Table of Contents

Foreword ................................................................................................................................................. xvi

Preface .................................................................................................................................................... xviii

Acknowledgment .................................................................................................................................... xxv

Section 1
Security Enhanced Trust Management Solutions

Chapter 1
Remote Platform Attestation: The Testimony for Trust Management....................................................... 1
  Xuhua Ding, Singapore Management University, Singapore
  Liang Gu, Peking University, China
  Robert H. Deng, Singapore Management University, Singapore
  Bing Xie, Peking University, China
  Hong Mei, Peking University, China

Chapter 2
Scaling Concepts between Trust and Enforcement.................................................................................... 20
  Andreas U. Schmidt, CREATE-NET Research Centre, Italy
  Andreas Leicher, Johann Wolfgang Goethe-Universität, Germany
  Inhyok Cha, InterDigital Communications, USA

Chapter 3
Mobile Trusted Computing Based on MTM............................................................................................ 58
  Jan-Erik Ekberg, Nokia Research Center, Finland
Chapter 4
Establishing Software Integrity Trust: A Survey and Lightweight Authentication System for Windows
Yongzheng Wu, National University of Singapore, Singapore
Sufatrio, National University of Singapore, Singapore
Roland H.C. Yap, National University of Singapore, Singapore
Rajiv Ramnath, National University of Singapore, Singapore
Felix Halim, National University of Singapore, Singapore

Chapter 5
Trust Issues and Solutions in Multimedia Content Distribution
Shiguo Lian, France Telecom R&D (Orange Labs) Beijing, China

Chapter 6
Certificate-Based Trust Establishment in eEnabled Airplane Applications: Challenges and Approaches
Mingyan Li, Boeing Research & Technology, USA
Krishna Sampigethaya, Boeing Research & Technology, USA
Radha Poovendran, University of Washington, USA

Section 2
Evaluation Based Trust Management Solutions

Chapter 7
Trust Management for Grid Systems
Benjamin Aziz, STFC Rutherford Appleton Laboratory, UK
Alvaro Arenas, STFC Rutherford Appleton Laboratory, UK
Fabio Martinelli, Istituto di Informatica e Telematica (IIT), CNR, Italy
Paolo Mori, Istituto di Informatica e Telematica (IIT), CNR, Italy
Marinella Petrocchi, Istituto di Informatica e Telematica (IIT), CNR, Italy
Michael Wilson, STFC Rutherford Appleton Laboratory, UK

Chapter 8
Formalizing and Managing Activity-Aware Trust in Collaborative Environments
Ioanna Dionysiou, University of Nicosia, Cyprus
David E. Bakken, Washington State University, USA

Chapter 9
Trust Development in Peer-to-Peer Environments
Yan Wang, Macquarie University, Australia
Chapter 10
Trust Management in Ad Hoc Networks ................................................................. 224
Rafael Timóteo de Sousa Júnior, University of Brasília, Brazil
Ricardo Staciarini Puttini, University of Brasília, Brazil

Chapter 11
A Context-Aware Model of Trust for Facilitating Secure Ad Hoc Collaborations .................. 250
Indrajit Ray, Colorado State University, USA
Indrakshi Ray, Colorado State University, USA
Sudip Chakraborty, Valdosta State University, USA

Chapter 12
An Evaluation Framework for Reputation Management Systems ........................................ 282
Andrew G. West, University of Pennsylvania, USA
Sampath Kannan, University of Pennsylvania, USA
Insup Lee, University of Pennsylvania, USA
Oleg Sokolsky, University of Pennsylvania, USA

Chapter 13
Observation-Based Trust Management for Services in Mobile Networks ................................. 309
André Paul, Fraunhofer Institute for Open Communication Systems (FOKUS), Germany
Carsten Jacob, Fraunhofer Institute for Open Communication Systems (FOKUS), Germany
Heiko Pfeffer, Technische Universität Berlin, Germany
Stephan Steglich, Technische Universität Berlin, Germany

Chapter 14
Risk-Based Trust Management for E-Commerce ............................................................ 332
Soon-Keow Chong, Deakin University, Australia
Jemal H. Abawajy, Deakin University, Australia

Chapter 15
Privacy and Trust Issues in Context-Aware Pervasive Computing: State-of-the-Art and Future Directions .................................................................................................................. 352
Pierre E. Abi-Char, Institut Telecom SudParis, France
Abdallah M’hamed, Institut Telecom SudParis, France
Bachar El-Hassan, Lebanese University, Lebanon
Mounir Mokhtari, Institut Telecom SudParis, France

Chapter 16
Trust and Stability in Heterogeneous Multimedia Networks .................................................. 378
Dimitrios Koukopoulos, University of Ioannina, Greece
Section 3
Trust Modeling and Management Driven by Social Study

Chapter 17
The Role of Trust in Social Life ................................................................. 421
Yan Dong, Renmin University of China, China

Chapter 18
Issues on Anshin and its Factors ............................................................ 441
Yuko Murayama, Iwate Prefectural University, Japan
Yasuhiro Fujihara, Iwate Prefectural University, Japan

Chapter 19
Trust in Identification Systems: From Empirical Observations to Design Guidelines ......................................... 453
Piotr Cofta, BT Innovate, UK
Hazel Lacohée, BT Innovate, UK

Chapter 20
Human-Machine Trust Interaction: A Technical Overview .................................................. 471
Conghui Liu, Renmin University of China, China

Chapter 21
Rethinking Realistic Wireless Network Mobility: Model and Trust ........................................ 487
Lu Yan, University of Hertfordshire, UK

Compilation of References ........................................................................... 498

About the Contributors ................................................................................ 551
