Acknowledgment

This project saw the day thanks to the involvement of several persons for help, assistance, review, collaboration, for their comments and suggestions. I wish to acknowledge the help of all involved in the collation and review process of the handbook, without whose support the project could not have been satisfactorily completed.

Deep appreciation and gratitude is due to all reviewers who spent their time to provide their all suitable comments and suggestions: Georges Abou-Khalil, Ronald Beaubrun, Abderrahim Benslimane, Ali Chamam, Mieso Denko, Abdellatif Ezzouhairi, Maher Gaha, Hichem Harhira, Maode Ma, Hakim Naifer, Stéphane Ouellette, Alejandro Quintero, Angelo Rossi, Haidar Safa, Méral Shirazipour, Fabrice Valois, Paul Vital.

Special thanks also go to the publishing team at IGI Global, whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. In particular to Ms. Rebecca Beitsline and Ms. Julia Mosemann, who continuously prodded via e-mail for keeping the project on schedule and to Mr. Ali Chamam from École Polytechnique in the first part of that project-and at the end has been pursued by Mrs. Sabine Kébreau also from École Polytechnique.

In closing, I wish to thank all of the authors for their insights and excellent contributions to this handbook.

Samuel Pierre, P.Eng., Ph.D.
