Table of Contents

Preface .................................................................................................................................................. xii

Acknowledgment.................................................................................................................................. xv

Section 1
Introduction to Vehicular Adhoc Networks (VANETs)

Chapter 1
Infrastructures in Vehicular Communications: Status, Challenges and Perspectives ......................... 1
  Danda Rawat, Old Dominion University, USA
  Gongjun Yan, Old Dominion University, USA

Chapter 2
Architecture of Vehicular Ad Hoc Network.......................................................................................... 19
  Debika Bhattacharyya, Salt Lake Electronics Complex, India
  Avijit Bhattacharyya, Salt Lake Electronics Complex, India

Section 2
Applications of VANETs

Chapter 3
The Role of Communication Technologies in Vehicular Applications............................................... 37
  Yacine Khaled, INRIA Rocquencourt, France
  Manabu Tsukada, INRIA Rocquencourt, France
  José Santa, University of Murcia, Spain
  Thierry Ernst, INRIA Rocquencourt, France

Chapter 4
Safety and Commercial Applications...................................................................................................... 59
  Samy El-Tawab, Old Dominion University, USA
  Gongjun Yan, Old Dominion University, USA
Chapter 5
Information Sharing in VANETs
Marco Fiore, INSA Lyon, INRIA, France
Claudio Casetti, Politecnico di Torino, Italy
Carla-Fabiana Chiasserini, Politecnico di Torino, Italy

Section 3
Communication Protocols in VANETs

Chapter 6
Medium Access Protocols for Cooperative Collision Avoidance in Vehicular Ad-Hoc Networks
Md. Imrul Hassan, Swinburne University of Technology, Australia
Hai L. Vu, Swinburne University of Technology, Australia
Taka Sakurai, University of Melbourne, Australia

Chapter 7
Analyzing IEEE 802.11g and IEEE 802.16e Technologies for Single-Hop Inter-Vehicle Communications
Raúl Aquino-Santos, University of Colima, México
Víctor Rangel-Licea, National Autonomous University of México, México
Aldo L. Méndez-Pérez, Universidad Autónoma de Tamaulipas, México
Miguel A. García-Ruiz, University of Colima, México
Arthur Edwards-Block, University of Colima, México
Eduardo Flores-Flores, University of Colima, México

Chapter 8
Survey of Routing Protocols in Vehicular Ad Hoc Networks
Kevin C. Lee, UCLA, USA
Uichin Lee, UCLA, USA
Mario Gerla, UCLA, USA

Chapter 9
Geographic Routing on Vehicular Ad-Hoc Networks
Hirozumi Yamaguchi, Osaka University, Japan
Weihua Sun, Nara Institute of Science and Technology, Japan
Teruo Higashino, Osaka University, Japan

Chapter 10
Reliable Routing Protocols in VANETs
Gongjun Yan, Old Dominion University, USA
Danda B. Rawat, Old Dominion University, USA
Samy El-Tawab, Old Dominion University, USA
Chapter 11
Mobility and Traffic Model Analysis for Vehicular Ad-Hoc Networks................................. 214
Shrirang Ambaji Kulkarni, Gogte Institute of Technology, India
G. Raghavendra Rao, NIE Institute of Technology, India

Chapter 12
Probabilistic Information Dissemination in Vehicular Ad Hoc Networks.............................. 233
Mylonas Y., University of Cyprus, Cyprus
Lestas M., University of Cyprus, Cyprus
Pitsillides A., University of Cyprus, Cyprus
Xeros A., Open University of Cyprus, Cyprus
Andreou M., Open University of Cyprus, Cyprus
Ioannou P., University of Southern California, USA

Section 4
General Research Challenges in VANETs

Chapter 13
Clustering, Connectivity, and Monitoring Challenges in Vehicular Ad Hoc Networks ............ 257
Ameneh Daeinabi, Sahand University of Technology, Iran
Akbar Ghaffarpour Rahbar, Sahand University of Technology, Iran

Chapter 14
Opportunistic Networking in Delay Tolerant Vehicular Ad Hoc Networks .......................... 282
Ashish Agarwal, Boston University, USA
Thomas D.C. Little, Boston University, USA

Chapter 15
Adaptive Solutions in Multihop Communication Protocols for Vehicular Ad Hoc Networks .... 301
Carlos Caloca, CICESE Research Center, Mexico, and University of Lille-North of France, France
Thierry Delot, University Lille-North of France, France
J. Antonio Garcia Macias, CICESE Research Center, Mexico

Compilation of References ............................................................................................................. 323

About the Contributors .................................................................................................................. 349
