Table of Contents

Preface .................................................................................................................................................. xv

Chapter I
Information Systems Success and Failure—Two Sides of One Coin, or Different in Nature?
An Exploratory Study ............................................................................................................................ 1
Jeremy Fowler, La Trobe University, Australia
Pat Horan, La Trobe University, Australia

Chapter II
Achieving Sustainable Tailorable Software Systems by Collaboration Between End-Users and Developers ........................................................................................................................................... 19
Jeanette Eriksson, Blekinge Institute of Technology, Sweden
Yvonne Dittrich, IT-University of Copenhagen, Denmark

Chapter III
Usability, Testing, and Ethical Issues in Captive End-User Systems .................................................. 35
Marvin D. Troutt, Graduate School of Management, Kent State University, USA
Douglas A. Druckenmiller, Western Illinois University – Quad Cities, USA
William Acar, Graduate School of Management, Kent State University, USA

Chapter IV
Do Spreadsheet Errors Lead to Bad Decisions? Perspectives of Executives and Senior Managers........................................................................................................................................... 44
Jonathan P. Caulkins, Carnegie Mellon University, USA
Erica Layne Morrison, IBM Global Services, USA
Timothy Weidemann, Fairweather Consulting, USA

Chapter V
A Comparison of the Inhibitors of Hacking vs. Shoplifting .............................................................. 63
Lixuan Zhang, Augusta State University, USA
Randall Young, The University of Texas-Pan American, USA
Victor Prybutok, University of North Texas, USA
Chapter VI
Developing Success Measure for Staff Portal Implementation .......................................................... 78
  *Dewi Rooslani Tojib, Monash University, Australia*
  *Ly Fie Sugianto, Monash University, Australia*

Chapter VII
Contingencies in the KMS Design: A Tentative Design Model .......................................................... 95
  *Peter Baloh, University of Ljubljana, Slovenia*

Chapter VIII
Users as Developers: A Field Study of Call Centre Knowledge Work ............................................ 116
  *Beryl Burns, University of Salford, UK*
  *Ben Light, University of Salford, UK*

Chapter IX
Two Experiments in Reducing Overconfidence in Spreadsheet Development ................................. 131
  *Raymond R. Panko, University of Hawai‘i, USA*

Chapter X
User Acceptance of Voice Recognition Technology: An Empirical Extension of the Technology Acceptance Model .................................................................................................................. 150
  *Steven John Simon, Mercer University, USA*
  *David Paper, Utah State University, USA*

Chapter XI
Educating Our Students in Computer Application Concepts: A Case for Problem-Based Learning ................................................................................................................................. 171
  *Peter P. Mykytyn, Southern Illinois University, USA*

Chapter XII
Covert End User Development: A Study of Success ........................................................................... 179
  *Elaine H. Ferneley, University of Salford, UK*

Chapter XIII
When Technology Does Not Support Learning: Conflicts Between Epistemological Beliefs and Technology Support in Virtual Learning Environments ....................................................... 187
  *Steven Hornik, University of Central Florida, USA*
  *Richard D. Johnson, University of South Florida, USA*
  *Yu Wu, University of Central Florida, USA*
Chapter XIV
A Theoretical Model and Framework for Understanding Knowledge Management System Implementation ................................................................. 204

Tom Butler, University College Cork, Ireland
Ciara Heavin, University College Cork, Ireland
Finbarr O’Donovan, University College Cork, Ireland

Chapter XV
Exploring the Factors Influencing End Users’ Acceptance of Knowledge Management Systems: Development of a Research Model of Adoption and Continued Use ......................... 226

Jun Xu, Southern Cross University, Australia
Mohammed Quaddus, Curtin University of Technology, Australia

Selected Readings

Chapter XVI
Classifying Web Users: A Cultural Value-Based Approach ......................................................... 250

Wei-Na Lee, University of Texas at Austin, USA
Sejung Marina Choi, University of Texas at Austin, USA

Chapter XVII
mCity: User Focused Development of Mobile Services Within the City of Stockholm ............... 268

Annette Hallin, Royal Institute of Technology (KTH), Sweden
Kristina Lundevall, The City of Stockholm, Sweden

Chapter XVIII
End-User Quality of Experience-Aware Personalized E-Learning ........................................ 281

Cristina Hava Muntean, National College of Ireland, Ireland
Gabriel-Miro Muntean, Dublin City University, Ireland

Chapter XIX
High-Tech Meets End-User ........................................................................................................ 302

Marc Steen, TNO Information & Communication Technology, The Netherlands

Compilation of References ........................................................................................................ 321

About the Contributors ............................................................................................................. 360

Index ..................................................................................................................................... 364
