Table of Contents

Foreword ............................................................................................................................................. xvi

Preface ............................................................................................................................................... xviii

Section 1
Background

Chapter 1
From e-Learning to e-Education: Goals, Strategic Assessment and Implications................................. 1
   Zohar Ben-Asher, European Centre for Research & Financing, Israel & ABC Consultants, UK

Section 2
Social Interaction and Collaborative Learning

Chapter 2
Web Advances in Education: Interactive, Collaborative Learning via Web 2.0 ..................................... 32
   Eleni Kaldoudi, Democritus University of Thrace, Greece
   Stathis Konstantinidis, Aristotle University of Thessaloniki, Greece
   Panagiotis Bamidis, Aristotle University of Thessaloniki, Greece

Chapter 3
Individual and Collaborative Approaches in E-Learning Design...................................................... 51
   Abel Usoro, University of the West of Scotland, UK
   Grzegorz Majewski, University of the West of Scotland, UK
   Len Bloom, University of Botswana, Botswana

Chapter 4
Interface Design for Social Interaction in E-Learning Environments .............................................. 72
   Luciane Maria Fadel, UNOESC Videira, Brazil
   Mary C. Dyson, The University of Reading, UK
Section 3
Technology-Enhanced Learning Design

Chapter 5
E-Learning Design from a “Quality of Experience” Perspective: Heuristics and Case-Studies .......... 94
Franca Garzotto, Politecnico di Milano, Italy

Chapter 6
A Pedagogics Pattern Model of Blended E-Learning: A Step Towards Designing Sustainable Simulation-Based Learning ................................................................. 114
Michel Labour, Univ Lille Nord de France, France & UVHC, LSC, France
Christophe Kolski, Univ Lille Nord de France, France & UVHC, LAMIH-UMR CNRS, France

Chapter 7
Designing E-Learning Applications with Students: The Case of the We!Design Methodology ........ 138
George N. Triantafyllakos, Aristotle University of Thessaloniki, Greece
George E. Palaigeorgiou, University of Thessaly, Greece
Ioannis A. Tsoukalas, Aristotle University of Thessaloniki, Greece

Chapter 8
Orchestrating Ontologies for Courseware Design ........................................................................ 155
Tatiana Gavrilova, Saint-Petersburg State University, Russia

Chapter 9
PAUL: An Adaptive Electronic Learning Environment to Develop Teacher Expertise and ICT-Related Technological Pedagogical Content Knowledge (ICT-TPCK) .................. 173
Angeli Charoula, University of Cyprus, Cyprus
Veletsianos George, University of Manchester, UK

Chapter 10
Using E-Learning to Achieve Fluency in Foreign Languages ..................................................... 187
Michael Zock, LIF, CNRS, France
Stergos Afantenos, LINA, Université de Nantes, France

Section 4
Multimedia and Virtual Reality in E-Learning

Chapter 11
Key Factors and New Directions of Multimedia Learning Design ............................................. 207
Haïdo Samaras, University of Macedonia, Greece
Thanasis Giouvanakis, University of Macedonia, Greece
Despina Bougiou, University of Macedonia, Greece
Konstantinos Tarabanis, University of Macedonia, Greece
Chapter 12
Virtual Reality in Education .................................................................................................................. 228

Chris Christou, University of Nicosia, Cyprus

Chapter 13
From Usability to User Experience: Evaluating the Educational and Motivational Value of an Augmented Reality Learning Scenario .......................................................................................... 244

Costin Pribeanu, National Institute for Research and Development in Informatics, Romania
Dragoș Daniel Iordache, National Institute for Research and Development in Informatics, Romania

Section 5
Affective Computing in E-Learning Environments

Chapter 14
The Potential of Affective Computing in E-Learning: The Journey from Theory to Practice in the “Myself” Project .................................................................................................................. 260

Fabrizia Mantovani, University of Milan-Bicocca, Italy
Linda Confalonieri, University of Milan-Bicocca, Italy
Marcello Mortillaro, Swiss Center for Affective Sciences, Switzerland
Olivia Realdon, University of Milan-Bicocca, Italy
Valentino Zurloni, University of Milan-Bicocca, Italy
Luigi Anolli, University of Milan-Bicocca, Italy

Chapter 15
Affective E-Learning System: Analysis of Learners’ State ........................................................................ 275

G. Caridakis, Image, Video and Multimedia Systems Laboratory, Greece
P. Tzouveli, Image, Video and Multimedia Systems Laboratory, Greece
L. Malatesta, Image, Video and Multimedia Systems Laboratory, Greece
A. Raouzaïou, Image, Video and Multimedia Systems Laboratory, Greece
K. Karpouzis, Image, Video and Multimedia Systems Laboratory, Greece
S. Kollias, Image, Video and Multimedia Systems Laboratory, Greece

Compilation of References ......................................................................................................................... 295

About the Contributors ............................................................................................................................... 335
