Foreword ........................................................................................................................................... xviii

Preface ................................................................................................................................................ xx

Acknowledgment ................................................................................................................................ xxv

Section 1
Government Initiatives

Chapter 1
The Smart Women Smart State Strategy: A Policy on Women’s Participation in Science, Engineering and Technology in Queensland, Australia ................................................................. 1
   Alexandra Winter, Queensland State Government, Australia

Profile 1
Engineering Career Spotlight: Senior Engineer for Major Projects at Goonyella Riverside Mine ................................................................................................................................. 17
   Melanie Gordon, Moranbah, Australia

Chapter 2
Bias Literacy: A Review of Concepts in Research on Discrimination and the U.S. Context .......... 21
   Ruta Sevo, Consultant, USA
   Daryl Chubin, AAAS Capacity Center, USA

Profile 2
Science Career Spotlight: Microalgal Research Fuels Biotechnology-Based New Industries .......... 50
   Kirsten Heimann, James Cook University, Australia
Section 2
Initiatives to Reach Girls in Schools

Chapter 3
GETSMART: An Academic-Industry Partnership to Encourage Female Participation in Science, Technology, Engineering and Math Careers ................................................................. 56
  Natasha F. Veltri, The University of Tampa, USA
  Harold W. Webb, The University of Tampa, USA
  Raymond Papp, The University of Tampa, USA

Profile 3
  Katia Bazaka, James Cook University, Australia

Chapter 4
Increasing the Numbers of Women in Science ...................................................................... 78
  Gwen White, Gateway Community and Technical College, USA

Profile 4
Science Career Spotlight: Phytoplankton Growth in Queensland Coastal Waters .................. 92
  Emily Shaw, The University of New South Wales, Australia

Section 3
Programs for College and University Students

Chapter 5
Understanding the Links between Mentoring and Self-Efficacy in the New Generation of Women STEM Scholars ............................................................................................................. 97
  Elizabeth Yost, University of Alabama at Birmingham, USA
  Donna M. Handley, University of Alabama at Birmingham, USA
  Shelia R. Cotten, University of Alabama at Birmingham, USA
  Vicki Winstead, University of Alabama at Birmingham, USA

Profile 5
Technology Career Spotlight: QUT Bachelor of Corporate Systems Management .................. 115
  Helen Vahdat, Brisbane, Australia
Chapter 6
Go WEST - Supporting Women in Engineering, Science and Technology: An Australian Higher Education Case Study ................................................................. 118
Jacquie McDonald, University of Southern Queensland, Australia
Birgit Loch, University of Southern Queensland, Australia
Aileen Cater-Steel, University of Southern Queensland, Australia

Profile 6
Technology Career Spotlight: General Manager of Education Solutions at TechnologyOne .......... 133
Teresa Murphy, Brisbane, Australia

Section 4
Careers and Women at Work

Chapter 7
The Computer Games Industry: Women’s Experiences of Work Role in a Male Dominated Environment ................................................................. 138
Julie Prescott, The University of Liverpool, UK
Jan Bogg, The University of Liverpool, UK

Profile 7
Science Career Spotlight: In Search of New Vaccine for Cattle Tick ........................................... 153
Ala Lew, Brisbane, Australia

Chapter 8
“We Don’t Have the Key to the Executive Washroom”: Women’s Perceptions and Experiences of Promotion in Academia ............................................. 159
Jess Guth, Bradford University Law School, UK
Fran Wright, Bradford University Law School, UK

Profile 8
Technology Career Spotlight: Developing a Dynamic Environmental Calibration Technology for Cost-Effective Online Water Quality Monitoring ................................. 178
Shoshana Fogelman, South East Queensland, Australia

Chapter 9
Factors Contributing to the Success of Women Working in Science, Engineering and Technology (SET) Careers ................................................................. 183
David JF Maree, University of Pretoria, South Africa
Marinda Maree, University of Pretoria, South Africa
Profile 9
Engineering Career Spotlight: Project Manager for a Major Power Strengthening Project in Regional Queensland ................................................................. 207
   Julie Martin, TrackStar Alliance, Australia

Chapter 10
Women Access to Computers and Internet: A Malaysian Perspective........................................... 211
   Maslin Masrom, Universiti Teknologi Malaysia, Malaysia
   Zuraini Ismail, Universiti Teknologi Malaysia, Malaysia

Profile 10
Technology Career Spotlight: Cooperative Education in USQ Networking Programs with Leading Industry Organisation and Service to South-East Queensland Regional IT Professionals ................................................................. 227
   Yan Li, University of Southern Queensland, Australia

Chapter 11
SET Women and Careers: A Case Study of Senior Female Scientists in the UK.............................. 232
   Sue Durbin, University of the West of England, UK

Profile 11
Science Career Spotlight: Pollinating Insects in Natural and Agricultural Ecosystems in Australia’s Tropics ................................................................. 251
   Romina Rader, James Cook University, Australia

Chapter 12
The Career Challenge of the Gendered Academic Research Culture: Can Internet Technologies Make a Difference?......................................................... 255
   Anne Manuel, University of Bristol, UK

Profile 12
Engineering Career Spotlight: Investigation of Domestic Water End Use in Toowoomba............... 276
   Nicola Mead, GradIEAust, Toowoomba Regional Council, Toowoomba

Chapter 13
Progression of UK Women Engineers: Aids and Hurdles .............................................................. 280
   Haifa Takruri-Rizk, University of Salford, UK
   Natalie Sappleton, Manchester Metropolitan University, UK
   Sunrita Dhar-Bhattachajee, University of Salford, UK

Profile 13
Engineering Career Spotlight: Environmental Engineer ................................................................. 297
   Rachelle Willis, Brisbane, Australia
