Table of Contents

Preface ................................................................................................................................................xiii

Acknowledgment ...............................................................................................................................xvii

Section 1
Foundation Issues in Data Warehousing and OLAP

Chapter 1
Data Warehouse Architectures: Practices and Trends ................................................................. 1
  Xuegang Huang, Danske Bank Group, Denmark

Chapter 2
Improving Expressive Power in Modeling Data Warehouse and OLAP Applications ................. 16
  Elzbieta Malinowski, University of Costa Rica, Costa Rica

Chapter 3
From Conventional to Multiversion Data Warehouse: Practical Issues ........................................ 41
  Khurram Shahzad, Royal Institute of Technology (KTH)/Stockholm University (SU), Sweden

Chapter 4
Compression Schemes of High Dimensional Data for MOLAP .................................................. 64
  K. M. Azharul Hasan, Khulna University of Engineering and Technology (KUET), Bangladesh

Section 2
Application Issues and Trends in Data Warehousing and OLAP

Chapter 5
View Management Techniques and Their Application to Data Stream Management .................. 83
  Christoph Quix, RWTH Aachen University, Germany
  Xiang Li, RWTH Aachen University, Germany
  David Kensche, RWTH Aachen University, Germany
  Sandra Geisler, RWTH Aachen University, Germany
Chapter 6
A Framework for Data Warehousing and Mining in Sensor Stream Application Domains .................. 113
Nan Jiang, Cedarville University, USA

Chapter 7
A Data Warehousing Approach for Genomics Data Meta-Analysis .................................................. 129
Martine Collard, INRIA Sophia Antipolis, France and University of Nice-Sophia Antipolis, France
Leila Kefi-Khelif, INRIA Sophia Antipolis, France
Van Trang Tran, I3S laboratory, University of Nice-Sophia Antipolis, France
Olivier Corby, INRIA Sophia Antipolis, France

Chapter 8
A Multidimensional Model for Correct Aggregation of Geographic Measures ................................. 162
Sandro Bimonte, Cemagref, UR TSCF, Clermont Ferrand, France
Marlène Villanova-Oliver, Laboratoire d’Informatique de Grenoble, France
Jerome Gensel, Laboratoire d’Informatique de Grenoble, France

Section 3
Foundations and Applications of Data Mining and Data Analysis

Chapter 9
Novel Trends in Clustering .............................................................................................................. 185
Claudia Plant, Technische Universität München, Munich Germany, Ludwig Maximilians Universität München, Munich, Germany
Christian Böhm, Technische Universität München, Munich Germany, Ludwig Maximilians Universität München, Munich, Germany

Chapter 10
Recent Advances of Exception Mining in Stock Market .................................................................. 212
Chao Luo, University of Technology, Sydney, Australia
Yanchang Zhao, University of Technology, Sydney, Australia
Dan Luo, University of Technology, Sydney, Australia
Yuming Ou, University of Technology, Sydney, Australia
Li Liu, University of Technology, Sydney, Australia

Chapter 11
Analysis of Content Popularity in Social Bookmarking Systems ....................................................... 233
Symeon Papadopoulos, Aristotle University of Thessaloniki, Greece Informatics & Telematics Institute, Thermi, Thessaloniki, Greece
Fotis Menemenis, Informatics & Telematics Institute, Thermi, Thessaloniki, Greece
Athena Vakali, Aristotle University of Thessaloniki, Greece
Ioannis Kompatsiaris, Informatics & Telematics Institute, Thermi, Thessaloniki, Greece
Chapter 12
Using Data Mining Techniques to Probe the Role of Hydrophobic Residues in Protein Folding and Unfolding Simulations .......................................................... 258
Cândida G. Silva, FCT, University of Coimbra, Portugal
Pedro Gabriel Ferreira, Center for Genomic Regulation, Barcelona, Spain
Paulo J. Azevedo, University of Minho, Portugal
Rui M. M. Brito, University of Coimbra, Portugal

Chapter 13
A Geostatistically Based Probabilistic Risk Assessment Approach ........................................... 277
Claudia Cherubini, Politecnico di Bari, Italy

Compilation of References ............................................................................................................. 304
About the Contributors .................................................................................................................. 333
Index ............................................................................................................................................... 340
