Acknowledgment

The editors of this book would like to thank the technical and professional individuals who helped us in the organization, review, and editing of this book.

First of all we would like to thank the following reviewers: Abdel Karim Al-Tamimi (Washington University in St. Louis), Cagatay Buyukkoc (AT&T Labs), Mustafa Ergen (WiChorus), Nada Golmie (National Institute of Standards and Technology), Ehsan Haghani (New Jersey Institute of Technology), Libin Jiang (University of California, Berkeley), Jiwoong Lee (University of California, Berkeley), Jeonghoon Mo (Yonsei University), Subhas Chandra Mondal (Wipro Technologies), Nikhil Shetty (University of California, Berkeley), Biplab Sikdar (Rensselaer Polytechnic Institute) and Chakchai So-In (Washington University in St. Louis). We appreciate their help and support very much.

We are also very thankful to the following IGI Global staff: Christine Bufton, Erika Carter, David DeRicco, Jan Travers, Jennifer Weston and Neely Zanussi. Their positive attitude and patience are greatly appreciated.

We would like to sincerely thank our respective management at Research In Motion, Washington University in St. Louis, Alcatel-Lucent and AT&T Labs for their encouragement and support.

Lastly, and most importantly, we are indebted to our families. Their invaluable and relentless support, encouragement, and love are without doubt the most important reasons behind all our achievements.

Sasan Adibi, Research In Motion
Raj Jain, Washington University in St. Louis
Shyam Parekh, Bell Labs, Alcatel-Lucent
Mostafa Tofighbakhsh, AT&T Labs
