Preface .................................................................................................................. vii

Section I: New Approaches for Teaching and Learning Online

Chapter I
A Comparative Analysis of Computer-Supported Learning Models and Guidelines ........................................................................................................ 1
  Fethi Ahmet Inan, The University of Memphis, USA
  Deborah L. Lowther, The University of Memphis, USA

Chapter II
Integrating Visual Representations of Knowledge with Learning Management Systems: Design Principles for Advanced Computer-Based Learning Support ..........................................................21
  John W. Coffey, The University of West Florida, USA

Chapter III
Peer Review in Computer Sciences: Toward a Regular, Large Scale Educational Approach ........................................................................................................45
  Vinícius Medina Kern, Instituto Stela, Brazil
  Roberto Carlos dos Santos Pacheco, Federal University of Santa Catarina, Brazil
  Luciana Martins Saraiva, Instituto VAIS, Brazil
  Joyce Munarski Pernigotti, Porto Alegre City Hall, Brazil
Chapter IV
Learning Management Systems: An Overview and Roadmap of the Systemic Application of Computers to Education .....................................66
William R. Watson, Indiana University - Purdue University Indianapolis, USA
Sunnie Lee, Indiana University, USA
Charles M. Reigeluth, Indiana University, USA

Chapter V
Integrating Computer-Supported Learning into Traditional Distance Courses ..................................................................................................97
Cengiz Hakan Aydin, Anadolu University, Turkey
Mehmet Emin Mutlu, Open Education Faculty, Turkey
Marina S. McIsaac, Educational Media & Arizona State University, USA

Section II: Main Issues and Trends in CSL

Chapter VI
E-Learning: Trends and Future Development ........................................ 122
Bernhard Ertl, Bundeswehr University Munich, Germany
Katrin Winkler, Ludwigs-Maximilians-University Munich, Germany
Heinz Mandl, Ludwigs-Maximilians-University Munich, Germany

Chapter VII
Towards the Educational Semantic Web ............................................ 145
Juan Manuel Adán-Coello, Pontificia Universidade Católica de Campinas, Brazil
Carlos Miguel Tobar, Pontificia Universidade Católica de Campinas, Brazil
João Luís Garcia Rosa, Pontificia Universidade Católica de Campinas, Brazil
Ricardo Luís de Freitas, Pontificia Universidade Católica de Campinas, Brazil

Chapter VIII
Using Semantic Web Technologies within E-Learning Applications .... 173
Wilson Castello Branco Neto, University of Planalto Catarinense, Brazil
Chapter IX
Using Open Archives and Learning Objects for Reusing CSL
Contents: The SCORM – Sharable Content Object Reference Model . 202
Rogério Patrício Chagas do Nascimento, Universidade do Algarve, Portugal

Chapter X
Implementing Computer-Supported Learning in Corporations ....... 228
Doris Lee, Pennsylvania State University, USA
Steve Borland, Temple University Health Systems, USA

Section III: Coordination, Collaboration, and Communication Technologies for CSL

Chapter XI
Awareness Design in Online Collaborative Learning:
A Pedagogical Perspective ................................................................. 251
Curtis J. Bonk, Indiana University, USA
Seung-hee Lee, Indiana University, USA
Xiaojing Liu, Indiana University, USA
Bude Su, Indiana University, USA

Chapter XII
Communication, Coordination, and Cooperation in Computer-Supported Learning: The AulaNet Experience .......... 274
Carlos J. P. Lucena, Catholic University of Rio de Janeiro, Brazil
Hugo Fuks, Catholic University of Rio de Janeiro, Brazil
Alberto Raposo, Catholic University of Rio de Janeiro, Brazil
Marco A. Gerosa, Catholic University of Rio de Janeiro, Brazil
Mariano Pimentel, Catholic University of Rio de Janeiro, Brazil

Chapter XIII
Video Annotation in Online Collaborative Discussion:
A Constructivist Tool for Computer-Supported Learning .......... 298
Myint Swe Khine, Nanyang Technological University, Singapore

Chapter XIV
Educational Geosimulation ................................................................. 315
Vasco Furtado, University of Fortaleza, Brazil
Eurico Vasconcelos, Integrated Colleges of Ceará (FIC), Brazil
Chapter XV
Balancing Tradeoffs in Designing, Deploying, and Authoring
Interactive Web-Based Learn-By-Doing Environments ....................... 339

Lin Qiu, State University of New York at Oswego, USA

About the Authors ..................................................................................... 362

Index ............................................................................................................ 372
