Acknowledgment

The editors would first like to thank all the researchers who took part in the PISA 2007 workshop in Sapporo, and in particular Yuzuru Tanaka for hosting the event and for his continued support of our project.

We also express our thanks to all the reviewers and Editorial Advisory Board members who have helped in producing this book, and to Joel A. Gamon, our Development Editor at IGI Global, for patiently guiding us through the publication process and answering our many questions.
