# Table of Contents

Foreword .............................................................................................................................................. xiv  
Preface ................................................................................................................................................ xvi  
Acknowledgment .................................................................................................................................. xxi  

## Section 1  
Coalition Communication and Information Networks

### Chapter 1  
Inter-Domain Routing in Mobile Ad Hoc Networks: Challenges and New Directions....................... 1  
*Chi-Kin Chau, University of Cambridge, UK*  
*Jon Crowcroft, University of Cambridge, UK*  
*Kang-Won Lee, T.J. Watson Research Center, USA*  
*Starsky H.Y. Wong, IBM T.J. Watson Research Center, USA*

### Chapter 2  
Quality of Sensor-Originated Information in Coalition Information Networks ............................... 15  
*Chatschik Bisdikian, IBM Research, USA*  
*Lance M. Kaplan, U.S. Army Research Laboratory, USA*  
*Mani B. Srivastava, University of California at Los Angeles, USA*  
*David J. Thornley, Imperial College London, UK*  
*Dinesh Verma, IBM Research, USA*  
*Robert I. Young, Defence Science and Technology Laboratory, UK*

### Chapter 3  
Graph Mining Techniques for Networking Applications: A Review ............................................ 42  
*Charu C. Aggarwal, IBM T. J. Watson Research Center, USA*  
*Eric Yu-En Lu, Cambridge University, UK*
Chapter 4
Region Coverage and Protection with Sensors: A Survey ........................................................................... 63
Ted Brown, City University of New York, USA
Peter Brass, City University of New York, USA
Matthew P. Johnson, City University of New York, USA
Simon Shamoun, City University of New York, USA

Section 2
Security and Policy Technologies for Coalitions

Chapter 5
Security across Disparate Management Domains in Coalition MANETs .............................................. 79
Mudhakar Srivatsa, IBM T.J. Watson Research Center, USA
Dakshi Agrawal, IBM T.J. Watson Research Center, USA
Andrew D. McDonald, Roke Manor Research Ltd, UK

Chapter 6
Policy Technologies for Federation and Interoperation of Coalition Networks ........................................ 103
Mandis S. Beigi, IBM Research, USA
Seraphin B. Calo, IBM Research, USA
David A. Wood, IBM Research, USA
Petros Zerfos, IBM Research, USA

Chapter 7
Policies to Enable Secure Dynamic Community Establishment ............................................................ 121
Alberto Schaeffer-Filho, Imperial College London, UK
Emil Lupu, Imperial College London, UK
Morris Sloman, Imperial College London, UK

Chapter 8
Policy Technologies for Security Management in Coalition Networks.................................................... 146
Seraphin B. Calo, IBM Research, USA
Clare-Marie Karat, IBM Research, USA
John Karat, IBM Research, USA
Jorge Lobo, IBM Research, USA
Robert Craven, Imperial College, UK
Emil Lupu, Imperial College, UK
Jiefei Ma, Imperial College, UK
Alessandra Russo, Imperial College, UK
Morris Sloman, Imperial College, UK
Arosha Bandara, The Open University, UK
Section 3
Human and Cognitive Issues in Coalitions

Chapter 9
A Model for Culturally Adaptive Policy Management in Ad Hoc Collaborative Contexts............ 174
  John Karat, IBM TJ Watson Research, USA
  Winston Sieck, Applied Research Associates, USA
  Timothy J. Norman, University of Aberdeen, UK
  Clare-Marie Karat, IBM TJ Watson Research, USA
  Carolyn Brodie, IBM TJ Watson Research, USA
  Louise Rasmussen, Applied Research Associates, USA
  Katia Sycara, Carnegie Mellon University, USA

Chapter 10
The Network-Extended Mind ............................................................................................................ 191
  Paul R. Smart, University of Southampton, UK
  Paula C. Engelbrecht, University of Southampton, UK
  Dave Braines, Emerging Technology Services, UK
  Michael Strub, Dstl Porton Down, UK
  Cheryl Giammanco, Human Research & Engineering Directorate, USA

Chapter 11
Cultural Network Analysis: A Cognitive Approach to Cultural Modeling................................. 237
  Winston R. Sieck, Applied Research Associates, USA
  Louise J. Rasmussen, Applied Research Associates, USA
  Paul Smart, University of Southampton, UK

Chapter 12
Conversation Analysis of Coalition Communication in Network Centric Operations.............. 256
  Ping Xue, Boeing Research & Technology, USA
  Stephen Poteet, Boeing Research & Technology, USA
  Anne Kao, Boeing Research & Technology, USA

Compilation of References .............................................................................................................. 275

About the Contributors ................................................................................................................... 301
