Table of Contents

Foreword ........................................................................................................................................... xviii
Preface ............................................................................................................................................... xxiii
Acknowledgment ........................................................................................................................ xcviii

Section 1
Foundations and Science

Chapter 1
Nanotechnology and Microelectronics: The Science, Trends and Global Diffusion......................... 1
Ndubuisi Ekekwe, Johns Hopkins University, USA & African Institution of Technology, USA

Chapter 2
Molecular Manufacturing: Nano Building Nano ............................................................................. 26
Chris Phoenix, Center for Responsible Nanotechnology, USA

Section 2
Technology Transfer and Innovation

Chapter 3
Trends in Nanotechnology Knowledge Creation and Dissemination ........................................... 42
Nazrul Islam, Cardiff University, UK

Chapter 4
Collaborations in the Open Innovation Era .................................................................................... 61
Annamária Inzelt, Financial Research Ltd, Hungary

Chapter 5
Towards the Sixth Kondratieff Cycle of Nano Revolution ............................................................ 87
Jarunee Wonglimpiyarat, Thammasat University, Thailand
Chapter 6
Technology Resilience and Diffusion: Capability Formation Dilemma in Non-Agile Economies

Yves Ekoué Amaizo, Afrology Think Tank, Austria and International Business and Project Management, Austria

Chapter 7
Adopter Fatigue Phenomenon in Diffusion of Innovations

Augustine O. Ejiogu, Imo State University, Nigeria

Section 3
Industry, Policy and Experiences

Chapter 8
Nanotechnology, Firm Innovation and University-Industry Networks: The Case of the UWS Nanotechnology Network in Sydney

Cristina Martinez-Fernandez, University of Western Sydney, Australia

Chapter 9
Licensing in the Theory of Cooperative R&D

Arijit Mukherjee, University of Nottingham, UK & The Leverhulme Centre for Research in Globalisation and Economic Policy, UK

Chapter 10
Entry Barriers to the Nanotechnology Industry in Turkey

Neslihan Aydoğan-Duda, İzmir University of Economics, Turkey
İrge Şener, Çankaya University, Turkey

Chapter 11
Micro and Nanotechnology Maturity and Performance Assessment

Nazrul Islam, Cardiff University, UK

Section 4
Ethics, Regulation and Environment

Chapter 12
Diffusion of the Clean Development Mechanism

Shaikh M. Rahman, Texas Tech University, USA
Ariel Dinar, University of California, Riverside, USA
Donald F. Larson, World Bank, USA
Chapter 13
Challenges to Intellectual Property Rights from Information and Communication Technologies, Nanotechnologies and Microelectronics ................................................................. 207
  Ahmed Driouchi, Al Akhawayn University, Morocco
  Molk Kadiri, Al Akhawayn University, Morocco

Chapter 14
Taking the Lead: How the Global South Could Benefit from Climate Finance, Technology Transfer, and from Adopting Stringent Climate Policies.................................................. 226
  Adrian Muller, University of Zürich, Switzerland

Chapter 15
Emissions Distribution in Post: Kyoto International Negotiations: A Policy Perspective............ 243
  Nicola Cantore, Overseas Development Institute, UK and Università Cattolica del Sacro Cuore, Italy
  Emilio Padilla, Univ. Autónoma de Barcelona, Spain

Chapter 16
Potential Ethical Concerns in Nanotechnology ................................................................. 261
  Chi Anyansi-Archibong, North Carolina A&T State University, USA
  Silvanus J. Udoka, North Carolina A&T State University, USA

Section 5
Lessons from Agricultural Technology

Chapter 17
Technological Change and the Transformation of Global Agriculture: From Biotechnology and Gene Revolution to Nano Revolution? ................................................................. 272
  Alejandro Nin-Pratt, International Food Policy Research Institute, USA

Chapter 18
Technology Adoption and Economic Development: Trajectories within the African Agricultural Industry ................................................................................................................. 298
  Taiwo E. Mafimisebi, Federal University of Technology, Nigeria

Chapter 19
Technology Development and Transfer: Lessons from Agriculture .................................... 314
  Saikou E. Sanyang, National Pingtung University of Science and Technology, Taiwan

Chapter 20
Technology Transfer and Diffusion in Developing Economies: Perspectives from Agricultural Technology................................................................. 325
  Edwin M. Igbokwe, University of Nigeria, Nigeria
  Nicholas Ozor, University of Nigeria, Nigeria
Section 6
Regional Developments

Chapter 21
Nanoscience and Nanotechnology in Latin America
Adolfo Nemirovsky, LatIPnet Inc., USA
Fernando Audebert, University of Buenos Aires, Argentina
Osvaldo N. Oliveira Jr., USP, Brazil
Carlos J. L. Constantino, UNESP, Brazil
Lorena Barrientos, Universidad Metropolitana de Ciencias de la Educación, Chile and Universidad de Chile, Chile
Guillermo González, Universidad de Chile and CEDENNA, Chile
Elder de la Rosa, Centro de Investigaciones en Óptica, México

Chapter 22
Technological Innovations and Africa’s Quest for Development in the 21st Century
Evans S.C Osabuohien, Covenant University, Nigeria and Lund University, Sweden

Chapter 23
Emerging Technology Transfer, Economic Development and Policy in Africa
Alfred Kisubi, University of Wisconsin, USA
Chi Anyansi-Archibong, North Carolina A&T State University, USA
Ngozi C. Kamalu, Fayetteville State University, USA
Johnson A. Kamalu, Alabama A&M University, USA
Michael U. Adikwu, World Bank-Step-B Project and University of Nigeria, Nigeria

Chapter 24
Trade Policies and Development of Technology in Africa
Louis O. Osuji, Chicago State University, USA

Chapter 25
Emerging Technology Penetration: The Case of Solar Electricity in Nigeria
Olalekan A. Jesuleye, National Centre for Technology Management, Nigeria and Obafemi Awolowo University, Nigeria
Williams O. Siyanbola, National Centre for Technology Management, Nigeria and Obafemi Awolowo University, Nigeria
Mathew O. Ilori, Obafemi Awolowo University, Nigeria
