Product ICT

BISER / Dimitar Christozov, American University in Bulgaria, Bulgaria ................................................................. 66

Data Caching Patterns / Tony C. Shan, IBM, USA; and Winnie W. Hua, CTS Inc., USA ................................. 139

E-Learning to T-Learning, From / Roberto Cuccu, University of Cagliari, Italy ............................................... 276

Enhancement of Recorded Respiratory Sound Using Signal Processing Techniques / Feng Jin,
Nanyang Technological University, Singapore; and Farook Sattar, Nanyang Technological University,
Singapore .......................................................................................................................................................... 291

Inference Tree Use to Design Arguments in Expository Reports / Jens Mende, University of the
Witwatersrand, South Africa .................................................................................................................................... 419

Information Communication Technology Tools for Software Review and Verification / Yuk Kuen Wong,
Griffith University, Australia .................................................................................................................................. 429

Integrating Software Engineering and Costing Aspects within Project Management Tools /
Roy Gelbard, Bar-Ilan University, Israel; Jeffrey Kantor, Bar-Ilan University, Israel &
University of Windsor, Canada; and Liran Edelist, Bar-Ilan University, Israel ..................................................... 443

Integrative Approach to User Interface Design, An / Vanja Kljajevic, NewHeights Software, Canada
& Carleton University, Canada .................................................................................................................................. 457

Intelligent Multi-Agent Systems / Uros Krcadinac, University of Belgrade, Serbia; Milan Stankovic,
University of Belgrade, Serbia; Vitomir Kovanovic, University of Belgrade, Serbia; and
Jelena Jovanovic, University of Belgrade, Serbia ................................................................................................. 464

Interactive Television Accessibility and Usability / Roberto Cuccu, University of Cagliari, Italy ......... 477

Modelling Wireless Local Area Networking in Higher Education Institutes / Ossi Väänänen,
Turku University of Applied Sciences, Finland ...................................................................................................... 563

NETRIC: A Proposed System for Synthesis of Multicast Transport Protocols / Mihály Orosz,
Budapest University of Technology and Economics, Hungary; Dávid Tegze, Budapest University of
Technology and Economics, Hungary; Gábor Hosszú, Budapest University of Technology and
Economics, Hungary; and Ferenc Kovács, Budapest University of Technology and Economics,
Hungary .................................................................................................................................................................. 584
Network Management Resource Costs / Colin Pattinson, Leeds Metropolitan University, UK .................. 592

New Algorithm for Minimizing Tree Pattern Queries, A / Yangjun Chen, University of Winnipeg, Canada .................................................................................................................................................................. 598

New Algorithm for Subset Matching Problem Based on Set-String Transformation, A / Yangjun Chen, University of Winnipeg, Canada .................................................................................................................................................................. 607

Novel Application of the P2P Technology for Intrusion Detection, A / Zoltán Czirkos, Budapest University of Technology and Economics, Hungary; and Gábor Hosszú, Budapest University of Technology and Economics, Hungary .......................................................... 616

On the Stability of Peer-to-Peer Networks in Real-World Environments / Zoltán Czirkos, Budapest University of Technology and Economics, Hungary; and Gábor Hosszú, Budapest University of Technology and Economics, Hungary .......................................................... 622

Pattern-Based Identification in P2P Systems / Gábor Richly, Budapest University of Technology and Economics, Hungary; Gábor Hosszú, Budapest University of Technology and Economics, Hungary; and Ferenc Kovács, Budapest University of Technology and Economics, Hungary .......................................................... 676

Semantic Web Adaptation / Alexander Mikroyannidis, University of Manchester, UK; and Babis Theodoulidis, University of Manchester, UK ........................................................................................................................................ 704

Transport-Level Requirements of the Internet-Based Streaming, The / Dávid Tegze, Budapest University of Technology and Economics, Hungary; and Gábor Hosszú, Budapest University of Technology and Economics, Hungary ........................................................................................................................................ 775

Understanding RFID (Radio Frequency Identification) / Susan A. Vowels, Washington College, USA ..... 782

Video Object Segmentation / Ee Ping Ong, Institute for Infocomm Research, Singapore; and Weisi Lin, Nanyang Technological University, Singapore ........................................................................................................................................ 809

Process ICT

Alternative Learning Platform to Facilitate Usability and Synchronization of Learning Resources, An / Eugenia M. W. Ng, The Hong Kong Institute of Education, Hong Kong .......................................................... 21

Blended Approach Environment Shift in Higher Education / Hanafizan Hussain, Multimedia University, Malaysia ........................................................................................................................................ 69

Collaborative Knowledge Management (CKM) and Enterprise Knowledge Management / David G. Vequist IV, University of the Incarnate Word, USA ........................................................................................................................................ 87

Computer Simulations and Scientific Knowledge Construction / Athanassios Jimoyiannis, University of Peloponnese, Greece ........................................................................................................................................ 106

Computer-Mediated Communication Learning Environments: The Social Dimension / Stefania Manca, Institute for Educational Technology, National Research Council, Italy ........................................................................................................................................ 121
Cooperative Learning Strategies for Effective Teaching and Learning Science Courses in Large Classes / I. A. Ajayi, Federal College of Education, Abeokuta, Nigeria; and O. B. Ajayi, University of Agriculture, Abeokuta, Nigeria .......................................................................................................................... 127

Data Flow Diagram Use to Plan Empirical Research Projects / Jens Mende, University of the Witwatersrand, South Africa .......................................................................................................................... 150

Dynamic Reconstruction of Concept Maps / Marco Pedroni, CARID Università degli Studi di Ferrara, Italy .......................................................................................................................... 173

Edutainment Framework Implementation Case Study, An / Zarina Che Embe, Multimedia University, Malaysia; and Hanafizan Hussain, Multimedia University, Malaysia .......................................................................................................................... 202

E-Learning Function Integration with Corona 2 / Marco Pedroni, CARID Università degli Studi di Ferrara, Italy .......................................................................................................................... 222

E-Learning Improve the Communication Among Students and Lecturers?, Does / Charilaos A. Karampotsios, Athens University of Economics and Business, Greece; Dimitris K. Kardaras, Athens University of Economics and Business, Greece; and Eleutherios A. Papathanassiou, Athens University of Economics and Business, Greece .......................................................................................................................... 226

E-Learning Project for a Basic Mathematics Course at the University, An / Anna Torriero, Catholic University of the Sacred Heart, Italy; and Immacolata Scancarello, Catholic University of the Sacred Heart, Italy .......................................................................................................................... 256

E-Learning to Games-Based E-Learning, From / Thomas M. Connolly, University of the West of Scotland, UK; and Mark Stansfield, University of the West of Scotland, UK .......................................................................................................................... 268

ERP Integration into Existing Courses: A Three-Step Approach / Jaideep Motwani, Grand Valley State University, USA; and Asli Y. Akbulut, Grand Valley State University, USA .......................................................................................................................... 301

Fostering Collaboration in CSCL / Donatella Persico, Institute for Educational Technology, National Research Council, Italy; Francesca Pozzi, Institute for Educational Technology, National Research Council, Italy; and Luigi Sarti, Institute for Educational Technology, National Research Council, Italy .......................................................................................................................... 335

ICT and the Virtual Organisation / Carmen de Pablos Heredero, Rey Juan Carlos University, Spain .......................................................................................................................... 365

ICT Processes for Virtual Academic Research Teams (VART) in Academia / Jason S. Lecoure, Saint Mary’s University, Canada; and Wendy R. Carroll, Acadia University, Canada .......................................................................................................................... 390

Impact of Technological Frames on Knowledge Management Procedures, The / Chun-Tsung Chen, Kao Yuan University, Taiwan .......................................................................................................................... 401

Implementation of Practices with ICT as a New Teaching-Learning Paradigm, The / Antonio Cartelli, University of Cassino, Italy .......................................................................................................................... 413

Information Environments of Middle Managers in Higher Education / Juha Kettunen, Turku University of Applied Sciences, Finland; Jouni Hautala, Turku University of Applied Sciences, Finland; and Mauri Kantola, Turku University of Applied Sciences, Finland .......................................................................................................................... 436
Intelligent User Preference Mining / Sheng-Uei Guan, Xian Jiatong-Liverpool University, China; and Ping Cheng Tan, National University of Singapore, Singapore ................................................................. 470

Knowledge Management with Partners in a Dynamic Information Environment / Juha Kettunen, Turku University of Applied Sciences, Finland; Mauri Kantola, Turku University of Applied Sciences, Finland; and Jouni Hautala, Turku University of Applied Sciences, Finland ................................................................. 503

Linking E-Assessment to Student’s Use of Online Learning Content / Kar-Tin Lee, Queensland University of Technology, Australia; Hitendra Pillay, Queensland University of Technology, Australia; and Vinesh Chandra, Queensland University of Technology, Australia ................................................................. 532

Management Information System in Higher Education / Juha Kettunen, Turku University of Applied Sciences, Finland .......................................................................................................................... 542

Modeling Business Actions / Peter Rittgen, University College of Borås, Sweden .............................................................................................................................. 554

Multimedia Integration in Active Online Learning Environments / Holim Song, Texas Southern University, USA; and Terry T. Kidd, University of Texas School of Public Health, USA .................................................................................. 569

Narrative Learning Environments / Giuliana Dettori, Institute for Educational Technology, National Research Council, Italy ................................................................................................................................. 576

Online Learning’s Future in the Workplace with Augmented Reality / Katherine Ira, University of Maryland, Baltimore County, USA; and Zane Berge, University of Maryland, Baltimore County, USA .................................................................................. 637

Participatory Design Project on Mobile ICT, A / Ursula Hyrkkänen, Turku University of Applied Sciences, Finland; Juha Kettunen, Turku University of Applied Sciences, Finland; and Ari Putkonen, Turku University of Applied Sciences, Finland .............................................................................................................................. 669

Quality Assurance View of a Management Information System / Juha Kettunen, Turku University of Applied Sciences, Finland; and Ismo Kantola, Turku University of Applied Sciences, Finland .............................................................................................................................. 691

Relationship Between Assessment and Evaluation in CSCL, The / Serena Alvino, Institute for Educational Technology, National Research Council, Italy; and Donatella Persico, Institute for Educational Technology, National Research Council, Italy .............................................................................................................................. 698

‘Stream of Training’ Approach in Project Management Training / David G. Vequist IV, University of the Incarnate Word, USA; and Mark S. Teachout, University of the Incarnate Word, USA .................................................................................. 721

Towards a Framework for Evaluating ICT-Based Materials / Hitendra Pillay, Queensland University of Technology, Australia; and John A. Clarke, Queensland University of Technology, Australia .................................................................................. 759

Virtual Reality and Virtual Environments in Education / Nicoletta Sala, Università della Svizzera italiana, Switzerland .............................................................................................................................. 833

Web-Based Course Management Systems (WCMS) Acceptance with College Students in Estonia / Princely Ifinedo, Cape Breton University, Canada .............................................................................................................................. 839
Context ICT

Academic Guidance Model to Orient Distance Students, An / Luca Vanin, University of Milan – Bicocca, Italy; Stefano Castelli, University of Milan – Bicocca, Italy; Alessandro Pepe, University of Milan – Bicocca, Italy; and Loredana Addimando, University of Milan – Bicocca, Italy ........................................ 1

Adaptation of Cognitive Walkthrough in Response to the Mobile Challenge / Chua Fang Fang, Multimedia University, Cyberjaya, Malaysia ........................................................................................................... 10

Adult Education and Adult Learning Processes with ICT / Y. Inoue, University of Guam, Guam ............... 14

Ambient Intelligence / Fortunato Sorrentino, Università degli Studi di Firenze, Italy ................................ 32

Applying Constructivist Self-Regulating Learning Approach for ICT Students / Yuk Kuen Wong, Griffith University, Australia; and Don Kerr, University of the Sunshine Coast, Australia ......................... 40

Children and Computers / Paolo Ferri, University of Milan – Bicocca, Italy .......................................... 75

Classics Teaching Through ICT Experience to ICT Manual for Classics Teachers / Annarella Perra, CIRD – SSIS Cagliari, Italy ........................................................................................................ 84

Comparison of Technologies and Methodologies in the E-Learning EXPO Experience / Giorgio Poletti, CARID, University of Ferrara, Italy ........................................................................................................ 95

Computer Communication and ICT Attitude and Anxiety Among Higher Education Students / Nwachukwu Prince Ololube, NOVENA University Ogume, Nigeria .................................................................................. 100

Cyberspace’s Ethical and Social Challenges in Knowledge Society / Maria Ranieri, University of Florence, Italy .............................................................................................................................. 132

Distance Education to E-Learning as Integrated Training, From / Emilio Lastrucci, University of Basilicata, Italy; Debora Infante, University of Basilicata, Italy; and Angela Pascale, University of Basilicata, Italy .................................................................................................................. 160

Distance Learning Techniques in University Courses / Paolo Frignani, University of Ferrara, Italy ....... 166

E-Commerce Recommendation Systems / Konstantinos Markellos, University of Patras, Greece; Penelope Markellou, University of Patras, Greece; Aristotelis Mertis, University of Patras, Greece; and Angeliki Panayiotaki, University of Patras, Greece & Hellenic Ministry of Economy & Finance, Greece ........................................................................................................ 180
Education and E-Learning Evaluation and Assessment / Emilio Lastrucci, University of Basilicata, Italy; Debora Infante, University of Basilicata, Italy; and Angela Pascale, University of Basilicata, Italy ........... 189

EduOntoWiki Project for Supporting Social, Educational, and Knowledge Construction Processes with Semantic Web Paradigm, The / Corrado Petrucco, University of Padua, Italy ................................................................. 195

E-Government Growth Barriers in Sub-Saharan Africa / Princely Ifinedo, Cape Breton University, Canada .................................................................................................................. 209

E-Knowledge / Fortunato Sorrentino, Università degli Studi di Firenze, Italy ................................................................. 215

E-Learning is What Kind of Learning? / Flavia Santoianni, University of Naples Federico II, Italy ........ 243

E-Learning Methodological Models and Typologies / Maria Ranieri, University of Florence, Italy ........ 249

Electronic Knowledge a Plural Thought?, Is / Franco Frabboni, University of Bologna, Italy .............. 284

Electronic Loyalty Programs Comparative Survey / Yasin Ozcelik, Fairfield University, USA ........ 286

Evaluating Usability to Improve Efficiency in E-Learning Programs / Emilio Lastrucci, University of E-Tutor / Maria Ranieri, University of Florence, Italy ................................................................. 308

Basilicata, Italy; Debora Infante, University of Basilicata, Italy; and Angela Pascale, University of Basilicata, Italy .................................................................................................................. 315

Factors Determining Teachers’ Beliefs and Perceptions of ICT in Education / Athanassios Jimoyiannis, University of Peloponnese, Greece .................................................................................................................. 321

GIS Use in Landscape Archaeology / Cristina Corsi, Università di Cassino, Italy .................................................. 341

Higher Education’s New Frontier for the E-University and Virtual Campus / Antonio Cartelli, University of Cassino, Italy .................................................................................................................. 350

ICT and Interculture Opportunities Offered by the Web / Laura Corazza, Università di Bologna, Italy ...... 357

ICT Investment Evaluation Practices in Large Organizations / Chad Lin, Curtin University of Technology, Australia; and Yu-An Huang, National Chi Nan University, Taiwan; and ................................................................................................. 371

ICT Literacy in the Information Age / Ritchie Macefield, Staffordshire University & MEFU Ltd., UK ...... 378

ICT Policies in Africa / Esharenana E. Adomi, Delta State University, Nigeria; and Stella E. Igun, Delta State University Library, Nigeria .................................................................................................................. 384

ICTs and Distance Education in Nigeria / Nwachukwu Prince Ololube, NOVENA University Ogume, Nigeria; and Andrew Egba Ubogu, Ahmadu Bello University Zaria, Nigeria .................................................................................................................. 396

Introduction to Computer Forensics in the Age of Information Warfare / Terry T. Kidd, University of Texas School of Public Health, USA .................................................................................................................. 490
IT-Enabled Reengineering: Productivity Impacts / Yasin Ozcelik, Fairfield University, USA ................................. 498

Knowledge to Personal Knowledge Management, From / Fortunato Sorrentino, Università degli Studi di Firenze, Italy .......................................................................................................................... 510

Learning Processes and ITC / Manuela Gallerani, University of Bologna, Italy .......................................................... 518

Leveraging Supply Chain Management in the Digital Economy / Mahesh S. Raisinghani, TWU School of Management, USA .......................................................................................................................... 526

Mobile Learning and an Experience with Blended Mobile Learning / Michelle Pieri, University of Milano – Bicocca, Italy; and Davide Diamantini, University of Milano – Bicocca, Italy ........................................................................... 548

Online Catalogue of Manuscripts Conserved in Libraries in the Veneto Region / Barbara Vanin, Biblioteca del Museo Correr, Italy ................................................................................................................ 631

Online Trust in Mobile Commerce / Yuk Kuen Wong, Griffith University, Australia; and C. J. Hsu, Griffith University, Australia ............................................................................................................. 647

Open Catalogue of Manuscripts in the Malatestiana Library, The / Antonio Cartelli, University of Cassino, Italy; A. Daltri, Biblioteca Malatestiana, Italy; P. Errani, Biblioteca Malatestiana, Italy; M. Palma, University of Cassino, Italy; and P. Zanfini, Biblioteca Malatestiana, Italy ........................................................................................................................................ 656

Overview of Online Trust Derivatives for E-Commerce Adoption, An / Omer Mahmood, University of Sydney, Australia .......................................................................................................................... 662

Product Evaluation Services for E-Commerce / Sheng-Uei Guan, Xian Jiatong-Liverpool University, China ....................................................................................................................................................... 683

Social Networking and Personal Learning Environment / Antonio Fini, University of Florence, Italy .............. 713

Strengthening the Knowledge-Base of Cities Through ICT Strategies / Tan Yigitcanlar, Queensland University of Technology, Australia; and Koray Velibeyoglu, Izmir Institute of Technology, Turkey .......... 728

Supporting Self-Regulated Learning with ICT / Giuliana Dettori, Institute for Educational Technology, National Research Council, Italy; and Donatella Persico, Institute for Educational Technology, National Research Council, Italy ...................................................................................................................... 735

Technology Enhanced Learning in Continuing Medical Education / Guglielmo Trentin, Institute for Educational Technology, Italian National Research Council, Italy ........................................................................ 742

Theories and Principles for E-Learning Practices with Instructional Design / Maria Ranieri, University of Florence, Italy ................................................................................................................................... 750

Towards a New Model for Knowledge Construction and Evolution / Antonio Cartelli, University of Cassino, Italy .............................................................................................................................................. 767

University Training on Communities of Practice / Giuditta Alessandrini, University of Roma, Italy; and Giovanni Rosso, University of Roma, Italy ........................................................................................... 791
Using Dynamic Visualizations to Enhance Learning in Physical Geography / Joan Bellou, The University of Ioannina, Greece .................................................................................................................. 795

Virtual Communities and Collaborative Learning in a Post-Graduate Course / Maria Ranieri, University of Florence, Italy ........................................................................................................................................ 817

Virtual Identity, Digital Identity, and Virtual Residence of the Digital Citizen, The / Fortunato Sorrentino, Università degli Studi di Firenze, Italy ........................................................................................................ 825
