Preface .................................................................................................................................................. xix

Acknowledgment .................................................................................................................................. xxi

Section 1
Introduction and General Issues

Chapter 1
Introduction and Overview of Wireless Sensor Networks ................................................................. 1
  Wenbin Jiang, Huazhong University of Science and Technology, China
  Hai Jin, Huazhong University of Science and Technology, China
  Chen Yu, Huazhong University of Science and Technology, China
  Chao Liu, Huazhong University of Science and Technology, China

Chapter 2
Deployment Strategies for Wireless Sensor Networks .......................................................................... 20
  Ruay-Shiung Chang, National Dong Hwa University, Taiwan
  Shuo-Hung Wang, National Dong Hwa University, Taiwan

Chapter 3
Collaborative Sensor Networks: Taxonomy and Design Space .......................................................... 38
  Yuan He, Hong Kong University of Science and Technology, China
  Yunhao Liu, Hong Kong University of Science and Technology, China

Chapter 4
QoS: Requirements, Design Features, and Challenges on Wireless Sensor Networks ...................... 56
  Ricardo H. González G., Simon Bolívar University, Venezuela
  Antonio A.F. Loureiro, Federal University of Minas Gerais, Brazil
  Raquel A.F. Mini, Pontifical Catholic University of Minas Gerais, Brazil
Chapter 5
Infrastructure for Testing Nodes of a Wireless Sensor Network ............................................. 79
Bojan Mihajlović, McGill University, Canada
Željko Žilić, McGill University, Canada
Katarzyna Radecka, McGill University, Canada

Chapter 6
Power Conservation Techniques in Wireless Sensor Networks............................................... 108
Baha' Alsaify, University of Arkansas, USA
Haiying Shen, University of Arkansas, USA

Section 2
Protocols and Middlewares

Chapter 7
Practical Experiences and Design Considerations on Medium Access Control Protocols
for Wireless Sensor Networks................................................................................................. 128
Junaid Ansari, RWTH Aachen University, Germany
Xi Zhang, RWTH Aachen University, Germany
Petri Mähönen, RWTH Aachen University, Germany

Chapter 8
Transmission Control Protocols for Wireless Sensor Networks............................................. 159
Yunlu Liu, Beihang University, China
Weiwei Fang, Beihang University, China
Zhang Xiong, Beihang University, China

Chapter 9
Joint Link Scheduling and Topology Control for Wireless Sensor Networks
with SINR Constraints ........................................................................................................... 184
Qiang-Sheng Hua, The University of Hong Kong, China
Francis C.M. Lau, The University of Hong Kong, China

Chapter 10
Connected k-Coverage Protocols for Densely Deployed Wireless Sensor Networks............... 209
Habib M. Ammari, Hofstra University, USA

Chapter 11
Middleware Support for Wireless Sensor Networks: A Survey ............................................. 235
Tales Heimfarth, Federal University of Rio Grande do Sul, Brazil
Edison Pignaton de Fretas, Federal University of Rio Grande do Sul, Brazil
Flávio Rech Wagner, Federal University of Rio Grande do Sul, Brazil
Tony Larsson, Halmstad University, Sweden
Section 3
Security and Privacy

Chapter 12
A Survey on Applied Cryptography in Secure Mobile Ad Hoc Networks and Wireless Sensor Networks
Jianmin Chen, Florida Atlantic University, USA
Jie Wu, Florida Atlantic University, USA

Chapter 13
Privacy and Trust Management Schemes of Wireless Sensor Networks: A Survey
Riaz Ahmed Shaikh, Kyung Hee University, Korea
Brian J. d’Auriol, Kyung Hee University, Korea
Heejo Lee, Korea University, Korea
Sungyoung Lee, Kyung Hee University, Korea

Chapter 14
Distributed Group Security for Wireless Sensor Networks
Juan Hernández-Serrano, Universitat Politècnica de Catalunya, Spain
Juan Vera-del-Campo, Universitat Politècnica de Catalunya, Spain
Josep Pegueroles, Universitat Politècnica de Catalunya, Spain
Miguel Soriano, Universitat Politècnica de Catalunya, Spain

Chapter 15
Jamming Attacks and Countermeasures in Wireless Sensor Networks
Yan-qiang Sun, National University of Defense Technology, China
Xiao-dong Wang, National University of Defense Technology, China

Section 4
Practices and Applications

Chapter 16
Visualizations of Wireless Sensor Network Data
Brian J. d’Auriol, Kyung Hee University, Korea
Sungyoung Lee, Kyung Hee University, Korea
Young-Koo Lee, Kyung Hee University, Korea

Chapter 17
Sink Mobility in Wireless Sensor Networks: From Theory to Practice
Natalija Vlajic, York University, Canada
Dusan Stevanovic, York University, Canada
George Spanogiannopoulos, York University, Canada
Chapter 18
Network-Wide Broadcast Service in Wireless Sensor Networks ........................................... 404
  Feng Wang, Simon Fraser University, Canada
  Jiangchuan Liu, Simon Fraser University, Canada

Chapter 19
Description and Analysis of an Indoor Positioning System that Uses Wireless ZigBee Technology ........................................................................................................ 422
  Roberto Vazquez, University of Valladolid, Spain
  Javier Herrero, HC Technologies, Pza Santa María, Spain
  Daniel Herrero, HC Technologies, Pza Santa María, Spain
  Jaime Gómez, University of Valladolid, Spain

Chapter 20
Sensor Web: Integration of Sensor Networks with Web and Cyber Infrastructure .................. 447
  Tomasz Kobialka, University of Melbourne, Australia
  Rajkumar Buyya, University of Melbourne, Australia
  Peng Deng, University of Melbourne, Australia
  Lars Kulik, University of Melbourne, Australia
  Marimuthu Palaniswami, University of Melbourne, Australia

Compilation of References ........................................................................................................ 474

About the Contributors ............................................................................................................. 516

Index......................................................................................................................................... 528
