Table of Contents

Preface ...................................................................................................................................................... xiv

Acknowledgment .......................................................................................................................................... xvi

Section 1
Technologies and Applications

Chapter 1
Pervasive Networks and Ubiquitous Monitoring for Wellness Monitoring in Residential Aged Care ................................................................................................................................. 1
   Leroy Lai Yu Chan, The University of New South Wales, Australia
   Branko George Celler, The University of New South Wales, Australia
   James Zhaonan Zhang, The University of New South Wales, Australia
   Nigel Hamilton Lovell, The University of New South Wales, Australia

Chapter 2
Smart Homes to Support Elderly People: Innovative Technologies and Social Impacts .................... 25
   Arianna D’Ulizia, CNR - Istituto di Ricerche sulla Popolazione e le Politiche Sociali, Italy
   Fernando Ferri, CNR - Istituto di Ricerche sulla Popolazione e le Politiche Sociali, Italy
   Patrizia Grifoni, CNR - Istituto di Ricerche sulla Popolazione e le Politiche Sociali, Italy
   Tiziana Guzzo, CNR - Istituto di Ricerche sulla Popolazione e le Politiche Sociali, Italy

Chapter 3
Nursing Home .......................................................................................................................................... 39
   Shuyan Xie, The University of Alabama, USA
   Yang Xiao, The University of Alabama, USA
   Hsiao-Hwa Chen, National Cheng Kung University, Taiwan

Chapter 4
Localization and Monitoring of People with a Near-Field Imaging System: Boosting the Elderly Care ................................................................................................................................. 78
   Matti Linnavuo, Aalto University, Finland
   Henry Rimminen, Aalto University, Finland
Chapter 5
SMART: Mobile Patient Monitoring in an Emergency Department ................................................. 97
Esteban Pino, Universidad de Concepción, Concepción, Chile
Dorothy Curtis, Massachusetts Institute of Technology, USA
Thomas Stair, Harvard Medical School, USA
Lucila Ohno-Machado, University of California San Diego, USA

Chapter 6
An Investigation into the Use of Pervasive Wireless Technologies
to Support Diabetes Self-Care ........................................................................................................ 114
Nilmini Wickramasinghe, RMIT University, Australia
Indrit Troshani, University of Adelaide Business School, Australia
Steve Goldberg, INET International Inc., Canada

Chapter 7
Pervasive Process-Based Healthcare Systems on a Grid Environment ........................................ 130
Vassiliki Koufi, University of Piraeus, Greece
Flora Malamateniou, University of Piraeus, Greece
George Vassilacopoulos, University of Piraeus, Greece

Section 2
Security, Dependability, and Performability

Chapter 8
Sensor Networks Security for Pervasive Healthcare ........................................................................... 155
Ioannis Krontiris, University of Mannheim, Germany

Chapter 9
Trustworthiness of Pervasive Healthcare Folders ............................................................................ 172
Tristan Allard, University of Versailles, France
Nicolas Anciaux, INRIA Rocquencourt, France
Luc Bouganim, INRIA Rocquencourt, France
Philippe Pucheral, University of Versailles & INRIA Rocquencourt, France
Romuald Thion, INRIA Grenoble, France

Chapter 10
Communication Issues in Pervasive Healthcare Systems and Applications ................................. 197
Demosthenes Vouyioukas, University of the Aegean, Greece
Ilias Maglogiannis, University of Central Greece, Greece
Chapter 11
Lessons from Evaluating Ubiquitous Applications in Support of Hospital Work .................. 228

Monica Tentori, UABC, México
Victor M. González, University of Manchester, UK
Jesus Favela, CICESE, México

Section 3
Methodologies and Frameworks

Chapter 12
Model-Driven Prototyping Support for Pervasive Healthcare Applications .................. 251

Werner Kurschl, Upper Austria University of Applied Sciences, Austria
Stefan Mitsch, Johannes Kepler University, Austria
Johannes Schoenboeck, Vienna University of Technology, Austria

Chapter 13
Designing Pervasive Healthcare Applications in the Home ........................................ 282

Toshiyo Tamura, Chiba University, Japan
Isao Mizukura, Chiba University, Japan
Yutaka Kimura, Kansai Medical University, Japan
Haruyuki Tatsumi, Sapporo Medical University, Japan

Chapter 14
TUM-AgeTech: A New Framework for Pervasive Medical Devices .............................. 295

Tim C. Lueth, Technical University Munich, Germany
Lorenzo T. D’Angelo, Technical University Munich, Germany
Axel Czabke, Technical University Munich, Germany

Chapter 15
Economic and Organizational Factors in the Future of Telemedicine and Home Care ......... 322

Giuseppe Turchetti, Scuola Superiore Sant’Anna, Italy
Elie Geisler, Illinois Institute of Technology, USA

Compilation of References ........................................................................................................ 336

About the Contributors ................................................................................................................ 370

Index ........................................................................................................................................ 380
