Acknowledgment

The authors who contributed to this book deserve our heartfelt thanks for their contribution, patience and co-operation throughout the long and complex process of compiling this book. All the chapter contributors are listed with biographical sketches in a section of the book. Thanks to the Queensland Government Office of Women who helped by contacting the Smart State Smart Women award winners and providing the photos. The inspiration for the book came from the GoWEST team at USQ and their support and encouragement is much appreciated. Sincere thanks also to Eileen Trauth for writing the Foreword and for her consistent and valuable contribution to researching the role of women in the fields of information systems and technology.

The reviewers also played an essential role and we know the authors were very appreciative of the valuable comments provided by the reviewers. We sincerely thank the reviewers for taking the time to read and comment on the original submissions. Their contribution was an essential ingredient necessary to improve the content and presentation of the chapters.

A special note of thanks to the staff at IGI Global who provided the necessary processes, templates, reminders and project management of the entire process from our first proposal to this final publication. In particular we wish to express our thanks to Dr. Mehdi Khosrow-Pour, Executive Director of IGI Global, and Elizabeth Ardner, Editorial Assistant.

Finally, Aileen dedicates this book to Rick Glassey (the loveable rogue) for his encouragement, charisma and joie de vivre; and Emily dedicates it to Amanda Connell for being the smartest woman in science, the universe and everything; and to Mrs. Dr. Levy for being proof it can be done - for Emily and for so many others.
