Preface .................................................................................................................................................... xv

Acknowledgment........................................................................................................................................... xvii

## Section 1
Emerging Issues and Debate

### Chapter 1
Achieving World Peace through International Trade: Can E-Collaboration Technologies Help Make this Happen? ................................................................................................... 1

*Ned Kock, Texas A&M International University, USA*

### Chapter 2
Supporting Synchronous Collaboration with Heterogeneous Devices ................................................... 12

*Axel Guicking, Fraunhofer Integrated Publication and Information Systems Institute (IPSI), Germany*

*Peter Tandler, Fraunhofer Institute for Computer Graphics (IGD), Germany*

*Thomas Grasse, Jeppesen GmbH, Germany*

### Chapter 3
Interpretation of Computer Based Interaction Analysis Indicators: A Significant Issue for Enhancing Collaboration in Technology Based Learning ................................................................. 31

*Tharrenos Bratitsis, University of Western Macedonia, Greece*

*Angelique Dimitracopoulou, University of the Aegean, Greece*

### Chapter 4
The Vineyard Approach: A Computational Model for Determination of Awareness Foci in E-Mail-Based Collaboration .............................................................................................................. 60

*Adriana S. Vivacqua, Federal University of Rio de Janeiro, Brazil*

*Jano Moreira de Souza, Federal University of Rio de Janeiro, Brazil*
Chapter 5
mobileSJ: Managing Multiple Activities in Mobile Collaborative Working Environments............. 80
Jesus Camacho, CICESE, Mexico
Leonardo Galicia, CICESE, Mexico
Victor M. Gonzalez, University of Manchester, UK
Jesus Favela, CICESE, Mexico

Section 2
Adaptation and Creativity in E-Collaboration

Chapter 6
Capturing the Appropriation Dynamics of Web-Based Collaboration Support in Project Team’s
Work Context ........................................................................................................................................ 95
Athanasios Nikas, Athens University of Economics and Business, Greece
Angeliki Poulymenakou, Athens University of Economics and Business, Greece

Chapter 7
Creativity Support via Terms in Thematic Relations................................................................. 117
Eiko Yamamoto, National Institute of Information and Communications Technology, Japan
Hitoshi Isahara, National Institute of Information and Communications Technology, Japan

Chapter 8
E-Collaboration Tools and Technologies for Creativity and Innovation Enhancement ............ 130
Jane Fedorowicz, Bentley University, USA
Isidro Laso-Ballesteros, European Commission, Belgium
Antonio Padilla-Meléndez, University of Málaga, Spain

Chapter 9
Designing for Creativity in Computer-Supported Cooperative Work ........................................ 142
Umer Farooq, Pennsylvania State University, USA
John M. Carroll, Pennsylvania State University, USA
Craig H. Ganoe, Pennsylvania State University, USA

Chapter 10
Determinants of Manufacturing Firms’ Use of Web-Based IOISs to Share Inventory Information
with Key Partners: Comparing the Supplier and Customer Perspectives........................................ 162
Pierre Hadaya, Université du Québec à Montréal, Canada
Robert Pellerin, École Polytechnique de Montréal, Canada

Chapter 11
The Influence of Supply Chain Collaboration on Process, Relational and Product Innovations ...... 186
Luc Cassivi, Université du Québec à Montréal, Canada
Pierre Hadaya, Université du Québec à Montréal, Canada
Elisabeth Lefebvre, École Polytechnique de Montréal, Canada
Louis A. Lefebvre, École Polytechnique de Montréal, Canada
Chapter 12
Collaborative Technologies and Innovation in SMEs: An Empirical Study................................. 204
Angel L. Meroño-Cerdan, University of Murcia, Spain
Pedro Soto-Acosta, University of Murcia, Spain
Carolina Lopez-Nicolas, University of Murcia, Spain

Chapter 13
The Launch of Web-Based Collaborative Decision Support at NASA........................................... 218
Irma Becerra-Fernandez, Florida International University, USA
Matha Del Alto, NASA Ames Research Center, USA
Helen Stewart, NASA Ames Research Center, USA

Chapter 14
Information Technology Adoption by Groups Across Time.............................................................. 231
Vicki L. Sauter, University of Missouri - St. Louis, USA

Chapter 15
A Comparison of Audio-Conferencing and Computer Conferencing in a Dispersed Negotiation
Setting: Efficiency Matters! ................................................................................................................ 254
Abbas Foroughi, University of Southern Indiana, USA
William C. Perkins, Indiana University, USA
Leonard M. Jessup, Washington State University, USA

Chapter 16
The Role of Culture in Knowledge Management: A Case Study of Two Global Firms................. 278
Dorothy Leidner, Baylor University, USA
Maryam Alavi, Emory University, USA
Timothy Kayworth, Baylor University, USA

Section 3
Advanced Conceptual and Theoretical Issues

Chapter 17
Can Virtual Worlds Support E-Collaboration and E-Commerce? A Look at Second Life and
World of Warcraft .......................................................................................................................... 300
Ned Kock, Texas A&M International University, USA

Chapter 18
Electronic Deception: How Proximity, Computer-Mediation, and the Truth Bias May Influence
Deceptive Messages.......................................................................................................................... 312
Randall J. Boyle, University of Utah, USA
Charles J. Kacmar, The University of Alabama, USA
Joey F. George, Florida State University, USA
Chapter 19
Advertised Waist-to-Hip Ratios of Online Female Escorts: An Evolutionary Perspective ............... 338
Gad Saad, Concordia University, Canada

Chapter 20
When Technology Does Not Support Learning: Conflicts Between Epistemological Beliefs
and Technology Support in Virtual Learning Environments .............................................................. 348
Steven Hornik, University of Central Florida, USA
Richard D. Johnson, University of South Florida, USA
Yu Wu, University of Central Florida, USA

Chapter 21
Interdepartmental Knowledge Transfer Success During Information Technology Projects.............. 366
Kevin Laframboise, Concordia University, Canada
Anne-Marie Croteau, Concordia University, Canada
Anne Beaudry, Concordia University, Canada
Mantas Manovas, Concordia University, Canada
