Acknowledgment

It is not possible to successfully complete a project of this magnitude without the cooperation and contributions of many people. We are most grateful for all the efforts, input and support given to us by the contributors, reviewers, our advisory board and the staff at IGI Global. We would especially like to thank Mehdi Khosrow-Pour for inviting us to produce this magnum opus, Jan Travers for managing this project, and Kristin Roth for sustaining us through the process and keeping us to schedule. We also acknowledge Stuart School of Business, Illinois Institute of Technology for affording us the time to work on this project and are indebted to our colleagues and students for many stimulating discussions and assistance throughout the process. Finally, a special thanks to our families.
