Table of Contents

Preface ................................................................................................................................................xiii

Acknowledgment ............................................................................................................................... xvi

Section 1
Foundations of Distance Learning Technology

Chapter 1
Innovative Curriculum in Distance Learning: An Ohio Case Study....................................................... 1
   Gail S. Peters, Ohio Learning Network, USA
   Kate M. Carey, Ohio Board of Regents, USA; Ohio Learning Network, USA

Chapter 2
From Traditional Teaching to Online Learning: Revolution or Evolution ........................................... 17
   José Magano, Instituto Superior de Ciências Empresariais e do Turismo, Portugal
   Carlos V. Carvalho, GILT / Instituto Superior de Engenharia do Porto, Portugal

Chapter 3
Technology in Education: Integrating Contemporary Technology into Classroom Pedagogy
as Foundation to a Practical Distance Learning.................................................................................... 27
   Hyacinth Eze Anomneze, Texas Southern University, USA

Chapter 4
When Twentieth Century Minds Design for Twenty-First Century Distance Learning ....................... 48
   Robert D. Wright, University of North Texas, USA

Chapter 5
Online Social Constructivism: Theory Versus Practice ........................................................................ 67
   Jennifer Ehrhardt, netuniversity.se, Sweden; University of West Florida, USA

Chapter 6
Employing Technology to Create Authentic Learning Environments.................................................. 83
   Drew Polly, University of North Carolina at Charlotte, USA
Section 2
Applications and Practices of Distance Learning Technology

Chapter 7
Making a Difference with Mobile Learning in the Classroom ................................................................. 96
   Anjum Najmi, University of North Texas, USA
   Jennifer Lee, University of North Texas, USA

Chapter 8
Lecture Capture: Technologies and Practices .......................................................................................... 113
   S. Alan McCord, Lawrence Technological University, USA
   William H. Drummond, Lawrence Technological University, USA

Chapter 9
Yesterday, Today and Tomorrow’s Recognition of Industry Applications within Virtual Worlds:
A Meta-Analysis of Distance Learning Instructional Achievements within Virtual World
Architectural Environments, and Potential Implications for Higher Education ........................................ 132
   Caroline M. Crawford, University of Houston – Clear Lake, USA
   Marion S. Smith, Texas Southern University, USA
   Virginia Dickenson, eLumenata, USA

Chapter 10
Blending Synchronous and Asynchronous Interactivity in Online Education .......................................... 162
   Kamna Malik, U21Global, India

Chapter 11
Screencasts: Your Technology Professor 24/7 ...................................................................................... 185
   Matthew E. Mooney, Indiana University South Bend, USA
   Bruce Alan Spitzer, Indiana University South Bend, USA

Chapter 12
Identifying Student Usability Needs for Collaborative Learning Environment Design ....................... 196
   Danuta Zakrzewska, Technical University of Lodz, Poland
   Joanna Ochelska-Mierzejewska, Technical University of Lodz, Poland

Chapter 13
Instructional Strategy Approaches with Technology .............................................................................. 216
   Pamela Lowry, Lawrence Technological University, USA

Chapter 14
Essential Design Features of Online Collaborative Learning ............................................................... 230
   Hyo-Jeong So, Nanyang Technological University, Singapore
   Wei-Ying Lim, Nanyang Technological University, Singapore
   Jennifer Yeo, Nanyang Technological University, Singapore
Chapter 15
Alternative Realities: Immersive Learning for and with Students................................. 245
  Sue Gregory, University of New England, Australia
  Torsten Reiners, University of Hamburg, Germany
  Belinda Tynan, University of New England, Australia

Section 3
Learning Strategy and Challenges for Distance Learning

Chapter 16
Instructional Challenges in Higher Education Online Courses Delivered through a Learning
Management System by Subject Matter Experts................................................................. 273
  George L. Joeckel III, Utah State University, USA
  Tae Jeon, Utah State University, USA
  Joel Gardner, Utah State University, USA

Chapter 17
Societal Issues, Legal Standards, & International Realities Universities Face in the
Distance-Learning Market .................................................................................................. 284
  Robert Hogan, University of the South Pacific, Fiji

Chapter 18
Positioning the Learning Organization for a Successful Distance Education Strategy .......... 302
  Monique Fuchs, Wentworth Institute of Technology, USA
  Stephanie Cheney, Wentworth Institute of Technology, USA

Chapter 19
Structure and Change in E-learning: An Ecological Perspective.................................... 317
  Julia Penn Shaw, SUNY-Empire State College, USA
  Fabio Chacon, Bowie State University, USA

Compilation of References ................................................................................................. 339

About the Contributors ....................................................................................................... 375

Index .................................................................................................................................... 383
