Foreword ................................................................. xii

Preface ......................................................................xiv

Acknowledgment ................................................................xxi

Section 1
Concepts, Methods and Approaches

Chapter 1
A Conceptual Framework for Risk and Vulnerability in Virtual Enterprise Networks .................. 1
Jan Husdal, Molde Research Institute, Norway

Chapter 2
Managing Supply Chain Risks: Understanding the Impact of Network Characteristics ............... 28
Brian Squire, Manchester Business School, UK

Chapter 3
Mitigating Risk through Building Trust in Virtual Enterprise Networks .................................... 49
Burak Sari, Leiden Institute of Advanced Computer Science (LIACS), The Netherlands

Chapter 4
Managing Risk in Virtual Enterprise Networks: A Supply Chain Innovation Perspective ............ 72
Samir Dani, Loughborough University, UK

Chapter 5
Knowledge Assets in Virtual Enterprises: Sources of Risk and Management Issues ................ 92
Ettore Bolisani, University of Padua, Italy

Chapter 6
Managing IT Risks in Virtual Enterprise Networks: A Proposed Governance Framework ........... 115
Mohammad Ali Shalan, PMP, ITIL, CISA, CGEIT, Jordan
Chapter 7
Modeling and Simulating Disruptions and other Crisis Events in Virtual Enterprise Networks........ 137
Ila Manuj, The University of North Texas, USA

Chapter 8
A Theoretical Framework for a Simulation-Based Analysis of Supply Chain Risk Management..... 162
Ruslan Klimov, Riga Technical University, Latvia
Yuri Merkuryev, Riga Technical University, Latvia
Juri Tolujew, The Otto von Guericke University of Magdeburg, Germany

Section 2
Models and Applications

Chapter 9
Aligning Product Design with the Supply Chain: Towards a Responsive and Resilient Enterprise ........................................................................................................................................ 184
Omera Khan, University of Manchester, UK
Alessandro Creazza, Università Carlo Cattaneo LIUC, Italy

Chapter 10
Flexible Supply Chains: A Boost for Risk Mitigation? ................................................................. 211
María Jesús Sáenz Zaragoza Logistics Center & University of Zaragoza, Spain
Maria Pilar Lambán, University of Zaragoza, Spain
Eva Navarro, Zaragoza Logistics Center, Spain

Chapter 11
Managing the Risk of Knowledge Transfer in Outsourcing Organizations................................. 239
Stavros Ponis, National Technical University, Greece
Epaminondas Koronis, University of Warwick, UK

Chapter 12
Upgrading Effectiveness in VEs: Decision Framework Based on the Benefits, Opportunities, Costs and Risks (BOCR) Model ................................................................................................................. 263
Konstantinos Kirytopoulos, University of the Aegean, Greece
Dimitra Voulgaridou, National Technical University Athens, Greece
Vrassidas Leopoulos, National Technical University Athens, Greece

Chapter 13
Risk Assessment in Virtual Enterprise Networks: A Process-Driven Internal Audit Approach ........ 290
Nikolaos A. Panayiotou, National Technical University of Athens, Greece
Stylianos Oikonomitsios, CIA, Consultant, Greece
Christina Athanasiadou, Ernst & Young, Greece
Sotiris P. Gayialis, National Technical University of Athens, Greece
Chapter 14
Avoiding Risks Related with Strategic Pricing in Virtual Enterprise Networks: An Agent Based Approach

Christos Manolarakis, Athens Information Technology, Greece
Ioannis T. Christou, Athens Information Technology, Greece
Gregory Yovanof, Athens Information Technology, Greece
