Learning (TEAL) for Summer Sessions / Marilyn J. Morrow, Illinois State University, USA; Paulette Miller, Illinois State University, USA ........................................................................ 2089

Ten Scalability Factors in Distance Education / R. Dwight Laws, Brigham Young University, USA; Scott L. Howell, Brigham Young University, USA; Nathan K. Lindsay, University of Michigan, USA ..................................................................................... 2095

Text-Only Web Techniques / Jody Condit Fagan, James Madison University, USA .......................................................................................... 2103

There are So Many More than Three Barriers / Rick Krueger, JLT Group, USA ......................................................................................... 2108

Threaded Discussion / Karen Swan, Kent State University, USA ................................................................................................................................. 2110

Total Quality Management in Higher Education / Gary A. Berg, California State University Channel Islands, USA .............................................................................................................................................................. 2119

Towards a Personalized E-Learning System / Elvis Wai Chung Leung, City University of Hong Kong, Hong Kong; Qing Li, City University of Hong Kong, Hong Kong ...................................................................... 2124

Transforming Universities in the Online World / Stewart Marshall, The University of the West Indies, Barbados; Shirley Gregor, Australian National University, Australia ........................................................................ 2135

Trends and Issues of Virtual K–12 Schools / Belinda Davis Lazarus, University of Michigan-Dearborn, USA .......................................................... 2141

Trends in Distance Education in South America / Luis Barrera, Cesar Vallejo University, Peru ........................................................................ 2146

Tropical Medicine Open Learning Environment / Geraldine Clarebout, University of Leuven, Belgium; Jan Elen, University of Leuven, Belgium; Joost Lowyck, University of Leuven, Belgium; Jef Van den Ende, Institute for Tropical Medicine, Belgium; Erwin Van den Enden, Institute for Tropical Medicine, Belgium .................................................................................. 2155

21st Century E-Student Services / Gary R. Langer, Minnesota State Colleges and Universities, USA ........................................................................ 2160

Two Most Important Competencies for Millennium Teachers, The / Thomas Lapping, JDL Technologies, USA ......................................................................................... 2168

Ubiquitous Learning and Handhelds / Howard Nicholas, La Trobe University, Australia; Wan Ng, La Trobe University, Australia .................................................................................. 2171

Understanding Different Categories of Attrition in Distance Education Programs / Seung Youn (Yonnie) Chyung, Boise State University, USA .......................................................................................... 2177

Understanding Dynamic Change and Creation of Learning Organizations / Vivian Johnson, Hamline University, USA .................................................................................. 2187

Universal Design for Learning / Frances G. Smith, Virginia Commonwealth University, USA; Pamela LeConte, George Washington University, USA ........................................................................ 2192
